## Hon. T. D. Pattullo Would Admit all Immigrants if White & in Good Health

VANCOUVER, Oct. 28.—"Canada can easily absorb 300,000 new settlers a year and with the outlook at present not very favorable to general investment of British capital in Canadian industries the Dominion should give its earnest attention to securing these settlers," said Hon. T. D. Pattullo, minister of lands, today on his return from England.

The minister said he was of opinion that Canada should admit every mentally sound and healthy individual of white extraction not only from Britain and the United States but from other countries. He said there were several reasons for not anticipating any general investment of British capital in Canadian industries at present. Rightly or wrongly, the Grand Trunk Railway losses have been made the occasion for unfavorable comment on Canadian investments.

## LLOYD GEORGE GLASGOW TODAY

Is Acclaimed by Five Thousand People Whom He Addresses

GLASGOW, Oct. 28.—Former Premier Lloyd George, addressing this afternoon 5,000 people who received him enthusiastically, declared in referring to the breaking up of the coalition that "the world is in such trouble and in such a condition that you cannot afford to indulge in party hickerings and in quarrels until the nation is on a firm rock again."

He said the Conservatives wanted a premier with less vitality than himself.

Referring to the labor manifesto, the former premier said it was issued to a people crushed with taxation, sore with the wounds of a great war and exhausted and worried with anxiety about their daily bread. "We no longer are out of danger." It is a formidable challenge and will appeal to millions of die-hards and not only the people who are calling for a change. They are not the only people in a democratic country who have a right to call for a change.
