United States not going to the Hague DOMINION GOVERNMENT TO ADOPT NEW IMMIGRATION POLICY

Disappointment Is General At American Rejection Of Invitation To New Parley

WASHINGTON, May 16.—The United States government has informed the Allies that it cannot accept the invitation to participate in the conference at The Hague on June 26 because it appears to be merely a continuation of the Genoa conference with no greater hope of success while the attitude towards Russian trade remains unchanged. The United States, it is said in the reply, thinks a restoration of production in Russia is necessary as a preliminary to any credits but the Russian memorandum on May 11 lacked that definiteness which would justify United States going into any conference dealing with Russian affairs.

LONDON, May 16.—The refusal of the United States to participate in the proposed continuation of the Genoa conference at The Hague has caused great disappointment in many quarters here where it was strongly hoped that the invitation of the Allies would have been accepted.

The public is watching with interest the final scenes at the Genoa conference and adjournment is expected at the end of the week. Premier Lloyd George is expected to arrive home on Friday. He is described in some despatches as being weary and depressed and in need of some days rest before he can give the House of Commons an account of his stewardship.

GENOA, May 16.—It was indicated this afternoon that Premier Lloyd George does not feel that the United States' refusal to participate in the commission to sit at The Hague on Russian affairs is the final word. The reply is regarded by him as forming a basis for further correspondence.

Great disappointment at the decision of the United States is expressed generally in conference circles as it had been believed that the United States was now ready to join with the other powers in dealing with Russian economic questions.

RUSSIA COMING.
GENOA, May 16.—Russia has accepted an invitation to attend the conference at The Hague.

The navigation season is now open.

PARIS, May 16.—An elderly, matronly woman caused considerable excitement last night at Ciro's, a fashionable resort of American visitors, by lighting up a large black Havana cigar, at which she puffed with every appearance of satisfaction through an amber holder. The woman did not finish her cigar, however, but handed it to a woman companion who smoked it to the end. Then both women retired after a brandy night-cap.

CITY COUNCIL ASKS FOR AN ENQUIRY INTO BOOTH SCHOOL AFFAIR

On recommendation of the Board of Works, the City Council last night decided to address a letter to the School Board asking what steps were being taken towards the holding of an enquiry into the matter of the Booth Memorial School.

A report from the Board of Works was presented recommending that the School Board be communicated with to the effect that if they were not taking steps to make an enquiry based on the report of A. A. Cox, the consulting architect, the city council would.

Alderman Perry said there was every reason to believe that the School Board was just as anxious to have an enquiry into this matter as were the city council.

Ald. Kerr said that the resolution of the Board of Works meant to imply that if the School Trustees were not going to make an enquiry that the city council would.

CHINAMAN SOUGHT IN WOMAN'S DEATH

Drugs Blamed for End of Woman From Narcotic Poisoning

MONTREAL, May 16.—A Chinaman who is alleged to be a peddler of narcotics is sought in connection with the death of a young woman, known only as "Anita," who was found dying in a house on St. Dominique Street last week, and who is believed to have been a victim of drugs.

The police believe that the woman was an American, that she was deserted some time ago by her husband, and that she came to Montreal, where she gradually became lost in the city's underworld life. Coroner McMahon has ordered an autopsy to be made and an inquest, with jury, held.

Dr. Gaudet, of 327 St. Denis Street, reported to the coroner he was called to the house where the woman lived and found her unconscious, apparently suffering with narcotic poisoning. She died in spite of his efforts.

The body was brought to the morgue and detectives questioned persons at the St. Dominique Street house. They are following a clue afforded by information that the woman was last seen at the house in the company of a Chinaman, said to be a well-known narcotic peddler here.

He declared the government knew of 3,500 deaths from cruelty and exposure last winter. GOOD PROGRESS AT SILVERADO MINE

Another Crew of Men Was Put on Stewart Property Last Week

STEWART, May 16.—In spite of the tremendous handicap in the way of snowslides, etc., good progress is being made on the Silverado. Last week another shift was put to work in the main tunnel, which is now in about 120 feet. As soon as the snow is gone sufficiently to permit outside work being done, activity on this property will be pushed with the utmost energy, and a crew of men will be put to work on the upper leads. Considerable ore is now on the dump ready to be brought down the hill as soon as weather conditions will permit.

W. R. Tooth has purchased the property of the Salmon River Trading Co. and will take possession on May 30. The building is three storeys high. The first floor will be used as a general store and two top floors will be leased for rooming house purposes.

It is the opinion of the police that on account of the closing of the Hays Cove bridge to vehicular traffic drivers have been attempting to make up lost time by speeding over the detour. There is great danger to many little children in that quarter and the police has been ordered to see that preventative measures against accidents are taken at once.
