VICTOR Bi-acoustic Radio

Tone so human that you cannot distinguish it from the original!

Other Victor models range in price from \$69.50 up

//OU will never know how wonderful - how real - how enjoyable radio can be until you hear the new Victor Bi-acoustic Radio. Visit your Victor dealer ... listen to this entirely new instrument. You will appreciate instantly its vastly finer tone ... tone that makes radio vivid and exciting ... tone with the brilliance and power of the personal performance, actually richer by two full octaves of music.

Victor Bi-acoustic Radio embodies eight great technical advances* that make possible twice the power, twice the range and twice the tone quality. Twice the enjoyment, and more!—the thrill of hearing notes that radio never before has brought you—the satisfaction of hearing every instrument in all its original beauty. And whether at whisper or at highest volume, the entire broadcast is reproduced full and true... free from distortion, 'tinniness' or unpleasant resonance.

Victor Bi-acoustic Radio the improved super-heterodyne - is available in a choice of three magnificent console models, ranging from \$129.00 to \$189.50 ... and may be purchased on convenient terms.
