DAILY EDITION Tuesday, November 8, 1921

Self Preservation Is First Law.

Self preservation is the first law of nature. Our first duty is to ourselves. If we wish to reward Colonel Peck for his services on the field we do not hand him trouble by asking him to represent us in the House of Commons. He himself asks that we set aside from consideration his military services, which have nothing whatever to do with the election of a member to Parliament. What we want now is to consider the whole political situation as it affects Prince Rupert and the whole of the Skeena district and to choose a candidate that will be likely to do most to place the district on the map. If the man who is most likely to do this is Colonel Peck, then vote for him. If, on the other hand, it seems probable that Fred Stork is most likely to give effective help at this critical time, then we must sink our personal views in the common interest and vote for Fred Stork. That is the way to look at the present political situation as it affects ourselves.

Railway Question Overshadows Others.

The railway situation is the most important with which we have to deal. On it depends everything else. With the railway functioning well we shall become a big seaport, but with the line to this port looked on as a branch and treated with contempt, we can expect nothing in the way of development. What we should do just now is to sink all differences and unite on the candidate who will do us most good.

Mackenzie King Is Man to Support.

Just now the man for Prince Rupert to support is W. L. Mackenzie King. He was here last year and went into the railway situation thoroughly. He understands the position in every detail. More than that, he is pledged to get behind the railway and see that it is made into a real transcontinental railway as was intended by his former illustrious leader, Sir Wilfrid Laurier.

In developing this port and giving a good railway service Mr. King will be simply following out the pledges made by the Liberal leaders at the time he was a member of the Liberal Government. It is a member of Sir Wilfrid Laurier's Government carrying on the promised policy. What we should do then is to get behind Mackenzie King with all the strength possible. To do that we must vote for Fred Stork, the Liberal candidate.

Newspapers Have Situation Clear.

Colonel Peck has been placed by the newspapers of the south as a supporter of the Meighen administration. His supporters ask us to set him right in this. The Colonel disclaims being a supporter of the Conservative Government, or as we should possibly call it, "the National Liberal and Conservative Government." He supported that Government up to the time of dissolution, but he has changed his allegiance, not to the Liberals, mind you. That would not suit his supporters, who are practically all Conservatives. He is now an independent. He supports nobody and, presumably, has no policy.

If Colonel Peck is to amount to anything at Ottawa he must ally himself with one of the big groups there. Which one is it to be? He knows as well as anyone that he can do nothing alone. We think it is fair to the electors of this constituency for him to stand in the middle and not tell, until after Parliament meets, which way he intends to vote on questions affecting the policy of the country.

How Representatives Are Chosen.

Representatives are chosen for Parliament because they stand for something definite. Fred Stork stands for the Liberal policy and we know exactly where to place him. Colonel Peck has not told us what policy he will support. He simply asks to be returned to the House of Commons as a free lance to do as he likes. Apparently the Conservatives expect him to join with Premier Meighen, for they are behind him to a man and are righteously indignant that anyone should have the temerity to oppose him.

Electors should remember that in sending a representative to Ottawa he is not going to sit on a city council or similar small body. He will be one of 235 members, among whom are some of the finest orators in Canada. In that number he is absolutely without influence unless he is in sympathy with one of the big groups. To stand up on the floor and speak alone would mean to talk to empty benches.

In Canada we are governed by groups, which we call parties. It may or may not be the best method, but it is the present method, and anyone not a member of a group is a nobody in the House of Commons.

PEPS

COUGHS, Colds, Bronchitis and chest ailments are started by germs you breathe in with the air. They attack the membrane lining the nostrils, throat, and breathing tubes. Soreness and inflammation speedily develop unless Peps infection-killing tablets are taken quickly.

As Peps dissolve in the mouth they give off powerful healing and germicidal fumes that mix with the breath and circulate through all the air-passages direct into the lungs. In this efficient way Peps destroy all disease germs. Soreness and inflammation are instantly allayed, the air-passages are soothed and repaired, obstructions of phlegm are cleared away, and the breathing becomes easy.

THE WONDERFUL BREATHEABLE MEDICINE

Peps bring the potent lung-healing balsams of the pine forest and other rich volatile medicines of equal benefit and safety to the youngest child or aged bronchial sufferer. Peps are guaranteed free from opium, morphia, and all dangerous habit-producing drugs.

How much more sensible this direct Peps treatment than dosing and upsetting your stomach with nauseous drug-laden mixtures and syrups?

Get a box of Peps to-day. Once you try these unique breatheable tablets you will never use any other remedy for coughs, colds, chills, sorethroat, bronchitis, night-cough, laryngitis, asthma, etc.

You can test Peps at our extensive branch in Vancouver. Send for a box (for return postage) to The Peps Co., Toronto, for FREE TRIAL PACKAGE. All dealers, 25c. box. 3 for \$1.25.

 Next the Prince Rupert Hotel

Ten Years Ago in Prince Rupert

Ald. Morrissey last night introduced at the council meeting the idea of commission government in Prince Rupert. There was a lengthy discussion on the advisability of abolishing the ward system.

The municipal electric plant is burning the last scrap of coal while the council is hagglng over who shall get the contract for supplying more.

The city is to hire an expert to examine the timber at Woodworth Lake which will be flooded when the dam is put in.

The Man in the Moon SAYS-

"I ALWAYS say what I think," declared the young man, and it was quite evident his thinking apparatus was badly in need of repair.

The best thing the average cartoonist draws is his salary.

WHEN a man always votes Conservative, it is very difficult to persuade people that he is not that at all. He is something quite different.

IDLENESS is a sin, but it is well to give the tongue a rest now and then.

EVERY man who finds the line busy a few minutes thinks the girl at central is just fooling him. Men are so suspicious.

ATTEMPT TO BREAK JAIL

Bars and Screens Sawn Through But Were Discovered Before Prisoners Got Away.

What might have resulted in another jail breaking at the city lock-up was frustrated on Sunday afternoon by Sergeant Bailey. The officer had just returned from his lunch at 2:30 when he heard a scratching noise coming from a window in the kitchen at the rear of the jail. He proceeded into the jail and on making a close search found that two of the 5-8 inch bars had been sawn through, the larger of the two having been put back in place so that it looked solid and intact. On first examining it looked as if nothing was wrong but on feeling the bars the cutting was discovered. Three steel wire screens had also been cut and all was in readiness for an escape which was probably planned for the evening.

The prisoners were all locked in their individual cells as soon as the discovery was made but nothing was found out until about 5 o'clock in the evening when Philip McDonald, who has been convicted of theft, admitted having done the work.

There were nine prisoners in the jail at the time, seven of whom were serving terms, and two of whom are to go south to serve time for thefts.

CATHOLIC BAZAAR PROMISES SUCCESS

Full Arrangements Made for Two Days Amusement and Entertainment.

The Catholic Bazaar will be held tomorrow and Thursday of this week in St. Andrews Hall, proceedings on each afternoon commencing at 3 o'clock. Great pains have been taken by the ladies of the congregation in connection with this Bazaar and everything points to its being as good if not a greater success than the bazaars held in previous years. The fancy work booths will afford a great variety of choice to the purchasers.

Every afternoon from 3 o'clock onward, tea will be served, while tomorrow night, at 8 o'clock, the children will give their usual concert, which in previous years has proved to be such an interesting function. And this year the quality of the program will lack none of the interest displayed in other seasons.

One of the special attractions for Thursday night is the home cooked dinner being put on by the ladies from 6 to 8 o'clock. Knowing the cooks, some of the gourmets have already made their reservations for the evening meal.

There will be many other attractions and amusements for young and old and everyone is assured a good time at the Bazaar for the next two evenings.

NOTICE.
 The undersigned wish to give public notice that they have acquired and taken over the business of the West End Cafe and Chop Suey and Rooming House from Wong T. Tor, Man San Sing and Wong Sai Ping. All persons having unpaid bills against the said business are required to send the same in to us before November 15th.
 Dated 4th November, 1921.
