LABOR MEMBER AND MINISTER

Inspector Was Appointee of Wm.
Manson and Endorsed by
Socialists

VICTORIA, Nov. 9.—The labor member for Newcastle does not make a very good member of the Legislature for he cannot listen. If there is anything with which he disagrees he has to say so and wants to make little speeches here and there. During the debate on the address he challenged Hon. T. D. Patullo's immigration policy and did it in a loud and very assertive voice. It was almost a bullying voice and the tone indicated that he was open to admiring opposition to his own pet views, and those views are Red.

During Hon. W. J. Sloan's speech he kept up a running fire, contradicting and objecting until warned by the speaker. Mr. Sloan charged Guthrie with designating Inspector Wilkinson as a "Liberal heeler" yet that official had been appointed by the Conservative government on recommendation of William Manson of Prince Rupert, whose letter Mr. Sloan read. Wilkinson was also the Socialist nominee for the position. He was a coal miner who had reached the position of chief inspector and the minister resented an attack on his integrity. Guthrie denied having used the expression but refused to retract anything he had said.

Had Been Endorsed

Mr. Sloan also told of the merits of the other inspector and said the staff was loyal to the miners and enforced the regulation against both employers and men. During the present regime the fatalities had been cut down one hundred per cent and he hoped to cut them down another hundred. Also he reminded Guthrie that he, Sloan, had already been endorsed a second time by the miners of Nanaimo and he intimated that he expected to remain in politics long after his friend from Newcastle had disappeared.

Discussing the matter of gas in the Cumberland mine where the explosion had occurred, Mr. Sloan said if had been shown that there was no signs of gas there prior to the explosion and very soon afterwards it had again disappeared. He showed that the statements of Mr. Guthrie that the gas committee was afraid to report, could not be correct because gas had been re-

System Run Down Blood Out of Order

Many people become run down, but don't know just exactly what their trouble is, when, as a rule, it is improper circulation of the blood.

All they need is a good tonic to build up the system and put the blood into proper shape.

For this purpose there is nothing on the market today to equal

BURDOCK BLOOD BITTERS

It regulates the stomach, liver and bowels, purifies the blood and tones up the entire system.

Mr. H. Poole, Port Dover, Ont., writes:—"My system was run down and my blood out of order, and I suffered a great deal from pains in my head which made me feel very miserable. A friend told me to try Burdock Blood Bitters, so I got a bottle and before it was used I found it was doing me good. I kept on until I had taken three, and now I feel like a different woman."

My husband also took it and it has built him up."

For the past 44 years B. B. B. has been manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

BRINGING UP FATHER

ported in two other levels but not in this one. The use of powder had been forbidden in the coal but unfortunately the human element had entered into all accidents. Men as well as employers were often negligent in enforcing the regulations and it was necessary for the inspectors to keep both up to the mark. Unfortunately they could not employ enough inspectors to be on the job all the time and see that everyone did his duty.

Well Received

Mr. Sloan's speech was well received and was listened to with attention. He showed that he was master of the situation throughout.

Basketball and How to Play It

By Observer

FORWARDS (Cont'd) Basket Shooting

No other phase of the game demands the same technique or rigidity of form as basket shooting. Without the proper knowledge or understanding of this fact the player is likely to develop personal peculiarities which are frequently quite detrimental. The proper form in shooting can be readily likened to the swing or a golf club or of a baseball bat. The greatest and most satisfactory results can't be obtained unless rigidity of form is strictly adhered to, although occasionally a player may use some individual characteristics to advantage. A player who possesses a natural eye for shooting but poor form should be carefully coached.

Basket shooting during practice or a game demands concentration which establishes a proper co-ordination between the mind and the muscles governing the shooting. The objective is to get the muscles under such control that the desired action comes automatically. I have watched players waste hours in basket shooting practice simply because their actions were the result of physical action only, not the combination of mind and muscle. Deliberate shooting is the only shooting worth while.

Science of Shooting

Players should be impressed immediately with the relative size of the diameter of the ball and that of the basket. The hoop is eighteen inches in diameter and the ball nine or ten inches, thus having a clearance of four inches for a ball dropping directly to the center from above.

It is a self evident fact, therefore, that the more direct the drop of the ball from above the more chance for the throw to be successful. Good shooting would therefore seem to demand a highly looped ball the downward motion starting at some distance above the basket in order that the drop be direct and straight. A ball thrown in a straight line or at a sharp angle to the basket has little chance of passing through the hoop of the elliptical shape of the basket.

An effort is being made to have the venue of the annual meeting of the Canadian Amateur Athletic Union changed from Montreal to Winnipeg. It is pointed out by Western officials that out of the last five meetings only one has been held in western Canada and that one was the best meeting in the history of the union.

BETTER COOKING

It is wonderful what a help Oxo is in the kitchen. Oxo means good food every day and good health all the year round.

FIRST BASKETBALL OF SEASON FRIDAY NIGHT

Prince Rupert Association Will Start Off With Interesting Trio of Encounters

The basketball season will open on Friday evening of this week when the first games will take place under the auspices of the Prince Rupert Basketball Association at the Exhibition building.

The opening game will be between the Maple Leafs, who distinguished themselves last winter, and the Adams, a new organization consisting of many of the best lady players in the city.

The second game will be between the Knight of Columbian and Colts Intermediate teams. The Men's Senior game between the Sons of Canada and Elk should be a popular drawing card. They are old time contestants and each will be out for a foothold from the start. The line-ups will be changed considerably from last year but keeper rivalry than ever is expected.
