FUTURE OF MOUNTIES

Matter Is Discussed at Ottawa—Numbers Likely Reduced.

OTTAWA, March 29.—The future of the Dominion and Royal Mounted Police is creating a good deal of speculation. The former are at present absorbed in the latter, making a total force of over sixteen hundred men. The period of engagement of what is known as "the 1919 class" expires in June next, when some six hundred men will either be allowed to go or be re-enlisted. The present probability is that they will be dropped. There is a good deal of speculation in the western provinces as to whether the police will be retained there or not. In the House the other day a British Columbia member, Mr. Neill, of Comox-Alberni, urged that they be removed from that province, where he said they were no longer needed as they had their provincial police.

The minister of militia recently communicated with the governments of the different provinces, asking them to express an opinion as to whether the retention of the Mounted Police was desirable or not, and is now awaiting this advice before formulating a definite policy regarding them.

KEVIN OIL WELL IS EXPECTED TO BE HEAVY PRODUCER

LETHBRIDGE, March 29.—The new oil well south of here and a short distance across the border gives every indication of being the best well yet brought in in the state of Montana. It is in Toole County. Two gas sands were struck, the first at 1010 feet and the second at 1550 feet. These were high in gasoline content, producing oil sand with heavy gas pressure was found at 1770 feet.

A test is to be made for production just as soon as the tanks are in place.

There is a big rush to the district, not only on the American side but in the district on the Alberta side of the boundary line.

SO EASY TO BE WELL AND STRONG

Take "Fruit-a-tives" The Wonderful Fruit Medicine

805 CARTER ST., MONTREAL

"I suffered terribly from Constipation and Dyspepsia for many years. I felt pains after eating and had gas, constant headaches and was unable to sleep at night. I was getting so thin that I was frightened."

At last, a friend advised me to take "Fruit-a-tives" and in a short time the Constipation was banished, I felt no more pain, headaches or dyspepsia, and now I am vigorous, strong and well."

Mrs. ARTHUR BEAUCHER.

50c a box, 6 for \$2.50, trial size 2c.

At Dealers or sent postpaid by Fruit-a-tives Limited.

ALICE ARM

Jack Hauber is in town from the Black Diamond claim on Clearwater Creek where he spent the winter doing development work. Four tunnels have been driven, the showings are good and work is to be continued.

The Esperanza mine last week shipped 90 tons of ore to the Tacoma and Anyox smelters through the Dolly Varden bunkers. Shipping will continue until July 1.

Mrs. E. Ness and family have returned from Ladysmith where they spent three months visiting.

Mrs. E. Elze returned last week from the Anyox Hospital where she was an influenza patient for three weeks.

P. Fraser, provincial government school inspector, visited the Alice Arm School last Friday.

C. P. Riel's sawmill, which has been closed for two months, resumed operations last week.

G. A. Young, provincial government road superintendent, announces that the Kilsault River wing dam above town will be extended 300 feet as soon as the snow is off the ground.

VANDERHOOF

A wedding of considerable interest in the Nechaco Valley took place last week at Prince George when Miss Nettie Steele, daughter of Mr. and Mrs. William Steele, became the bride of Douglas Donovan Ellis, son of Mr. and Mrs. James Ellis. Rev. William Graham officiated. The young couple have taken up residence in the Nooki Lake district.

A net profit of \$37.85, realized from the St. Patrick's concert, has been appropriated to the Vanderhoof Cemetery fund.

R. M. Taylor and H. V. Taylor, of Victoria, have bought out the hardware business of Robert C. McCorkell and have taken over the management. Mr. McCorkell retains his farm machinery and fur business which has grown to extensive proportions.

Miss B. C. Suter, of Asquith, Sask., is spending a two month holiday here with Mr. and Mrs. R. H. Moore.

Miss B. G. Donette has returned to Edmonton after having spent several weeks here visiting with her sister, Mrs. H. V. Goodwin.

BUSY BARTENDERS LEAVE WITH POLICE

DETROIT, Mar. 29.—An electric switch which shut off real beer and permitted only near beer to flow, or yielded the real beer as the operator willed, did not deter members of the police clean-up squad when they raided the Garvey hotel, sometimes known as the "Stockyards Inn," 67 Dix Avenue, Thursday. Suspicious, because the bar was doing such an immense business that four bartenders were kept busy, the squad made a careful investigation of the basement of the hotel, discovered a switch, and then seized nine half-barrels of beer, 12 quarts of whiskey, seven quarts of champagne and 80 cases of bottled beer. The squad also arrested the four busy bartenders.

FLY ACROSS PACIFIC IS PLAN OF AVIATOR

EDMONTON, Mar. 30.—In the hope of putting Canada in the front rank of progress in the world of aerial transportation, G. Roach, formerly a member of the Royal Air Force, advocates a trans-Pacific flight. Mr. Roach will endeavor to interest Canadian capital in the project and plans to purchase a machine similar to the J. L. type of twin-engine biplane, of vastly modified principles.

The proposed route, as outlined by Mr. Roach, would be north along the British Columbia coast to Alaska, then to a point in the Aleutian Islands, across the Behring Sea to a point on the Kamchatka Peninsula and finally south to Japanese and Chinese points. The establishment of fuel stations at distances of from 500 to 1000 miles would be arranged for, and an effort made to secure the co-operation of the countries immediately affected by such service.

WIRELESS REPORT

8 a.m.

DIGBY ISLAND.—Raining, light southeast wind; barometer, 29.74; temperature, 40; sea moderate; 9 p.m. spoke steamer Prince Albert left Skidegate 9 p.m. northbound; 12:45 a.m. spoke Redondo, 135 miles south of Ketchikan, northbound; 12:45 a.m. spoke Northwestern 8 p.m. at Port Althorpe, discharging, northbound.

Six Rules for Making

GOOD COFFEE

KEEP YOUR COFFEE AIRTIGHT.—It loses its strength and aroma when exposed to air. Keep it in an airtight container.

MEASURE CAREFULLY.—Experiment until you find just the proportions of coffee and water that suit your taste. Then stick to them. Guessing usually means a poor cup of coffee.

USE GROUNDS ONLY ONCE.—Don't leave the coffee grounds in the pot for the next meal. Used grounds are of no more value in making good coffee than ashes in building a fire.

USE BOILING WATER.—Boil your water, but don't boil your coffee; don't let the water and the ground beans boil together after they are mixed.

SERVE AT ONCE.—Many a pot of perfect coffee has been ruined by letting it cool
