PLAYERS BACK FROM ANYOX

Footballers Meet With Success,
But Baseballers Lose Both Games.

The Sons of Canada baseball and football players returned at 11 o'clock this morning from Anyox.

In the football game the locals were victorious by a score of 2 to 0. Such good results did not attend the baseball players, and they were defeated in both games, the first by a score of 5 to 1 and the second, 4 to 3. The absence of Jimmie Shakespeare, the star pitcher for the Sons of Canada, was noticeable, and it is believed that had he been on the trip the results might have been different. In the first game the Prince Rupert battery comprised Corbier, Lane and Corkle; in the second, Lane and Corkle.

In the four-round no-decision boxing bout between Corkle and Ferguson the local man was by far the best and had no difficulty in outclassing his opponent, Corkle also returned to town this morning.

Sport Chat

There was at least one Prince Rupert person who was keenly interested in the picture of "Brage," the horse which won the Grand Circuit Trotting race in the United States on July 4. This was Jack Edwards, of McCaffery, Gibbons & Doyle. "Brage" was born and bred in the stables of R. H. Edwards, the local man's uncle, in Halifax. On Mr. Edwards' return from the front he visited with his uncle and has driven "Brage" on many occasions. In fact he went out with him several times when he was taken out for his daily runs. R. H. Edwards is one of the most prominent racing stock breeders in the East and always has a string of twelve or so horses on his grounds but "Brage" has turned out the best of them all. He was trained by Frank Boutellier, Mr. Edwards' trainer, but was never raced by him as a trotter or pacer. He was sold by Mr. Edwards to Lyman-Brusie, Brook Farm, N. Y., his present owner.

The conquest of the Davis Cup, the trophy emblematic of the world's tennis championship has brought to the United States this year the most noted players of five nations: England, Australia, Denmark, India and Japan. A great deal of interest attaches to the appearance of the foreigners, as a majority of them are making their first visit to America. Tennis enthusiasts of the country seem very eager to see these players from abroad in action. The English and Australian entrants for the most part are comparative youngsters in international competition but their performances have stamped them as players of the first order.

J. O. Anderson, of the Australian team, who on Saturday defeated Ingersley, of Denmark, is the only member of the team who has previously represented Australia. He played in the 1919 series and has a long string of victories to his credit. Norman Peach, the captain of the team, who defeated Eric Tegner, is as good in singles as he is in doubles. His rise in the game has been slow but his play has steadily improved until he is now considered little short of brilliant. J. B. Hawkes, the youngest member of the Australian team, has had a marvellous career of almost unbroken successes. Being still very young, he is scarcely at his full strength and promises to become one of the world's greatest players. Clarence Todd, the fourth member of the team, has been absent from the courts for nearly a year. He is the best net player in the team both in singles and in doubles.

The following players will be fielded for the Prince Rupert Athletics in the first Gilbuly Cup football match with the Dry Docks tomorrow night: Frizzell, Barrie and Allan; Hamilton, Davidson and Eastman; Hill, Smith, Mackintosh, W. Mitchell and G. Mitchell. Reserves, Lamb and Montgomery.

ROYALS LEAD BY TWO GAMES

Minto Cup Lacrosse Series Interesting Following Saturday's Win.

PROTEST ENTERED BY NEW WESTMINSTER

VANCOUVER, Aug. 15.—The Vancouver Terminus defeated New Westminster Salmonbellies by the score of fourteen to twelve in the Minto Cup Lacrosse series on Saturday afternoon.

The Royals now have two games lead over Vancouver, with four games to play. New Westminster protested Saturday's game charging Referee Ion with partiality toward Vancouver in the matter of permitting substitutes for players on the penalty bench.

OBJECTION TO DISCRIMINATION

Owen Fisher Thinks Tingle of Yellow in Dempsey or He Would Meet Johnson.

The following letter has been received in regard to Dempsey and the color line. Editor Daily News:

The same old perennial dope is again usurping valuable space on the sporting pages—"Dempsey draws the color line." "No available colored man anyway," and so on.

No man can fairly and candidly consider this "colored line" question without entertaining a grave doubt as to the right of any fighter to claim the championship of the world while refusing to meet any logical contender, be he of what-so-ever race. This doubt is strengthened when the fighter bars some particular race which has produced boxers of the championship class.

Only Against Blacks. In the present case, for instance, Dempsey doesn't draw any line against the Jap or the Chink; he doesn't bar any of the most illiterate races of Southern Europe. And note that none of these peoples has ever brought forth a real fighter. On the other hand he does bar the Negro. He is willing to meet men of any tint whatever unless they happen to be black; and those same black men are Americans—his own fellow citizens.

The colored race has done its share in the development of America and is acknowledged the co-equal of the white race by the American Government. And note again, that the race has developed scrappers of the championship breed and has at present possible "colored hopes"—Wills, for instance.

Reputation, Not Reason. Then, too, just glance at one of the reasons that Dempsey gives for not meeting Johnson: his reputation. If that's a real reason then why isn't it applied to white men as well as colored? Why wasn't some white fighter black-listed in the Corbett-McCoy fake of 1900 or in the Burns-Bryan frame-up of 1907?

What would the world say of a sporting man in any other game, a sprinter for example, who refused to meet a challenger on account of color?

It seems to that any fair minded man after giving the subject a little thought must admit that a title holder should, as a matter of good sportsmanship, meet all qualified challengers regardless of race or color.

Faint Suspicion. And one may be pardoned for just a faint suspicion that the real reason for drawing this black "color line" is because of the presence of a slight tinge of yellow.

Thanking you for the courtesy of your valuable space, I am sincerely,

OWEN FISHER.

Equal to the Occasion.

An Irishman applied for a job at the gas works.
"What can you do?" asked the foreman.
"Almost anything," said Mike.
"Well," said the foreman, who was a bit of a joker, "you seem to be all right, could you wheel out a barrow of smoke?"
"Sure I could do that," said Mike, "if you would fill it for me first."—Boston Transcript.
