DAILY EDITION

Tuesday, Feb. 28, 1922.

Deal for Planing Mill Complete.

A deal has been put through for the sale of the Charlotte Islands Spruce Products Limited plant but the papers are not yet completed and the name of the purchaser has not yet been announced. The receiver at Vancouver hopes to be able to make an announcement in a few days.

It is announced that the purchaser will operate the lumber manufacturing plant and shingle mill here. This is good news, for there was a rumor in Vancouver a month or two ago that the plant was to be removed to that city or New Westminster. Prince Rupert people will welcome any industries that may be established and especially one that manufactures the raw material found in the district.

Library Well on Way to Accomplishment.

The action of the city council in deciding to prepare a library bylaw and take a plebiscite of the people according to the statute was what was expected. That the people are keen on getting the library is evidenced in the fact that so many books have been voluntarily sent in to form the nucleus of a collection. Most of the volumes received are well bound and in excellent condition. They are mostly by well known authors and the greater number of them would have been chosen by any selection committee.

The next thing will be to arrange for housing the library. A good many suggestions have been made and almost any of them are feasible. As has been before pointed out, the housing of the library is not by any means the most important part of the work, although it is necessary.

Stork Is Now Really Elected.

The last effort to unseat Fred Stork has been made and he is now member for this district without possibility of a change. This is satisfactory. No matter what the political views of some of the people here, all must realize that there is more to be got by having a member who is in sympathy with the government.

Just how much Mr. Stork will be able to do it is impossible to tell. He will certainly make every effort to secure what we need in this district, and it is to be expected that some good results will follow. If we can get some of our local industries going we shall have more chance of securing co-operation from the government.

Better Buildings for the City.

It will very soon be necessary to enforce the city bylaw in regard to the erection of better buildings in the business section of the city. At present anything seems to go. Only recently what was little more than a shack was erected next the postoffice, a danger from a fire point of view and not by any means an addition to the beauty of the city. If the city has power it should certainly not allow the erection of buildings of that class.

For the congested sections of the city it is almost as cheap to erect concrete or brick buildings. The rate of insurance alone is sufficient to make it worth while. Now that we have a fine looking school and a fine court house, as well as a number of permanent blocks on the business streets, it would be well to encourage that class of building. By doing so we invite lower insurance rates generally and show that we have confidence in the city in which we live.

Residences Will Improve Soon.

The class of residences to be erected will steadily improve as the city grows in size and importance. In the early days most people came here to make a clean up and get out. Today people are looking to Prince Rupert as a permanent place of residence and the tendency will be to erect homes that will be larger, architecturally more beautiful, and with better interior finish.

WHAT CAUSES HEADACHES?

"Fruit-a-lives" Prevents Auto-intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, remains and poisons the blood.

As a result, there is Headaches, Indigestion, disturbed Stomach, Pain in the Back, Rheumatism and Eczema and other skin diseases.

"Fruit-a-lives" will always relieve Auto-intoxication as these tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure and rich.

See a box, 6 for \$2.50, trial size 25c. At Dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

Large Stock on hand. Prices very low.

Next the Prince Rupert Hotel

Ten Years Ago in Prince Rupert

February 28, 1912.

The most exciting indoor baseball game ever played in Prince Rupert was the one last night between the Crescents and Pirates. The score was 16 to 40 in favor of the latter team.

A. Carmichael, a well known Copper River prospector, is in the city buying supplies for the further development of his free milling proposition. Mr. Carmichael says there are valuable placer grounds near Copper River and that the Gold Creek benches give from ten to thirty cents to the pan. Hydraulic machinery is being installed at Mr. Carmichael's property.

Captain Barney Johnson has written an article on Seymour Narrows and the intricacies of its navigation. It will be published at an early date by the Dominion Government.

COLLART'S MOTIONS WERE DEALT WITH

One Respecting Quality of Buildings Rejected—Limitation Poultry and Pigs Laid Over.

Ald. Collart's resolution requiring the building inspector to enforce the building bylaw to the letter in regard to the building of huts, shacks and cabins and buildings of an inferior quality was lost when presented to the city council last night. Ald. Perry, Ald. Kelly and Ald. Collart voted for it and Ald. Silversides, Ald. Kerr, Ald. McLeod and Ald. Montgomery against it. It was felt by the majority that the building by-law covered the situation amply without any such resolution.

Ald. Collart's other resolution for an amendment preventing the keeping of pigs and more than thirty chickens in the city, outside of certain specified areas among which were south of 11th Avenue and the vicinity of Comox Avenue, was laid on the table for a week so that the whole question might be taken up with the city engineer.

SMALL CONTRACTS FOR TIES AND POLES KEEP TERRACE BUSY

TERRACE, Feb. 28.—Olof Hansen, the timber contractor, is keeping all the spare men, and the settlers here who wish the work, occupied on the cutting of ties, piles and poles. Many persons have small contracts, and the result is that there is not a single person in Terrace out of work this winter. The ties are for the Canadian National Railway and the piles and poles for Eastern Canada and the United States.

BYLAW FOR LIBRARY TO BE OFFERED

City Council Last Night Decided to Take a Plebiscite on the Matter.

The bylaw providing for the establishment of a municipal free library in the city is to go before the ratepayers at an early date. The city clerk reported at last night's meeting of the council that the petition was in order and had been signed by 415 property owners. After some discussion, which was started by Ald. Perry, who was not at the recent meeting when the matter was introduced, it was moved by Ald. Kelly and seconded by Ald. Kerr that the bylaw be prepared to go before the people. The matter was referred to the city solicitor to prepare the bylaw. It will be presented at the same time as the Grand Trunk Pacific agreement bylaw, which will likely come up on March 22.

Ald. Perry wanted to know if the council had any definite plan as to the housing of the library. He wanted to know what expenditure was going to be involved and suggested a conference between the council and the Library Association before it was decided to submit the bylaw.

Mayor Rochester said that there would be no permanent building built. It would be a temporary one. Nothing definite had been decided upon, however.

Ald. Kerr intimated that the city engineer had suggested that the present reading room be raised and a concrete basement be put under it, thus making it a two-storey building capable of housing the library, the reading room and the ladies' rest room.

VANDERHOOF SETTLERS ALSO CUTTING TIES

VANDERHOOF, Feb. 28.—The settlers in this vicinity, like at other points along the line, have been given the opportunity this winter of getting out ties for the Canadian National Railway Company. There have been a number of small contracts, which will not be completed until the snow is gone.

BRIDGE ON NECHAKO AT VANDERHOOF IS NOW BEING RAISED

VANDERHOOF, Feb. 28.—The bridge over the Nechako River here is being raised two feet by the Provincial Government to prevent the possibility of its going out in the floods. The work has been going on for a couple of weeks and is still in progress.

THREE SMALL MILLS WORK AT VANDERHOOF

VANDERHOOF, Feb. 28.—Three small portable sawmills are busy cutting timber for local building demand, which is considerable. Mr. Mitchell operates one and two Norwegians another close to town. The third is south of town.

Nervous Breakdown Couldn't Sleep Nights.

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, a feeling of depression, fitful, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected, too, and on the first signs of any weakness of the heart or nerves, flagging energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in MILBURN'S HEART AND NERVE PILLS

Mrs. M. Damand, Young's Cove Road, N. B., writes:—"I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at night, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Sensational: Sale OF MEN'S AND BOYS' FOOTWEAR

VALUES THAT MAKE YOU GASP ALL PROFITS THROWN TO THE WIND
Come and see these. You cannot afford to miss them. Every shoe in the store will be reduced regardless of cost

WANTS FIRE CHIEF

Editor Daily News.
On account of the very great importance that efficient fire fighting and fire prevention is to our cities, may I ask your valuable assistance in urging upon your local governing body the importance of sending the Chief of your fire department to the Fifth Anniversary and Annual Congress of Fire Chiefs and Fire Engineers, to be held in this city August 9th-18th, 1922.

Fire losses in this country last year totalled over \$365,000,000 with an attendant loss of 20,000 lives. The fires are never out, and are consuming a million dollars a day of the created resources of the country. With all the improvement of motor apparatus over the horse drawn, the ratio of fire loss to property value has not been reduced, but on the contrary, is constantly increasing. This loss is an enormous tax which comes directly from the pockets of the people.

Too often, unfortunately, the sending of a chief to such a convention is considered in the light of a junket. Personally, I can say that I immediately adopted several devices, which I first saw practically demonstrated at last year's convention at Atlanta, Ga., and which I believe, will be of incalculable benefit to my city.

Of Great Value

No Chief can come to the International Convention, for which we are now preparing, without going away with ideas that will be of great value. San Francisco has suffered from fires as no other city in the country, and we have taken precautions to prevent the recurrence of such a catastrophe by the installation of the most elaborate high pressure fire fighting system in the world. This, together with the most comprehensive exhibit of modern apparatus and equipment for the prevention and extinguishment of fires ever assembled, will be available to all. We purpose making this year's meeting one grand clearing house for the best information on fire matters obtainable.

In asking your aid it is in the belief that you can do no more important public service to your community than by urging the necessity of the attendance of the Chief of your city on this important educational congress.

THOS. R. MURPHY,
Chief Engineer, S.F.F.D.

Generally speaking, spasmodic advertising is as silly as spasmodic eating.
