THE natural foot is not ungraceful—it is a perfect piece of mechanism. The toes are straight and strong, the instep high and pronounced, the sole tough but resilient. That is how your child's foot should grow.

Ill-fitting shoes shoes that pinch and distort the toes-shoes that harden and callouse the sole will give your child an awkward, graceless carriage. Fit HURLBUTS and insure the free graceful walk nature intended.

HURLBUTS are made with soft cushion insoles, nature shape toes, and are welted. They insure the lowest cost per day of wear.
