Resumption Clubs

Selling Beer Seems Likely.

It is apparent from the Victoria despatches received yesterday that the Liquor Control Board is going to allow the sale of beer, at least in returned soldiers' clubs. The proviso seems to be that the sale will be confined exclusively to bona fide members of the clubs. After a conference with the attorney-general, all the veterans' clubs in the province, it has been decided, will resume the sale of beer to their members. This would lead one to believe that all alike are to be free of prosecution in taking this course. The next thing then will be a demand from all other clubs, and there are now many of them in the province to be accorded the same privilege and it is difficult to conceive of how the liquor board is going to prosecute them either. It seems reasonable to expect that within a few days there will be a general resumption of beer selling in all the clubs in the province.

Will Club Charters Be Abused?

If this is allowed and all the clubs are permitted to sell beer to members, it remains to be seen where the line is to be drawn. Many owners of places who were formerly carrying on an open bar business in near beer will, doubtless, make application for incorporation of their premises as clubs. In some of these clubs the matter of membership is so simple that the condition that only bona fide members be served will be overcome quite easily. In any case it will be a difficult matter to police such places to see that the law is being lived up to in this respect. It is to be hoped that the club charter will not develop into a purely commercial proposition for the benefit of persons who formerly operated near beer bars and wish to continue in that business. If such is to be the case the "beer clauses" of the Moderation Act might just as well be dropped altogether. Since many of the clubs under prohibition were little better than gambling dens and saloons the condition will be no better than it was before with near beer bars on every corner.

Action by Legislature Will Be Necessary.

It is evident that there will be changes in the beer clauses of the Moderation Act when it comes up at the next session of the legislature in the fall. The Liquor Control Board can make these clauses inoperative at the present time but they cannot be left in that status. It must be remembered that doing this only means the countenancing of open breaking of the law. All clubs which are now selling beer, even with the understanding that they are not to be prosecuted, are acting illegally as far as the Moderation Act is concerned. The selling of beer, except by the government vendor, is forbidden and the liquor board cannot change that provision. The legislature will either have to instruct the liquor board to carry out the law, change the law to fit the case, or wipe it off the statute books altogether.

Drunkness and Bootlegging More Dangerous.

Even though the Liquor Control Act may already be developing some impracticable and unsatisfactory features, there is one clause in it that is going to be a good one. That is the section in regard to drunkenness which provides for a fifty dollar fine for those guilty of being drunk and the demand that they divulge the source of supply of their liquor. It is safe to predict that with such a punishment there is not going to be so much drunkenness as there was before. If a man does become intoxicated it is likely that precautions will be taken for keeping him away from the eye of the law and the nuisance will, at least, be removed from the public sight. It is satisfactory to know that the prevalence of open drunkenness will be reduced. The fact that drunks are to be made enforced witnesses in bootlegging cases may also have the effect of discouraging this illicit business especially since the punishment for this offence is also much more severe than it was before.

"Fruit-a-tives" is a grand medicine and I cannot say enough in its favor."

PLEASED WITH PROGRESS ON COURT HOUSE

A. C. McDougall returned to Calgary Last Night After Inspecting Local Work.

Construction work on the new provincial government court house at Market Place is proceeding with expedition. A. C. McDougall of the contracting firm of McDougall & McNeill, of Calgary, which has the work in hand, left last night on his return to Calgary after a visit of inspection. He expressed much satisfaction before he left the city on the manner in which things were proceeding on the job and was pleased with the progress so far.

Mr. McDougall stated that, in the neighborhood of two months, the concrete work would be finished. The present woodwork that is being put up at Market Square is the framing which will receive the concrete. By the time this concrete work is finished the building will begin to take shape and its size will be fully evident. Around the concrete will be put on the cut stone and brick, with which the exterior is finished.

Assembling Materials.

At the present time Albert & McCaffery, the local partners in the big job, are busy assembling materials for the building. A great part of the materials for the masonry is already on hand. Mr. Albert also returned south last night with Mr. McDougall. The latter expects to pay regular monthly visits to Prince Rupert until the work is completed.

J. H. McNeill, a partner in the firm of McDougall and McNeill, and the engineer superintendent of the work here, is being kept busy laying out the various parts as a contract of this magnitude needs a great deal of supervision and planning out.

Mr. McDougall, speaking of conditions on the prairies this year, stated that conditions looked excellent. There was a prospect of a bumper crop which would have its great effect on this province in the transportation of grain by way of the Pacific ports. There would be also the indirect result of added prosperity throughout the west.

SEED 5,000 YEARS OLD IS PLANTED

BALTIMORE, June 24.—A Morning Glory seed, reputed to be 5,000 years old, has been brought to Baltimore and planted in the garden of Mrs. W. Champlin Robinson, in Green Spring Valley. The seed is one of 12 found in the hand of a mummy of a young Egyptian girl which was recently removed to the United States. Ten of the seeds have already been planted, and all of them germinated.

Ten Years Ago in Prince Rupert

June 24, 1911.

A newly organized orchestra of which Prince Rupert can now boast, held a musical recital at the Salvation Army Citadel on Sunday night. Eight members of the orchestra took part and rendered sacred music to the evident appreciation of the large audience. Ensign Johnstone was particularly appreciative of the kindness of the members and organizers for their assistance in making his services bright and attractive.

"If you want to stay away from church do so when I am here not only when Ensign Johnstone occupies the pulpit. If you do so, then I wish you would stay away altogether. It is not fair for us as a Christian body to leave the Salvation Army to do all the dirty work.

When there is anybody to be helped, the Salvation Army is rung up, and then when Ensign Johnstone comes here to conduct the service in my absence half the congregation stay away." This is what Rev. F. W. Kerr of the Presbyterian Church said last night in the heat of righteous indignation. He scored the followers of the church for their apathy and unfairness.

Many people read newspapers as much for their advertising columns as they do for news.

High Average Mileage

Sometimes you find a tire that gives extraordinary mileage—one in a dozen perhaps. Whereas the average of mileage given by a dozen—or a hundred—Ames Holden "Auto-Shoes" will be as high as that given by the exceptional ordinary tire.

It's the high average that counts—that cuts the cost of miles—that makes it worth while to get Ames Holden "Auto-Shoes" instead of ordinary tires.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.
