# Soccer Affairs Here Are In Good Shape

## Football Had Good Year in City Despite Depression; Activities of Season Reviewed by Executive

"Considering the unusual abnormal conditions now in existence all over the world today, which are naturally being felt in this community, your executive feels that the 1932 football season has been highly successful," said the report of the executive for 1932 presented last night at the annual meeting of the Prince Rupert Football Association.

### FOOTBALL MEETING

C. L. Youngman, New Secretary of Soccer Association—Laidler's Services Appreciated

With the exception of the secretary-treasurer and one member of the board of control, the Prince Rupert Football Association, at its annual meeting last night, re-elected 1932 officers and executive to carry on for another year. G. W. Laidler, who announced it was impossible for him to continue as secretary—

All debts have been paid and, although the balance on hand is not very large, we feel quite satisfied that we have been able to avoid turning over affairs to the incoming executive showing a deficit. "All games throughout the season were played in a very good spirit of sportsmanship and the teams were all evenly matched. In spite of the fact that the Canadian Legion did not win one of the trophies they were always in the running and only bad breaks prevented them from being rewarded. Special mention is also due to the Home Oil Club who, in spite of difficulties, were always on the job. They deserve a lot of credit for their sportsmanship in always fielding

a team in spite of the many reverses they received. "The class of football played was quite up to the mark and was thoroughly enjoyed throughout the season. The younger players generally speeded up the games which were fast and interesting to the spectators. "The number of players registered during the playing season by the various clubs was as follows: Canadian Legion, 25; Merchants, 25; Regiment, 21; Home Oil, 29. "The following is the complete list of trophies competed for together with the winners of same: "Moxley Cup (league championship), Regiment; "Dominion Day Cup, Merchants; "Gillhuly Cup, Regiment; "Stuart Benefit Shield, Merchants; "Rochester Shield (Juniors), High School. "The Dunedin Intermediate Cup was not competed for during the season 1932. "Gate Receipts "Gate receipts for 1932 showed a decided falling off from the previous year. This was due principally to the presence of 'Old Man Depression' in the district although weather conditions were far from ideal for football and the gate receipts

## CARL SMITH RE-ELECTED VIC FOLEY FOR NORTH

High School Softball Meeting Extends Deep Sympathy to Mr. Gilliland  
 The postponed annual meeting of the High School Softball League was held yesterday afternoon with Carl Smith in the chair. Soon after opening the meeting, Carl Smith turned over the chair to Mr. Johns. Bill Tobey moved a resolution that the meeting extend its deepest sympathy to Mr. Gilliland in his present illness. He also wished to thank Mr. Gilliland for his cooperation and for his consent at the time he was carried on. For the second consecutive year Carl Smith was elected as the heart of the High School softball league. The first cast of the ballots revealed that Smith and W. Tobey had each received 26 votes. Under this circumstance nominations were opened for presidency. Moxley and Morgan were nominated. This time Smith received thirty votes, over half of the ballots cast. Before the close of the meeting

Former Prominent Vancouver Boxer Here This Afternoon Enroute to Dawson  
 Vic Foley, formerly prominent in Vancouver as a boxer, was here this afternoon aboard the steamer Princess Norah. He was bound north to Dawson. A charge of drunkenness against Sonny Cook was dismissed by Magistrate McClymont in city police court yesterday afternoon. Mr. Johns congratulated the members for carrying on the League in its present efficient manner. He wished to be with the boys and help carry the League on and hoped that Mr. Gilliland would soon recover. The League is now being conducted by the president, his executive and Mr. Johns acting as an adviser. Yesterday's game between the Tobey Tigers and Moxley Cubs was postponed owing to bad condition of the grounds.

### ANNUAL FISH WEEK

Canada's annual "Fish Week" commences Monday. The observance has been arranged by the Canadian Fisheries Association, a nation-wide organization, and the plan of setting aside a particular week in the year for the purpose of directing special attention to the national importance of the fishing industry, and the diet value of Canadian fisheries products, has the cordial approval of the Dominion's fisheries authorities. Some of the most interesting research work in connection with foodstuffs in recent years has centred about the health values of fish and shellfish, and very important discoveries have been made. It has been found out, for instance, that fish foods contain vitamins which are essential to health, particularly Vitamin D., which is most valuable in the diet of growing children because it prevents such troubles as rickets. Different foods contain vitamins, of course, but fish has been found to be richer in Vitamin D than other foodstuffs.

### COMBAT ANAEMIA

Then, too, it has been ascertained that fish is beneficial in cases of anaemia, while, of course, it has been known for some time past that sea fish and shellfish have much larger content of iodine—the great goitre preventative—than any other foods. When it is also remembered that fish contains such elements as calcium, the bone and teeth building substance, and that it is nourishing and easily digested, it is easy to see why its use is stressed increasingly by diet authorities. Canadian fish is available in such variety, and such satisfactory quality, that there is no need for anyone in the Dominion to buy imported goods. Canada's fisheries resources are remarkable both in extent and in the variety of fish and shellfish which they yield, and fishing and processing operations are carried on by an industry which uses thoroughly modern methods and equipment.—Contributed.

## IN THE LETTER BOX

### CHIPPING IN

Editor, Daily News:—  
 I would like to chip in and contribute a consideration or two on the subject of the controversy between the city council and the unemployed association of Prince Rupert. It has been inferred that the unemployed want "something for nothing." This inference like anything else can be viewed from more than one angle, one of which was expressed by some of the aldermen while it is the intention of the undersigned to bring attention of interested parties to one of the other angles. It is known that the Dominion and the provincial governments contribute two-thirds of the cost of the municipal relief, leaving the remaining third to be financed by the municipality concerned. Now if our city council is paying one-third of the cost and demands three-thirds of the labor power so purchased in return then the inference of "something for nothing" to a certain extent has the effect of a boomerang. In view of the fact that the city council has offered examination of the books in connection with administration of the local relief it may be safely assumed that the job was and is being done in accordance with the law, but it would be interesting to look over some figures in connection with national relief matters as a whole. In the period of time from October 1, 1930 to January 31, 1932, \$44,000.00 was paid out in wages to relief workers. However, the total amount of public funds expended by the federal, provincial and municipal governments during the same time was \$146,899,219. Another item of expenditure in connection with administration of these relief funds was cost of materials and cost of administration. The cost of administration of these funds and production of the materials used, no doubt, have provided work for a good many people but have consumed two-thirds (roughly) of the funds intended for relief of the workless workers. Now the other point is that the profits made in production and sale of these materials (especially if one remembers cases like the one reported last winter in the local press where in a camp occupied by 300 workers, 300 picks, 300 shovels and 30 other kinds of tools were sent in measurably as necessary equipment from the Marxian standpoint) are a portion of the surplus value produced by the working class as a whole and in fact constitute the something for nothing. Hence it appears unreasonable to point a finger at the involuntary workless worker who is reluctant to sell his labor for a portion of its market price especially since his unfortunate position on relief is exploited for production of unholy profits.  
 M. ANDERSON.

### RELIEF WORKERS CRITICIZED

Editor, Daily News:—  
 Your editorial of yesterday would seem to intimate that most of the men employed by the city on relief work are willing and anxious to work. Now sir, I have watched some of these men and their anxiety to preserve the work is so great that they do very little of it. If they were working for me, I'd fire the lot. Like you, I admire a man who is willing and anxious to work but I have no admiration for most of the relief gangs I have seen. I am willing to wager that I could do as much work in an hour as some of them do in two days. I think you can keep your sympathy for a better lot of men than those who have been exhibiting their loafing ability when supposed to be working for the city. I expect to arouse resentment among some of the unemployed. That is my object in writing. It is time some one spoke up. Yours for a good day's work for a day's pay.
