Possess Good Health By Looking after THE BOWELS

A free motion of the bowels, once or twice a day, should be the rule of every one, as half the ills of life are caused by allowing the bowels to get into a constipated condition.

When the bowels are allowed to become constipated, the stomach gets out of order, and the liver does not do its work properly on account of holding back the bile so that it does not pass through the bowels, but is allowed to get into the blood, thus causing a poisoning of the whole system.

SKATING GOOD

Number of Parties Were Out Last Night and Local Ponds Are Used.

There were several skating parties at the salt lake last evening and they reported the ice good and everything favorable to an enjoyable time.

There is a pond at Seal Cove that was used a good deal yesterday and many utilized the Morse Creek pond while the children skated on the hotel foundation and other pieces of suitable ice.

This afternoon there will be a good many parties out and tomorrow afternoon will be the big time if the present weather continues.

IN THE LETTER BOX

Editor Daily News:

You hear quite a lot of talk about unemployed men. What about the women? When the dry dock closed its doors it did so on both man and woman.
