DRAMATIC SCENE CAUSES BREAK MUDANIA

PRINCE RUPERT TO HAVE UNION OF MUNICIPALITIES' CONVENTION IN 1923

Conference with Turks and Greeks Breaks Down at Mudania; French Support Turks in Their Demands

CONSTANTINOPLE, Oct. 6.—The Mudania conference of allied generals with the Greeks and Turks was brought to an abrupt ending by the insistence of Ismet Pasha for Turkey on an immediate evacuation of Constantinople.

General Harrington, as head of the allied delegation, said he could not promise evacuation until the peace conference and the treaty were quite complete.

Ismet repeated his demands with a threatening air while the Greeks opposed him with a refusal even to evacuate Thrace, which has been promised to Turkey.

33 BODIES ARE RECOVERED IN THE FIRE AREA

Drenching Rain Extinguishes Fire
But Increases Misery of
Homeless

GOBALT, Oct. 6.—Thirty-three bodies have been recovered from the forest fire area of Northern Ontario. Some of these having been found in the outlying districts confirms the fears that the farmers in scattered areas suffered from the conflagration and the death list may yet be increased.

Drenching rain ended the fire but added to the misery of the five thousand people who are homeless in the five northern towns. The weather is becoming cold.

The provincial and federal governments are rushing supplies to the scene and the Canadian Red Cross Society is participating.

Many of the bodies are unidentified. Some are charred so as to make identification impossible. Many people are still missing but some will be sure to return now that the fire has been extinguished.

The property damage is estimated at about five million dollars.

CHARITY GETS BALL RECEIPTS

Owing to Game Being Called
Yesterday Money Goes to
Various Organizations.

NEW YORK, Oct. 6.—Following expressions of disappointment that yesterday's world series game was not allowed to go to a decision, Commissioner Landis announced last night that the entire proceeds of yesterday's world series game must go to the disabled soldiers and charities in New York City.

The score was three to three at the end of the tenth when the game was called on account of darkness.

WHISKEY SELLING CASE DISMISSED

The case of Eilian Durant and Nellie Clark, of Surf Inlet, charged with unlawfully selling liquor, which was tried before Stipendiary Magistrate McMullin yesterday afternoon, was dismissed on the charge of selling whiskey. The court will sit again at 2:30 p.m. today to hear the charge of selling beer. T. B. Hooper is conducting the prosecution and L. W. Patmore, of Patmore & Fulton appears for the defence.

When General Harrington tried to take a firm stand with Turkey, the French delegates startled the conference by announcing that France would support Turkey unreservedly.

The British and Italian generals then threw up the sponge and asked that the conference be suspended while they communicated with their governments for further instructions.

Last Night's Situation

LONDON, Oct. 6.—So serious is the new situation that has arisen in the near east that the British cabinet after a session of two hours last evening adjourned to meet this morning. It was reported as being not at all clear that the Mudania conference had reached anything like a satisfactory conclusion.

LONDON, Oct. 6.—It was reported last night that an unsatisfactory condition of affairs in the conference between allied and Turkish and Greek delegates at Mudania is disclosed in a despatch to the government from General Harrington. This despatch, however, was incomplete owing to a breakdown of the radio system. The cabinet met and considered briefly and then asked Gen. Harrington to repeat his despatch, meantime remaining in Constantinople for orders.

The allied generals have returned to Constantinople and apparently the conference has broken up, at least temporarily.

SOLDIERS IMPROVED PLOT AT CEMETERY

Considerable improvement in work has recently been done by the G. W. V. A. on the returned soldiers' plot in the Fairview cemetery.

The plot, consisting of thirty-six graves, has been entirely remodelled and a cement wall has been placed around the entire space. The whole plot is to be cultivated and grass will be sown thereon during the fall. The sowing of the grass seed is being undertaken by the I. O. D. E. which society is doing similar work throughout Canada.

Late Despatches Indicate that Mudania Conference to Resume; British and French to Confer

CONSTANTINOPLE, Oct. 6.—After conferring with the allied high commissioners and military experts here, the allied generals this morning prepared to leave again for Mudania for a resumption of the armistice conference.

LONDON, Oct. 6.—The Mudania conference is not ended, it was officially stated at the conclusion of the British cabinet meeting this morning, but is deadlocked and cannot be resumed before the British and French Governments have conferred over the situation.

Lord Curzon, British foreign secretary, leaves immediately for Paris to see Premier Poincare.

VANCOUVER VERY SORE

Appointment of Fred Dawson
son Looked on as Slight
by Sun

(Special to Daily News)
VANCOUVER, Oct. 6.—The Vancouver Sun today editorially attacks the Dawson appointment under the caption "Another Effrontery to Vancouver" and urges a showdown with political Ottawa.

The Sun says: "Prince Rupert's population is 5000. Greater Vancouver's is 250,000, and the C.N.R. revenue here is fifty times greater. Vancouver is paying one hundred times more than Prince Rupert in taxes to make good the C.N.R. deficits." The paper argues that the appointment should have gone to those paying 90 per cent of the bills.

The Sun compliments Mr. Dawson, but says: "The chances are any ability Dawson may possess will be offset by his allegiance and obligations to Prince Rupert."

Appointed C. N. R. Director.

NEW DIRECTORS C. N. RAILWAY

Men Are Prominent and Successful in Their Several Lines of Business.

The directors of the Canadian National Railways are mostly businessmen who are successful in their own lines. They have been chosen with care and will be eminently suited to deal with matters of policy. It is not desirable that they should be railwaymen for if they were they would be biased along certain lines. It is pointed out that they do not choose school teachers for members of a school board and neither do they choose railwaymen for directors of a railway. The managing executive and the officials have to be technically trained men.

Ernest McCary.

Ernest R. DeCary, of Montreal one of the new directors, is a notary of the Quebec metropolis. He is 44 years of age and is a native of Montreal and a descendant of the first DeCary who landed in Montreal with Maisonneuve. His railway experience has included the buying of sites for the Canadian National and Canadian Pacific stations at Montreal. He is a Roman Catholic.

James Stewart.

James Stewart, another new director, has many varied interests in the prairie grain business. He is 43 years of age and is a native of Kinlochell, Scotland. He received his education in the Old Country schools and was in the British Civil Service for eight years before coming to Winnipeg in 1906. He served a short time in the employ of the C. P. R. and entered the grain business with the Western Elevator Co., Ltd., with K. B. Stoddart & Co., Ltd. and subsidiary companies. Since then until now he is president of one large wheat concern and vice-president and director with several others. He is a Presbyterian.

Richard Gough.

Richard Patrick Gough, of Toronto, is president and managing director of the Sellers-Gough Fur Co., Ltd. He also holds similar office with other business concerns and is vice-president of the Home Bank of Canada, and president of the Murray-Kay Co., Ltd. besides holding directorate offices in lumber, financial and manufacturing concerns. He is 57 years of age and is a native of Ontario. He is a Roman Catholic.

Father Godfrey, of the interior, left for Ocean Falls last night.

Union of B. C. Municipalities to Meet Next Year in Prince Rupert Was Decided Yesterday

Prince Rupert is to have the Union of Municipalities convention next year. This it is understood has been secured through the efforts of Mayor Rochester, who with W. D. Vance is attending the convention and who last year pressed on the delegates the desirability of meeting at Prince Rupert.

This morning City Clerk Woods received a wire from W. D. Vance in which he says Prince Rupert has been chosen over Chilliwack and Vernon for the 1923 convention by a large majority. Mayor Hardie of Nelson was elected president and Mayor Rochester is a director. Mr. Vance leave Kamloops for Vancouver today.

A Canadian Press despatch received this morning states that the creation of a utilities commission to decide disputes between municipalities and public utilities was asked of the government in a resolution passed by the convention at its concluding session yesterday.

GOOD ATTENDANCE IN SEVERAL CLASSES

In Spite of Inclement Weather
Students Were on Hand for
Opening

The Polytechnic class in gas engineering held last night at the Akerberg-Thomson Co's shop under the tuition of A. Akerberg got away to a good start. In spite of the inclement weather prevailing a number of students put in an appearance and the attention paid to the tutor augers exceedingly well for the success of this class during the winter months.

The electricity class held at the Booth School last night was well attended, the students appearing very much absorbed in the teaching of J. J. Little.

There was a good attendance of students at the matriculation high school class held at the King Edward School under A. Auger, instructor of the Polytechnic teaching staff.

GIANTS WIN GAME TODAY

Whitewash Yankees to Tune
of Three Runs to Nothing

NEW YORK, Oct. 6.—The New York Giants plastered their ancient enemies the Yankees with a coating of whitewash this afternoon, thus winning their second victory over the American Leaguers by a score of three to nothing.

Deacon John Scott, resurrected and rejuvenated after all the Major Leagues had regarded his pitching as ruined beyond repair, stood out there on the hurling hill and made the Yankees look foolish. He had speed galore, mixed with firm curve. Hoyt pitched a loose game for the Yankees. The final scores stood:

	Runs	Hits	Errors
Yankees	0	4	1
Giants	3	12	1

RAILWAY HEAD IS AN EXPERT

Made Great Success of Great
Eastern: Was Trained in
States

Local information in regard to Sir Henry Thornton, who is the new head of the Canadian National Railways, is that he is one of the most able men that could possibly have been chosen for the position. While he is said to have been trained in English railway shops, he made a name for himself on the Pennsylvania Railroad.

When a manager was needed to put the Great Eastern Railway on its feet in England Thornton was asked to take charge and he at once set about a thorough reorganization of the system. There was an outcry in England against the appointment of an American to the position but he has made good and lived down the prejudice.

During the war Sir Henry Thornton did magnificent work in connection with the movement of troops. Also he reorganized the London suburban system and built the magnificent Liverpool Street station.

So enthused was a Prince Rupert property owner who is visiting the city over the appointment that he immediately wrote to friends in England telling them that their Prince Rupert lots may yet be worth something.
