COMMUNISTS IN POWER IN ITALY TODAY

PREMIER BONAR LAW IS SET FORTH AS THE APOSTLE OF TRANQUILITY

Fascisti Government is to Take Charge Italian Affairs Under Mussolini

ROME, Oct. 30.—Benito Mussolini, leader of the Fascisti, who has been called by King Victor to form a cabinet, arrived in Rome today and was given an enthusiastic welcome by the crowds. Mussolini immediately went to the King's palace. It is believed that a new ministry will be constituted in the course of the day. The railway traffic in Italy which was suspended yesterday by order of the military authorities was resumed today. Mussolini declares that the Fascisti must go into power without alliance with any other party but granting some port-folio outside the Fascisti party. This is the culmination of a revolt against the politicians long ago begun by the Fascisti and crowned with success yesterday when the King, greatly moved, embraced the deputy Diacechi, one of the supreme military authorities of the Fascisti and told him he would gladly get Italy a Government most suited to the new spirit pervading the country. He then entrusted Mussolini with the task of forming a ministry. **No Reprisals.** LONDON, Oct. 30.—The Rome commander of the fascist states that the squads in the city will not carry out any reprisals. **ROME, Oct. 30.**—The newspaper *Zion Socialista* today says it is learned that all the members of the communist party were informed last night that the party is ceasing operations today and all its members are to be released from party discipline.

IMMIGRATION YOUNG PEOPLE

EDMONTON, Oct. 30.—"I am hopeful that we shall be able to bring out from Europe, from Great Britain, and from the United States a great number of 'teen age boys and girls,'" stated Hon. Charles Stewart, minister of the interior, speaking over the Journal radio in connection with the Dominion government's emigration policy. "I see in this a splendid field for our endeavors, and I believe that these young people will probably make better Canadian citizens than those of mature age." "I am very glad to be able to speak to you all from the Edmonton Journal office," said Mr. Stewart, "and as everybody is interested in emigration these days, I will devote a few minutes to the subject. I am anxious to bring to Canada from Europe, from Great Britain and from the United States, a class of settlers who will become real Canadians—people who will become assimilated into your midst, whose children will attend your schools, and who will grow up to become good Canadian citizens."

Political Reaction and Even Lethargy is Feared by Enemies of Premier Bonar Law's Cabinet

LONDON, Oct. 30.—Not the least part of the political campaign now in progress here will be devoted to appraisal of the new premier and Bonar Law has been singled out by his partisans to champion the cause of tranquility and safety first. In high political quarters it is declared that if tranquility is what the nation wants it must be conceded that a better man could not be chosen to carry out this desire. These quarters assert that however much his friends and enemies disagree on Law's other personal characteristics, they are united in agreeing that he represents straightforwardness, steadfastness, stability and sincerity, and that he has all the attributes of tranquility. There seems to be a considerable part of the population which harbors the belief that under Bonar Law the pendulum may swing too far the other way and result not in stable government with accompanying tranquility, but in unwholesome political lethargy perhaps even positive reaction.
