JAP INDUSTRIAL REFORM NEEDED

Production Costs Must be Lowered if Country is to Maintain its Position in World Trade

TOKYO, Dec. 28.—Unless some fundamental reform is effected in the Japanese industrial organization, Japanese goods will be evicted from the world markets according to M. Akiyama, of the Commercial and Industrial Bureau of Tokyo, who has just returned from a tour of inspection in China and other countries.

In China, he says, wages are very low and for this reason Japanese goods are being forced out there by Chinese manufacturers whose product is just as good as that of the Japanese. He also declares that in the South Seas markets Chinese goods are slowly supplanting Japanese merchandise and that unless Japan is to lose these markets entirely production costs must be reduced in this country.
