LOCAL OIL CO.'S BIG HOLDINGS

Representative of E. C. Company, With Extensive Leases in Proven Fields, Here.

G. W. Chalweir, representing the Van-Tex Oil and Refining Co., Limited, has arrived in the city in the interests of his firm and will be here for several weeks. He has with him quite a collection of maps, photographs, fossils, etc., of the wonderfully rich oil fields in Kentucky, which are on view at 623 Third Avenue. His president is Dr. W. S. Watson, Birks Building, Vancouver; Secretary-Treasurer, Dr. R. L. Pallen, Birks Building, Vancouver; vice-president, J. A. Price, chief price clerk of Wood, Vallance & Leggett, Vancouver; solicitor, J. D. McPhee, Vancouver. The company has large holdings in B. C. and the United States and its field office is in Vancouver.

Proven Field.
This company offers investment in a proven oil field, where fortunes are being made overnight. A lease has been secured adjoining a well that has just come in at 500 feet, six inches in the sand, and gushed 3900 barrels in 48 hours, with tools still in the hole. This is in Warren County, Kentucky, in the Bowling Green oil belt. They have another lease in Allen County and a fine big lease in Ohio, surrounded by producers of 4,000,000 to 10,000,000 feet of gas a day, and a pipe line close by. Two other propositions of vital interest to shareholders are under consideration by the management now concerning several other leases in the local field.

Drill Starts at Once.
The field man of the company, Mr. Oliver, has had twenty years' experience in the oil game and is arranging to have a drill start at once. Mr. Chalweir says that the possibilities of this company are unlimited, and he invites anyone interested in an undertaking where every cent of the money subscribed is being used for development to call at his office for further information. Stock in this company is now selling at \$50 per thousand shares.

STONE AGE YET IN SOLOMON ISLANDS

LONDON, July 23.—People who are still living in the manner of the Stone Age are found on Rennell Island in the Solomon Group, Melanesia, according to Dr. Northcote Deek, a missionary.

Dr. Deek says there are only about 500 inhabitants, and because of their isolation, through lack of ships, anchorage, even their dialect has never been studied.

The natives only had implements and weapons of stone and wood when Dr. Deek first visited the island. They showed great eagerness to barter home-made articles for anything made of iron.

"The men are great fighters and wrestlers. Their throwing spears have points made of human leg and arm bones, and tipped with a bone splinter designed to break off in the wound," says Dr. Deek.

"They seemed to feel keenly the monotony of their isolation and showed a settled melancholy, both in their faces and the cadence of their voices. Their only sort of music, to which they dance, consists of the tuneless beating of a log."

The teeth of flying foxes which swarm in the caves on the island seem to be the only form of currency known there.

The Man in the Moon SAYS—

THE editor says I can't enter the contest for verses and I am much annoyed, terribly cut up. When I first saw the announcement, I said to myself, "Man in the Moon, the prize is yours. How shall we spend that five?" Then I met with a thud for the editor said I was not in it. I had to write for my column just as usual. Also he said my verses could not win a prize anyway. I am too badly cut up today to write one so have snatched a verse from an unworthy contemporary.

A man who was strong on decorum
Bought a cheap pair of pants
and then wore 'em.
He stopped and he laughed,
Felt a terrible draught.
Then he knew right away where he'd lost 'em.

IN telling about Prince Rupert one of her enemies remarked that the wind was so fierce one day it blew down the harbor.

SOME people seem pleased to think they can borrow from the Bank of England at five and a half per cent. The difficulty in the Moon is that you cannot borrow at all.

It was a clever Vancouver deal thief who walked away with that little hundred cases of whiskey in his pocket.

SOME of the Vancouver people are clever, especially the politicians.

G. W. Teezel says that Prince Rupert looks good. It's all in looks, Mr. Teezel. A lot of people can testify that this ain't no sandy city.

DAMAGE BY HAIL NEAR DAWSON RECENTLY

Windows Broken and Gardens Ruined by Unusual Precipitation at Bear Creek.

A remarkable Fourth of July demonstration occurred yesterday afternoon, when a furious hail-storm took place at Bear Creek, eight miles from Dawson, says the Dawson News.

It started some time after 3 o'clock in the afternoon and lasted about thirty minutes. Hailstones ranging from the size of peas to that of an ordinary marble, with some said to have been as large as hens' eggs, fell, and did considerable damage to gardens and other property.

Four windows in the Fournier roadhouse were smashed, as were five in the C.K.M. machine shops, and seventeen in Mrs. Besner's hothouse. The tomatoes and other vegetables and plants in the hothouse were ruined. Radishes in the gardens were cut wide open by the hail.

The hail fell to a depth of four to six inches and some places even deeper. It also struck No. 2 dredge, but did not reach to No. 2 dredge. The storm also seemed to extend over the hill to the south toward Quartz creek. Much of the hail was still on the ground this afternoon. No indication of hail was visible near Dawson yesterday. The denizens of Bear Creek are puzzled to know what they had done that they should be pelted in such fashion, and don't know yet whether it was the wets or the dries who put on the barrage.
