NEW HALL FOR ANYOX LEAGUE

Community Work Reports Received at Recent Meeting of Organization.

ANYOX, Dec. 21.—It is the intention of the community league here to erect a new building to house the various activities of the institution. The matter was taken up at the last meeting with H. S. Munro, general manager of the company. President R. Armour was in the chair and reports were received from the various departments.

Physical classes are to be started at an early date, basketball is in full swing and leagues being formed. The games are played on Wednesday, Thursday and Friday of each week.

A dancing class is being conducted which is proving popular, being 32 pupils in attendance.

Reports were received of a collection for a Christmas tree, the proceeds from which amounted to \$192.15.

The Alice Arm Herald just to hand says: "It is the intention of the Anyox Community League to commence the construction of a new picture theatre at an early date in the spring. The theatre will be on the ground floor and will have a seating capacity for 100 people. The basement will be used as a swimming pool. An up-to-date heating plant will be installed so that the water in the swimming pool can be kept at a comfortable temperature at all seasons of the year."

PRODUCE STEEL IN INDIA CHEAP

LONDON, Dec. 21.—India will soon be able to produce the cheapest steel in the world, says an announcement by two British firms which have undertaken to organize the United Steel Corporation of India, Ltd. They propose to establish, as soon as possible, works on a large scale, near deposits of iron, coal and limestone.

Iron ore of high quality, fluxes of singular character and excellent coking coal occur close together in Bihar and Orissa, the coal-bearing state, and the cost of these materials is much lower than has to be paid for them in other steel-producing countries.

The plant to be erected in India is designed to produce eventually 300,000 to 500,000 tons of pig iron, with steel works and rolling mills capable of producing 450,000 tons of finished steel a year.

CHANGE IN RULE OF ROAD.

The attention of the public is directed to the fact that the change in the rule of the road comes into effect on the 1st of January next. Under the new rule persons in charge of a vehicle, on meeting another vehicle, are required to turn to the right instead of the left, and in overtaking another vehicle, the vehicle so overtaken is required to turn to the right to permit the overtaking vehicle to pass. All existing licenses in respect to motor cars expire on the 31st instant, and applications for renewed licenses must be made on or before the 31st instant. Owners of motor cars are urged to make application at once for renewal of their licenses. Each applicant will be furnished with a sticker to be attached to the windshield of his motor car, giving evidence that on and after 6 a.m. on Sunday the 1st day of January, 1922, he must keep to the right, and when overtaking any vehicle going in the same direction, to the left.

ANNUNCIATION TERM CLOSING

Splendid Concert Put in Gaily Decorated Catholic School—Christmas Tree.

The closing exercises and Christmas Tree took place yesterday afternoon at the Annunciation Catholic School. There was a splendid program of choruses, solos, recitations, dialogues and duets by the pupils. Following this Santa Claus arrived and distributed gifts, candy, fruit, popcorn, nuts and other dainty things from the bountiful laden tree. The hall was prettily decorated and presented a gay scene indeed. It was packed with parents and friends of the kiddies. Rev. Father McGrath presided and was in his usual good natured and genial mood. The program was as follows:

Chorus, "All Hail to Merry Christmas," by the school.
Recitation, "Christmas Doves," by Mary O'Brien, Marjorie Warner, Muriel Adams and Elieene Roberge.
Piano solo by Edgar Couture.
Recitation, "Santa Claus and the Mouse," by Miss Gwen Palmer.
Song and drill, "Christmas Dollies," by the little ones.
Speech, "Fun," by John Connadino.
Piano duet by Miss Jean Stalker and Miss Virginia Riel.
Recitation in costume, "Playing Grandmother," by Miss Margaret Van Gooten.
Song, "Helping Stana," by twelve little girls.
Recitation, "The Look Out Men," by Miss Rose Moran.
Minstrel Song by Masters Bartlett Wakefield, Milton Gillis, Vincent Meagher, Stanley Moersch, Cameron McKinnon and Alex Johnson.
Piano solo by Miss Evelyn Vickers.
Playlet, "The Day After Christmas," by Miss Lottie Lacombe and Masters Billy Featherstonhaugh and Richard Smith.
Reading, "Bonnie Brown's Sister's Wedding," by Edward Byrne.
Song, "Christmas Bells," by the Senior Girls.
Chorus, "Tis Winter Time so Make Ready for Santa Claus," by the school.

UNEMPLOYED MEETING YESTERDAY AFTERNOON

Half Time for Single Men Decided to Be Insufficient—More Requests to City Council.

Sixty persons were present at the meeting of the unemployed which was held yesterday afternoon in the McIntyre Hall. A committee submitted the proposition of the city to provide five and one-half days per week relief work for married men irrespective of numbers in their families and three days and two and one-half days work for single men. The meeting considered the provision for single men insufficient, but refused to have the time for married men reduced.

After considerable discussion, it was decided to take a list of the destitute present at the meeting. Half of those in attendance put their names on this list. The committee was instructed to ask the council that the men be paid in cash. The council will also be asked to provide three days a week for single men. It will be suggested to the council that all married men with two or more children be given full time. The individual cases urgently in need of relief will be submitted in a list to the city engineer and the provincial government employment agent.

W. Ormshaw was chairman of the meeting.

For Your Christmas Gift to all the Family

The famous All-wood Oval Horn, an exclusive feature of the Brunswick, is here shown with the grille of the instrument removed. This all-wood oval horn is built like a violin, from the choicest woods—not an atom of metal. Your own ears appreciate the result—tones that are rich, clear, and above all, natural.

Above is illustrated the exclusive Brunswick Ultona, a combined tone arm and reproducer, which, by a mere twist of the wrist, plays each make of record exactly as it should be played. It gives the precise diaphragm, the exact weight or pressure, and the correct point or needle for every record. Nothing to take off or put on—the Ultona is complete.

The Greatest Phonograph Value in Canada

Why?

Read these reasons

1. You figure on buying a phonograph only once. Therefore, you need to be careful that you do not buy a phonograph which is restricted to one make of records, or which needs various makeshift attachments to give it a wider scope. Such an instrument would never be satisfactory. Buy instead, the all-record Brunswick—expressly designed and equipped to play without any attachments or extras, every make of record—and to play each make with absolute fidelity. The Brunswick actually plays ALL records PROPERLY—it is the only phonograph which does this.
2. You want an instrument whose tone is truly natural, which reproduces each musical instrument and each type of human voice with lifelike exactness. This the Brunswick does perfectly, because of its Ultona and its all-wood oval horn.
3. You want to be sure of getting the best value. And you are sure when you buy a Brunswick. It is the product of the oldest and largest woodworking company in all North America—the Brunswick-Balke-Collender Company. The cabinet designs of the Brunswick are an enduring delight to the eye. They are made from thoroughly seasoned wood—built to last a lifetime. No phonographs of any-

thing like equal quality can be had anywhere at lower prices.

4. You want a variety of choice at a price you can afford to pay. Here again, the Brunswick serves you best. From a beautiful table model at \$80 up to the elaborate de-luxe model at \$2,500, there is a range of designs and sizes to suit all pocket books.
5. You want convenient terms—and all Brunswick dealers are prepared to meet your views. You can have a genuine Brunswick cabinet model delivered to your home for as little as \$10 cash, with the balance spread over an entire year.
6. You would rather, all other things being equal, buy a Canadian-made product. Brunswick Phonographs are made in Canada, and every Brunswick sold means money in the pay envelopes of Canadian workmen.
7. The Brunswick comes to you fully equipped to play all makes of records. With each Brunswick is supplied, free of charge, 200 steel needles, one sapphire point and one jewel point (or genuine diamond in permanent position).
8. You prefer a guaranteed phonograph. Every Brunswick is fully guaranteed—even including the springs of every Brunswick-made motor.

Just you hear the Brunswick

PRESENTATION MADE TO PROFESSOR PRICE BY MEMBERS OF CLASS

On Monday evening H. A. Price was visited at his studio in the Methodist Church building by the members of his student's orchestra and a few friends and presented with a china set on a tray as a mark of appreciation of his work with them. The presentation was made by Miss Ina Wood and several other members also expressed their sentiments in regard to the good work Mr. Price had done. The orchestra numbers nine members and there were about twenty people present in all. The evening was spent pleasantly in games and music and the party broke up in the early hours of the morning.
