### DISORDERS IN LONDON

Unemployed Riots Yesterday—54  
Arrested and Many Injured

LONDON, Oct. 19:—Expected unemployed riots broke out here yesterday and for twelve hours the police battled with mobs estimated to have contained 10,000 persons. At last, the city was quiet again last night with police in complete control and fifty-four persons reported under arrest with a score of police and numerous unemployed receiving treatment for injuries sustained during the disorders.

Angered when prevented from staging a demonstration at the City Hall, the rioters smashed windows and looted shops in the south of the city.

Soldiers were called to the scene but did not go into action.

**IN COURT TODAY**  
Fifty men and four women were arraigned in police court today for participation in the riots and were fined forty shillings each with options of from two weeks to one month in prison.

### A 20-Foot Jawbone

What a job Samson would have done with this one! A 20-foot jawbone from one of the largest whales ever caught in Arctic waters was unloaded at Seattle recently, enroute to the Smithsonian Institution.

### GOLD ON ISLANDS

Rogers and Nevins Meet With Success—Gold Star Work  
Continues

MASSETT, Oct. 19:—Gold is being recovered at the Blue Jacket Mine near Massett by two placer miners, L. Rogers and T. Nevins, who have now followed a pay streak into the hill behind the mine with a 200-foot tunnel. Hand sluicing methods are used and, while the two miners have no wild dreams of sudden wealth, they are keeping financially above water and, if the pay dirt bears out the present promise, may be able to clear good wages for the winter months.

No definite new developments are reported from the Gold Star Mining Co., which has a small plant on the East Coast where at present several men are awaiting instructions to go ahead with the work. Gold has been produced from the black sand but not yet on a paying basis. The management is confident that the beach mine can be made to pay if capital sufficient to purchase the proper machinery is attracted.

Mr. Elliott, president of the company, who left here on the power boat Golden West for Prince Rupert after a tour of inspection, was non-committal but it is rumored that the new capital has been secured and a caterpillar tractor will shortly be brought up and put into operation.

### MILL IS IN OPERATION

Arthur Robertson of Massett Hopes  
For Improved Market

MASSETT, Oct. 19:—The shingle mill of Robertson and Simpson at Massett is in full operation and will put a million shingles before closing down for the winter months. According to A. Robertson, manager of the mill, business is none too stimulating but the superlative quality of these Queen Charlotte shingles is being recognized on the coast and enquiries have been received from interior points. If prices advance at all, it may result in increased sales.

Mr. Robertson states that from the first he has pinned his faith on producing a shingle that would excel anything shipped from the south and the gradual but steady growth of the business has justified the care taken in the mill.
