PAPER MONEY AD INFINITUM

Soviet Russia Flooded with Valueless Notes with More on Way.

THE HAGUE, July 17.—The brave claim of the Soviets that they had established a budget system for Russia went up in smoke when the Bolshevik delegation presented the present Governmental figures and smothered the other delegates in a cloud of billions and trillions and promises of what they could do. The headachies the diplomats got was Litvinoff's revenge for the brisk rebuff in the morning session when the other delegations refused to join the Soviet propaganda scheme.

Out of 40 pages of figures, mostly zeros, the facts stand that not only have Russians been running the Government on an issue of paper money almost ad infinitum, but that instead of getting better the situation is getting worse, for in the month of June, the very month in which their delegates came to The Hague, the Soviets issued 85,000,000,000,000 paper rubles, 20,000,000,000,000 more than in May, and seven times as many as in January of this year.

Deficit Even Then.

There is now in circulation in Russia 270,000,000,000,000 rubles and if all the taxes the Russians expect to come in this year come, they will have to issue paper to meet a 20 per cent deficit, an amount exceeding the total paper circulation on July 1. The fiscal tangle on which the Soviets find themselves is shown by the astounding fact that on July 1 there were in circulation eighteen times as many paper rubles as on January 1 of this year. Instead of getting down to meet expenses by creating a revenue, the only known way of making a budget, the Russians are going in the opposite direction and travelling with some speed.

FOUND AMMUNITION AND MACHINE GUNS

Russian Fined in London for Being in Possession of Weapons

LONDON, July 17.—At Wimbledon police court, George de Bolotoff, a Russian subject, was summoned for keeping firearms and ammunition without having certificates.

It was stated that the police, having received information that ammunition, etc., was being stored at Wimbledon Park House, Arthur Road, made a raid upon the premises and found two German machine guns, a German automatic pistol, 4,457 rounds of Russian ammunition, and a revolver in the possession of de Bolotoff.

Purity does it

Take half a cake of Sunlight, pare it into hot water in your washer and stir into a rich suds. Put in the clothes and operate the washer. Later, rinse them thoroughly, and your clothes will be beautifully clean and snowy white.

The rich coconut and palm oils blend is the secret of the Sunlight cleansing power.

Buy Sunlight—its purity saves your clothes.

involver in the possession of de Bolotoff.

The defendant, in evidence, said he had been secretary to the Bolotoff Company, which during the war manufactured munitions for the Russian government, and worked in conjunction with the ministry of munitions. When the company closed down, he brought the firearms and ammunition away so that they would not fall into undesirable hands. The guns and ammunition were used by the company for experimental purposes, but now important parts of the guns were missing. The ammunition could only be used in Russian-made guns.

A fine of £20, including costs, was imposed, and the firearms, with the exception of the revolver, and ammunition were confiscated.

PRINCE GEORGE

The Giscome sawmill resumed actual lumber cutting operations last week with half of the plant running. Several local men have been hired and more will be required when the plant is running to full capacity.

Long awaited rains started falling in the district last week and the forest department reports all fires under control. The rain is also of great benefit to the crops which have been suffering.

William West, the well known miner and prospector, has returned from the Cedar Creek country. He says the placer strike there is rather a fizzle and that the ore will develop into quartz.

H. M. Gibson, the Findlay Forks trader, is in the city returning from Vancouver to the Peace River Country.

Col. E. J. Ryan is expected here early this week to look over the ground of the Quesnel-Prince George road. His company, the Ryan Construction Co., has the contract for completing this road.

Gaul & Bennet, local contractors, will build the new \$10,000 Presbyterian Church here at the corner of Fifth and Brunswick Streets, the contract having been awarded last week. Work will commence at once.

C. A. Pyne is back from a month's business trip through the Cariboo district.

"SMALL STAKES."

Before playing a round of golf one day two elderly gentlemen thought it would make the game more interesting if they played for stakes. But lest they be "real gamblers," one said: "Let us keep the stakes down and play for a cent for the first hole and double it every hole for the eighteen."

They were amazed when they found at the eighteenth tee they were playing the last hole for over \$1,300 or \$1,300.70 to be exact.—Boston News Bureau.

Persistent advertising is absolutely necessary to success.

RAIN IN INTERIOR

N. B. Walton Says Most Was at Prince George—Fires Under Control.

N. B. Walton, general superintendent of the Canadian National Railway, who returned Saturday night from a visit to the eastern section of the district, states that while there has been rain in the interior it has not been enough to put out the forest fires. However fires are pretty well under control. The most rain was in the neighborhood of Prince George.

SIX KILLED

BELEFAST, Maine, July 17.—Six persons were killed in a train wreck near here.

THE BISHOP REFORMED.

Phillips Brooks liked to have his joke as well as any man. One day Mr. Baldwin of the Christian Union was writing to him and slipped into the letter a newspaper clipping of a talk he had given on profanity. Promptly came the answer from the good Bishop: "My dear Baldwin I have just finished reading your remarks on profanity. You will be glad to know that I agree with them, and have entirely abandoned the habit."—Boston Transcript.

John Matheson and John Murray are cutting down a big yellow cedar tree back of J. C. McLennan's residence on Borden Street this afternoon at 3:30. The tree is a big one and as there are a number of residences close by it will take some careful guiding. However Mr. Murray is an expert feller and it is expected there will be no difficulties. The tree they are felling is a well known landmark.

TIMBER SALE X 3015.
