OTTAWA, July 25.—The advent of broadcasting radio-telephone stations has necessitated a revision in the annual fees payable for licenses issued by the naval department for the installation and operation of radiotelegraph stations in the Dominion of Canada. In addition to the revision in the license fees, the fees to be paid in respect to examinations for certificates of proficiency in radiotelegraphy and radiotelephony, are also revised.

The revised annual license fees are as follows: limited coast station, \$50; public commercial station, \$50; private commercial broadcasting station, \$50; private commercial station, \$5; amateur broadcasting station, \$5; amateur experimental station, \$1; private receiving station, \$1; technical or training school station, \$5; ship station, \$1.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and second-class to be \$2.50 an acre. Pre-emption now confined to surveyed lands only. Records will be granted covering any land suitable for agricultural purposes and which is non-timber land. Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least one acre. Where pre-emptor in occupation less than 2 years, and has made proportionate improvements, he may because of ill-health, or other cause, be granted intermediate certificate of pre-emption and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$50 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of at least 2 years are required.

Pre-emptor holding a Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, title to be obtained after fulfilling residential and improvement conditions. For grazing and industrial purposes areas exceeding 400 acres may be leased by one person or company. Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased on conditions including payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased on conditions including construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

FOUR CENT STAMP IS LATEST THING

Is For Use on Letters Addressed to British Isles.

OTTAWA, July 25.—The Postal Department has greatly reduced the number of square inches of musellage to be moistened per person per annum by introducing a four-cent stamp. This stamp, of a deep mustard chrome color, is intended for use on mail addressed to the British Isles. Letter writers with linguistic accomplishments and French friends will, however, find frequent correspondence costly, for letters to "La belle France" must bear a 10-cent stamp for the first ounce, and a 5-cent stamp for each additional ounce.

The changes in postage stamps made in accordance with the color scheme of the Postal Union and to be complied with by all countries in the union, also include the meek and verdant one-cent stamp, which now sports a coat of brilliant orange.

The color scheme is a plentiful source of argument, and would almost foil an expert. The green, blue, brown and mauve are easy to put in their place, but when it comes to deciding the exact shade of the one-cent stamp or of the four-cent stamp one finds considerable difficulty in holding the same opinion for more than a minute at a time.

PEACE OF THE WORLD DEPENDS ON ADOPTION LEAGUE OF NATIONS

Resolution Carried by Ten Meetings in Hyde Park Simultaneously

LONDON, July 25.—"This meeting affirms its belief that the future peace and safety of the world depends upon the adoption by all nations of the principles of the League of Nations. It recognizes that the admission of all European nations, and especially Germany, to the League is a matter of urgency."

This resolution was put and carried simultaneously from ten different platforms in Hyde Park. The occasion was the anniversary of the League of Nations Day. Thousands proved their devotion to the league by cheering the resolution despite the rain which fell in torrents.

The Archbishop of York said he knew the league had prevented war between Sweden and Finland and that it had settled a most difficult question in Upper Silesia. Also it had quenched the sparks flying about Albania, the powder magazine of Europe.

Lord Rober Cecil said the league had brought back and restored to their homes something approaching half a million prisoners of war; it had helped prevent disease and death spreading from the famine stricken areas of Europe, and had done much to raise labor conditions throughout the world.

The Earl of Cavan, Chief of the Imperial General Staff, sent this message: "My business is war and preparation for war, but that does not and never will prevent me from doing all I can to prevent war. The League of Nations has, I believe, the backing of all thoughtful people."

YET THEY'RE FRIENDS.

A conductor and a brakeman on a railroad differ as to the proper pronunciation of a station named Eufelia.

The conductor calls—You're a liar! You're a liar!

The brakeman yells—You really are! You really are!

And the train passengers look in vain for a fight—"Topics of the Day" Films.

RANCHERS ARE FINED FOR ILLEGAL GRAZING

Charles Kosterling and William Grinden, of Big Bar, failed to Take Out Permits.

CLINTON, July 25.—Before Magistrate George Milburn, Charles Kosterling and William Grinden, Big Bar ranchers pleaded guilty to the charge of allowing cattle to graze on crown ranges without first having secured grazing permits. In consideration of arrangements being made to pay all grazing fees due, the court imposed nominal fines although the penalties might have been heavy.

The prosecutions were undertaken in order to protect legalized range users in the quiet possession of the ranges and to prevent trespassers from taking to themselves the benefits of range protection and the improvements carried out for the benefit of those permitted.

These were about the first cases of their kind in the province.

UNABLE TO COLLECT RAILWAY FARES AS CROWDS TOO GREAT

GALATZ, Rumania, July 25.—Some railroad trains in Rumania are so jammed with the roving populace that the conductors are powerless to collect fares. Hence the impression is conveyed that one may travel for nothing, which serves only to bring larger numbers to the already overcrowded coaches.

Like most other war-affected countries, Rumania has not enough passenger coaches to take care of the throngs of people who want to travel. The Germans and Austrians confiscated most of the rolling stock. Passengers today are forced to ride on the roofs, bumpers, running boards and even on the under-trucks of the coaches. Fist fights and altercations, to say nothing of accidents, fatal and otherwise, are of frequent occurrence.
