### ORANGE DANCE WAS ENJOYABLE AFFAIR

One Hundred and Fifty Dancers Were on Hand to Take Part in Successful Event.

The dance given last night by the Loyal Orange Lodge in the St. Andrew's hall proved a highly enjoyable affair. There were about 150 in attendance keeping time to the tuneful strains of Arthur's Orchestra. At midnight refreshments of a high order were served under a committee consisting of Mrs. S. Warrior, Mrs. W. Reid, Mrs. F. Haugh and Mrs. M. Lemon. S. L. Warrior was the master of ceremonies, W. Baker was on the door and the committee in charge comprised F. Haugh, S. L. Warrior, Jack Plint and W. Baker.

### CANADIAN FISHERMAN EDITOR REVIEWS THE FISH CAR GRIEVANCE

(Continued from Page One.)

Prince Rupert's greatest assets. Every citizen of the place derives some benefit, directly or indirectly, from the fisheries. Were it not for fish, the Grand Trunk Pacific Railway would have but little excuse for making Prince Rupert a terminal. It is one of the biggest eastward hauls the railroad has. Take away the fish and there is little else.

**Not Care Two Pins**  
One would imagine that the officials in charge of the Grand Trunk Pacific and Canadian Government Railways, and the Canadian Express Company which is allied with it, would do everything in their power to foster the fishing industry at their terminal port; that the Minister in charge of the Government railway system would be only too glad to develop a remunerative business in an effort to show a profit rather than the depressing annual deficit which is a feature of the system. But such is, evidently not the case. It would appear that neither Minister or the officials under him care two pins whether the railway prospers or not. Here's the story. You can judge for yourself.

When hostilities ceased the fish trade of Prince Rupert and the Board of Trade made representations to the Minister of Railways and Express Company officials asking that additional express refrigerator cars be built and placed in commission as soon as possible to take care of the increasing fish shipments of the port. One hundred cars were suggested as being necessary to take care of the business offering and same was confirmed by an affidavit from the General Manager of the Grand Trunk Pacific Railway.

Early in 1920, a considerable time after the initial request was made, the railway announced that thirty express refrigerator cars would be built and placed in commission as soon as possible.

**Resolutions**  
At the Convention of the Canadian Fisheries Association held in Vancouver in June 1920, Prince Rupert delegates brought the matter of their car requirements before the convention and a resolution was passed drawing attention to the need.

On July 8th, 1920, the Prince

**Backache**  
tells of kidney trouble. The most prompt relief is obtained by using Dr. Chase's Kidney-Liver Pills, the well-known home treatment. One pill a dose. 25c. a box, all dealers.

**Dr. Chase's Kidney-Liver Pills**

Rupert branch of the Canadian Fisheries Association followed this up by asking the executive to press for cars.

Both these resolutions were placed before the Hon. J. D. Reid, Minister of Railways, and the National Secretary of the Canadian Fisheries Association in a long communication to the Minister dated July 28, 1920, elaborated upon the handicap the Prince Rupert fish trade was laboring under through lack of proper transportation equipment, and he furnished statistics showing the amount of tonnage which was diverted from the port of Prince Rupert through lack of cars.

The Minister was travelling through the West when the letter was sent, but the Asst. Deputy Minister acknowledged same and stated that he was forwarding the communication to the President of the Canadian National Railways system for his information.

The Prince Rupert branch of the Canadian Fisheries Association, through their secretary, J. L. Lee, kept the matter prominently before President D. B. Hanna of the Railway System and also enlisted the aid of the Transportation Division of the Department of Marine and Fisheries. This latter department through J. H. Conlon, made representations to relieve the car shortage as soon as possible, but this matter is one that calls for the personal attention of the Minister of Marine and Fisheries himself and not that of an official who is saddled with too many varied tasks and whose standing is not likely to impress the Railway Moguls. However, Mr. Conlon did what he could from the departmental side.

### Millions Lost

Secretary Lee of the Prince Rupert C. F. A. kept a record of the car shortages at Prince Rupert and same were mailed monthly to Chairman Garvell of the Board of Railway Commissioners, President D. B. Hanna of the National Railways, Department of Marine and Fisheries, and the National Secretary of the C. F. A. These records told of a serious state of affairs—serious to have commanded the earnest consideration of any business man but evidently not serious enough for a government official. Men who can sleep easy administering an organization with a deficit of many millions do not lose any slumber over the demands of a bunch of fish men for more cars, or chances for securing big business.

Owing to the uncertainty of the supply of cars fishing vessels are avoiding the port of Prince Rupert and are carrying their catches to Alaskan ports and to Vancouver and Seattle. Vessels are daily coming in to Prince Rupert with large trips of fish and finding no cars available, they clear again for another port. One small vessel with a catch of 80,000 lbs. of halibut means \$2,400 in tolls (Continued on Page Six.)
