BANKS REPLACE
GIRLS BY MEN

Failure to Make Banking Life
Work is Reason For
Change.

MONTREAL, Sept. 20.—While
girls and women are being grad-
ually replaced by men in the
more important positions in
banks for which women were
engaged in considerable num-
bers during the war there is
still and always will be, room for
a large number of women work-
ers in the head offices of banks,
according to the statements of
a number of bank executive offi-
cers in Montreal.

The general feeling was that
for routine work, and machine
work, there was an ample op-
portunity for women to do good
and useful work in banks, and
a good number would always be
employed in such work, but that
in work where an opportunity was
offered of rising to high and re-
sponsible positions they prefer-
red to engage men who were
more likely to make this their
life's career.

No Dismissals.

The head of the staff depart-
ment of one of the leading banks
with head offices in Montreal
declared that for some time they
had been replacing girls by men
in all those services where it
was possible to train men to
occupy responsible positions.
There had been no dismissals, as
the girls had come to the rescue
at a time when they were badly
needed, and had rendered most
valuable services, but when any
of them dropped out on account
of marriage or for any other
reason, men were engaged in
their place. They had been highly
satisfied with the services of the
women assistants, he added, and
the only inconvenience they of-
fered was that they were not
usually prepared to make bank-
ing their life's career. Hence,
when someone was wanted who
could be trained to rise in the
bank's service to occupy an im-
portant position for life, they
preferred to take a man on.

There were many departments
in a bank's head office however,
which did not offer a great fu-
ture, and these positions were
quite suitable for girls as they
could marry and leave their
position without causing any dis-
organization in the service.

Country Branches.

Another bank executive stated
that they were particularly try-
ing to replace girls by men, as
fast as they dropped out, in
the country branches, as here
there was an excellent opportu-
nity for a young man to rise to
a position of responsibility to
which a woman worker would
probably not aspire. Especially
in view of the present state of
the labor market, they were nat-
urally giving preference to men
when possible. The women
workers however, had proved
themselves highly efficient and
rendered yeoman service, and
there was no thought of dis-
charging them to make way for
men. So long as they cared to
keep their jobs, they could stay.

Routine Work.

Still another bank emphasized
the fact that there was a great
deal of work in a head office
which was eminently suited for
women, and large numbers of
women would always be employ-
ed on such work. This was
mostly of a routine nature.
These opinions are concurred in
by all the bank officials seen by
The Star. Nowhere is there any
complaint as to the work of the
girl assistants. The lack of as-
sured continuity of service is the
only objection, and this only ap-
plies where the work offers good
future prospects.

CHEAPER BREAD TO
FOLLOW DROP IN FLOUR

Winnipeg Bakers Have Matter
Under Consideration and Will
Make Announcement.

WINNIPEG, Oct. 1.—Flour
prices have dropped; bread prices
may. From figures quoted in
September, 1920, by the Lake of
the Woods and other milling com-
panies, the reduction on highest
grades is \$3.80 a barrel. One year
ago, according to reports of the
milling companies, the bakers
were using a government stan-
dard flour, and the reduction in
this particular class of flour dur-
ing the past year is \$5.75 a barrel.

Representatives of the larger
baking concerns stated the mat-
ter of reduced prices was under
consideration, but sufficient time
had not elapsed to enable them to
make a definite announcement.

VANCOUVER'S VIEW OF
AEROPLANE'S VISIT

Indignation is expressed by
Capt. G. M. Dean, secretary of the
Canadian Air Force Association of
B. C., at the lack of enforce-
ment by the Air Board of the

regulations safeguarding the
public in connection with the en-
gagement of a plane by the North-
ern B. C. Agricultural Society to
form one of the attractions at the
Prince Rupert Exhibition.

An American plane, making a
flight from Mexico to Siberia,
crashed at Hazelton, and was
shipped to the Wallace Shipyards
at Prince Rupert for repairs,

states Captain Dean.
Contrary to the regulations,
which forbid a machine to enter
into a contract to take up passen-
gers without first passing the
government tests, this plane was
engaged by the agricultural so-
ciety of the northern city.

This is considered by Captain
Dean as not only a danger to the
public but also prejudicial to the
advancement of the aircraft in-
dustry in Canada.

PRESIDENT HARDING
MAKES SUGGESTIONS

In making suggestions to the
Unemployment Conference Presi-
dent Harding urged considera-
tion of a plan for:
1—Construction of school
rooms and other public build-
ings.
2—Resumption of home build-

ing on a large scale.
3—Expansion of waterworks,
electric lighting plants, street
railways and other public utili-
ties, especially where municipally
owned.

4—Road building.
5—Development of irrigation
projects.
6—Revival of the textile and
other basic industries.

TIMBER SALE X-3481.

Sealed Tenders will be received by the
District Forester, Prince Rupert, not later
than noon on the 6th day of October, 1921,
for the purchase of License X-3481, near
Big Lake, Ellerslie, C. H. 3, to cut 450 M.
board feet of Spruce, Hemlock, Balsam and
Cedar.

Two years will be allowed for removal
of timber.
Further particulars of the Chief Forester,
Victoria, or the District Forester, Prince
Rupert, B. C.
