GET AN X-RAY OF YOUR TEETH

So Says Dr. Bayne. It Will Afford Great Assistance to Your Dentist in His Work.

Those contemplating having dentistry performed naturally desire their dentist to have a correct and definite idea of the condition of their teeth, not only of the portion which are exposed but also that portion which lies beneath the gum, which actually in a great many cases, is the most important.

Before having any work attempted, it would be well to first of all have X-ray pictures taken of the teeth so that your dentist may be able to proceed and give an intelligent opinion as to what should be done.

My X-ray machine which is of the latest type is at your disposal. At a very low cost you can secure the necessary exposures and take them to your dentist who will not only appreciate them but be so guided that he can give you better and more intelligent service.

PRAIRIES SOON BE DOTTED WITH GARDENS

Winnipeg, May 23.—That the time will come when the prairies will be hedged and dotted with gardens and blooming flowers, of ripening fruits and of delicious vegetables, was the prediction made here recently by W. T. Macoun, horticulturist of the Dominion Experimental Farms, who has almost completed a tour of inspection of the Dominion's experimental farms.

RE SPECIAL TIMBER LICENSES

The attention of Timber License holders who are taking advantage of the provisions of the 1921 Amendment to the FOREST ACT, whereby arrears of license fees accrued prior to 31st December, 1920, have been funded and made payable in annual instalments, is specially directed to the fact that any renewal fee which became due in 1921 is not included in the instalments above mentioned, and such 1921 and all subsequent renewal fees must be paid within one year after the date of expiry of the license in order to maintain the right of the holder to obtain a renewal of the license.

ECZEMA ON FACE AND HANDS for Five Years

Ecema or salt rheum, as it is so often called, manifests itself in little round pimples which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed and the intense burning, itching and smarting, especially at night or when the part is exposed to a strong heat, is almost unbearable and relief is gladly welcomed.

There is only one way to get relief and no remedy like BIRDCK BLOOD BITTERS. Take it internally and it gets at the seat of the disease in the blood and drives it out of the system.

Apply it externally and it takes out the itching, stinging and burning, and promotes healthy healing. Mr. J. Sage, 215 Princess Ave., Vancouver, B. C., writes: "Having suffered with eczema on the face and head for the last five years, I consulted several doctors, and tried various kinds of salves and lotions, but I derived no benefit from any of them. I did not know what to do until a friend advised me to try Burdock Blood Bitters, and after I had used two bottles I began to get better and now after taking eight bottles I have not even a blotch on me. I feel that I cannot praise B. B. B. too highly. I hope you will make full use of this recommendation for the benefit of those who are suffering from this terrible complaint, eczema."

B. B. B. put up only by The T. Milburn Co., Limited, Toronto, Ont.

Mr. Macoun said that he had seen on the prairies some of the finest gardens that could possibly be seen anywhere in Canada. But before the prairies can have gardens they must have hedges for their windbreaks, Mr. Macoun added. "Set your garden," he said. "The hedges are coming. The Dominion experimental farms have more, far more, than paid for themselves by the wide distribution which has been given to the caragana hedge, which the department at Ottawa introduced from Russia. It is indispensable to the small garden on the prairies. I attribute a great deal of the splendid results achieved in western gardening to the influence exerted by the experimental stations," Mr. Macoun declared.

Mr. Macoun said the present aim of the department of agriculture is to get earlier varieties of fruits and vegetables, and referred more particularly to the especial need for earlier varieties of all kinds on the swept prairies.

MACDONALD HOTEL SINKING WELL ON THE RIVER FLATS

EDMONTON, May 22.—Men employed by the Macdonald hotel are engaged in putting down a well on the river flats close to the low level bridge, and near the flights of steps leading from the car tracks to McDougall Avenue. On Thursday surveyors were engaged in running lines from the river bank to the location where the drilling is in progress, it being evident that the hotel people are determined to obtain an individual water supply. A well, 1200 feet deep was formerly drilled by the hotel close to the building itself, but it is understood that this failed to supply the requisite amount of water, hence the change of location to the flats.

FALSE ECONOMY

The family that does not provide for laundry service in the weekly budget is practicing false economy. Under our new plan, Laundry work by the pound, practically the entire family bundle washed and returned, damp almost ready for ironing, for \$1.25.

This is the cheapest Laundry Service ever offered locally, and the husband who has the welfare of his family at heart cannot afford to pass this service up without serious consideration. We have also our Soft Finish Service, where for a small additional charge, everything is dried and all flat pieces ironed and folded.

To those who can afford the small additional cost, this is the most complete service possible, without finishing the entire bundle. The cost will be found to be considerably below the prevailing price.
