

## On Buying Curtains

Remember LUX is at your service—its pure, bubbly suds make colours bright and clear, and the daintiest fabrics clean and fresh as when new. The thin, satin-like flakes of Lux, manufactured by our own exclusive process, dissolve instantly into a rich lather as harmless to fine fabrics as pure water itself.

# LUX

For Silk and coloured curtains—

Whisk a tablespoonful of LUX to a lather in half a bowlful of very hot water; then add cold water till lukewarm. Swirl the curtains about—work quickly—press the rich suds through and through the curtains but never rub. Rinse in three lukewarm waters. If you can, roll in a towel to dry. Or, dry in the shade.

For white curtains—not silk—soak for an hour in cold water. Then wash in the same way, using hot suds. Rinse in three hot waters and dry in the sun.

*Lux stands supreme. It is sold only in sealed packets—dust-proof!*

LEVER BROTHERS LIMITED, TORONTO

hunting expedition to the Queen Charlotte Islands.

It is understood that Cap has an interest in a new invention for extracting the gold, which abounds in the sand on the shores of the islands, and if experiments prove successful more will be heard about it. During the trip mountainous seas were encountered, which compelled the crew to batton down the hatchways and rig up storm lines. No sooner had the crew got below, than the friction on the new gold washing machine became accentuated by the roll of the boat, thereby causing a dense smoke. This happening caused some inconvenience, the weather being too bad outside to permit of the crew going out and smoke was too bad inside to permit the crew remaining below. With this state of affairs existing a board meeting was called and after a hurried consultation it was unanimously decided to throw the skipper's dinner overboard, which prompt action doubtless prevented a catastrophe. It was unfortunate for the skipper that a storm should have come up just at meal time.

The Rosepoint, Captain Ted Rorvik, first mate, Nick Carter, and second mate, Ed. Petersen, arrived in port early in the week with a good cargo of first class halibut. Cap reports a good trip with good weather prevailing all the time.

The Livingstone, White Star and Spence, were tied up on their last trip to the high spots in Gunshawa Inlet for a couple of days owing to bad weather. However, much to the delight of the skipper and the crews, Dinty Moore showed up, and the time was passed in an enjoyable manner.

Sing a song of sixpence,  
A bottle full of rye,  
Four and twenty Yankees  
Parched and very dry.

When the rye was opened,  
The Yanks began to sing,  
We won't go back to U.S.A.  
God Save the King.

The D. C. F. No. 1, Captain Charlie Wallace is on dry dock at the Akerberg wharf undergoing minor repairs.

The Republic, Captain Hegge, met a tremendous high sea while fishing off Cape Clear recently. The waves were so high that one man was washed clear overboard and by a pure miracle was washed back on deck by the returning sea. During the storm eleven skates of gear were washed overboard, and the boat was so low in the water that it was impossible for her skipper to see through the pilot house windows. Cap says it was the roughest sea he has experienced in years, and but for the splendid seaworthy qualities of his craft, disaster might have overtaken them.

The Dixie Rupert is being repainted at Gow Bay at the hands of her skipper.

Captain Claude Ketchum has practically completed the raft at Seal Cove for the conveying of the two donkey engines to Surf Inlet for the J. R. Morgan Logging Company. Cap expects to leave port over the week end for Surf Inlet.

O. P. Smith left port on Thursday morning with the Billy Boy, with J. Mallis and A. McKenzie aboard, bound for the Inverness Cannery. The party are going out to get the camp scows in readiness for the opening of the cannery on April 25.

The racing yacht Kelpie, owned by Captain Bill Shelin, which was sunk outside Gow Bay during the storm of Dec. 12-13 last, is undergoing "repairs" in Bone Yard Creek, and will soon be in thorough seagoing shape again. If it is Cap's intention, when the repair work is completed, to take a little run down to the Hawaiian Islands providing the weather keeps fine all the way,

The launch Rosina B., Olier Besner, is undergoing a spring overhaul at the Swanson dock. Her hull is being recaulked and the entire craft is to be repainted.

Albert & McCaffery are expecting a scow load of lumber to arrive any day from Vancouver. Upon arrival this lumber will be stacked for local consumption.

The tug McCullough left port for Wark Canal on Friday for a

short run, and will stand by for a

weather keeps fine all the way,

The Sweet Genieve, Captain Alf. Lund, is on the N. M. McLean ways undergoing a complete overhaul preparatory to leaving port on a prospecting trip.

The Brandt is in port from Banks Island for supplies and overhaul, upon the completion of which she will leave for the salmon trolling banks.

The Murineag, owned by Captain Jud Thurber, and skippered at present by Captain "Nonnie," while fishing in Otter Passage, picked up six spring salmon on a skate of gear. This happening would go to show that the spring salmon is taking a fancy to the hook.

The snag-scow, Cygnet, Capt. Mulligan, seems to have hit a snag, at any rate she did not pull out for the Nass River as was originally reported, and is still moored at the Government dock.

New marine ways are being built by the Ward Electric Co. at Gow Bay for the accommodation of the smaller craft. The bed timber is on the ground and the cross timbers are already laid.

The Torberg, Captain Nels Robinson, has practically completed her overhaul preparatory to leaving port on a salmon trolling stint.

The Birdie B., Captain John Prescott, has just returned to port from a secret treasure

hunting expedition to the Queen Charlotte Islands.

It is understood that Cap has an interest in a new invention for extracting the gold, which abounds in the sand on the shores of the islands, and if experiments prove successful more will be heard about it. During the trip mountainous seas were encountered, which compelled the crew to batton down the hatchways and rig up storm lines.

This happening caused some inconvenience, the weather being too bad outside to permit of the crew going out and smoke was too bad inside to permit the crew remaining below.

With this state of affairs existing a board meeting was called and after a hurried consultation it was unanimously decided to throw the skipper's dinner overboard, which prompt action doubtless prevented a catastrophe.

It was unfortunate for the skipper that a storm should have come up just at meal time.

The D. C. F. No. 1, Captain Charlie Wallace is on dry dock at the Akerberg wharf undergoing minor repairs.

The Republic, Captain Hegge, met a tremendous high sea while fishing off Cape Clear recently.

The waves were so high that one man was washed clear overboard and by a pure miracle was washed back on deck by the returning sea.

During the winter Bill has become expert on the Hawaiian guitar and he proposes to book up a couple of hula-hula dancers and do the cities on the Pacific coast on the return trip. He says that the saving of transportation is the secret of the theatrical game, and expects to either get rich, or get time, on his venture.

The Rosepoint, Captain Ted Rorvik, first mate, Nick Carter, and second mate, Ed. Petersen, arrived in port early in the week with a good cargo of first class halibut. Cap reports a good trip with good weather prevailing all the time.
