

YOU AVOID BLOOD-POISON

WHEN YOU USE Zam-Buk

NEGLECT of even the tiniest break in the skin leaves the way open for germs to set up dangerous inflammation and disease.

The best and simplest way of insuring against this ever-present peril of blood-poison is to keep a box of Zam-Buk always handy and immediately dress every cut, scratch, burn, cold-sore or skin eruption with this unique herbal balm.

Zam-Buk has a power for *destroying* and *repelling* skin disease which no common salve or ointment can possibly have. In addition to its great soothing, pain-killing qualities, Zam-Buk has powerful anti-septic and germicidal properties which are a bulwark against eczema, ulceration and similar troubles.

When you use Zam-Buk, you not only make your cut, wound or sore thoroughly "aseptic," but you ensure its rapid healing with fine new skin.

FREE SAMPLE BOX! Whilst Zam-Buk is obtainable of all chemists and dealers at 50c. per box for \$1.25. The Zam-Buk Co., Toronto, will send any reader a Trial Sample for 1c. stamp.

Herbal Zam-Buk uproots skin disease whether the trouble be simple pimples, rashes and blotches, or chronic eczema, ringworm, poisoned sores or leg ulcers. Equally good as a remedy for cuts, and for burns, scalds, cuts, sprains, etc.

THE WORLD'S ANTISEPTIC

RAILWAY DOES NOT GET ITS SPECIAL RATE

City Council Turns Out Report of Utilities Committee for 4c and 1c From Primary Lines.

The recommendation of the utilities committee that power and light be supplied to the Canadian National Railways for its station, ocean dock, roundhouse and other yard requirements at the flat rate of 4c and 1c from the city's primary lines was turned down by the council last night on a minority vote. The division was as follows: For the report—Ald. Silversides, Ald. Perry, Ald. Kelly and Ald. Kerr. Against—Mayor Rochester, Ald. McLeod, Ald. Montgomery and Ald. Colclark. Ald. Dybhavn was not present.

The report, which was introduced following the application of the railway company for the rate in which it volunteered to handle the power in bulk, building its own line and installing its own equipment, has been before the council for a couple of weeks. It has been championed by the utilities committee on the ground that it would be more convenient for the city and with the increased consumption the cost of equipment and overhead saved by the city would equalize the difference in rate. The opposition, led by Ald. Montgomery, was mainly against the creating of a precedent of the city selling its power in bulk from the primary lines.

At the present time the railway company is paying 10c and 7c for its light. This rate, in any case, will have to be changed to 5.3c and 4.3c for light and from 4c to 1c for power, the bylaw providing for this rate for the company.

The superintendent of utilities was present at the meeting in support of the change to the 4c and 1c flat rate from the primary lines.

REMOVING A STILL

Japanese Caught at Ocean Falls In Deed of Darkness

OCEAN FALLS, B.C., March 31.—Whilst making his rounds last evening, Provincial Constable Beavan rounded up S. Ishii, a Japanese. Under cover of the darkness Ishii seemed to be attempting the removal of what was apparently a portable still, for another point, not figuring on the Constable being in the locality. The Jan comes up before Stipendiary Magistrate Tyson in the morning.

SEWER CONNECTIONS MAY BE MADE FROM NOW ON BY OWNERS

The Board of Works has been given permission by the city council to bring in an amendment to the Building By-law to allow property owners to make their own connections with city sewers over the city property under instructions and supervision of the city engineer. In the past owners have not been allowed to break ground for sewer connections on city property and it has been necessary for the city to keep a staff of three or four men to do such work charging the cost to the owners. Under the amendment proposed, this crew of men would be eliminated and the owners would be given the opportunity of getting the best bargain for the work. At the same time the city would be protected by the provision for supervision by the engineer. The amendment will come back to the council for final approval.

STEWART

It is rumored in Juneau that Thane & Jackson, of the Alaska Gastineau mine, have secured an option on the Fish Creek Mining Co.'s property.

The United States coast guard cutter, Unalga, with M. S. Whittier, collector of customs on board, visited Hyder last week.

Mr. and Mrs. Dale Pitt have returned from a holiday trip of several months in California and Salt Lake City. Mr. Pitt is manager of the Premier Mine.

During the week the Premier mine shipped 1600 tons of ore and concentrates to the smelters bringing the total so far this year up to 15,800 tons.

J. A. Hall and W. L. Balch have returned to Hyder from a trip to Juneau, the capital of Alaska. They report that the government is to build a dock at Hyder and that a dam on the Salmon river to protect the town is receiving favorable consideration.

The Citizens' Association is considering the matter of building a community hall here. The Stewart Land Co. is donating a lot and a tentative building committee comprising Grant Mahood, E. R. Workman, H. P. Gibson, W. J. Crawford and J. P. Searlett has been named.

Sport Chat

The Anyox basketball club has brought forward another proposal in connection with the Prince Rupert-Anyox series that it is planned to stage in the near future. The new suggestion is that the locals journey north on Wednesday night but not play the two games until Friday. They would be brought home that night and the third game would take place here on Saturday night. It is not likely that this plan will be approved by Prince Rupert for it would necessitate the players being away too long and the playing of a game on Saturday night here would not be suitable for apparent reasons. The local association is still considering the matter, however.

The annual meeting of the Prince Rupert Football Association is called for Thursday night of this week. The annual reports will be submitted but it is not likely there will be any other definite business with the exception of a general survey of the situation. Election of officers and receiving of entries is to be delayed, it is understood, until a later organization meeting. The present officers of the association are: E. A. Woods, president; D. C. Stuart, vice-president, and G. S. Russell, secretary.

The presentation of the Dybhavn Cup, significant of city whist championship, to the Valhalla ladies, winners for the year, will take place at a social event to be held tonight in the Metropolitan hall. Besides the ceremony of presentation, there will be a dance, refreshments and card playing. There will be present the players in the various Whist League teams, their friends, and the officers of the league. The affair will be under the auspices of the Valhalla Ladies' Whist team and Ald. John Dybhavn, donor of the cup, will make the presentation.

Bill McDonald, one of the main stays of the Ketchikan baseball team last summer, who is now deputy United States marshal at Hyder, says that they are already thinking of baseball at the head of Portland Canal even though there is still considerable snow on the ground. He thinks that Hyder is going to have a good team this year and he is going to start early himself to get the whip in shape to put it over his teammates.

PACIFIC COAST LEAGUE STARTS

This Season Predicted Will Be Greatest Pennant Race Ever Staged in Minor League

SAN FRANCISCO, April 4.—On four western lots the Pacific Coast Baseball League today opens the 1922 season which officials predict will be the greatest pennant race ever staged in a minor league. The opening games are: Seattle at San Francisco, Oakland at Sacramento, Portland at Los Angeles, Vernon at Salt Lake.

EXPERT COMING BOOTH SCHOOL

A. A. Cox, Former Provincial Government Architect, Is To Be Engaged

PUBLIC ENQUIRY IS LATEST SUGGESTION

The services of A. A. Cox, Vancouver architect and building expert, are to be secured by the School Board at a cost of \$25.00 per day and expenses to make an examination of the Booth Memorial School with a view to reporting on safety for the immediate future and recommending remedial measures for the leaky and unstable condition of the building. This will be done following the action of the city council at its meeting last night in recommending to this effect to the School Board. Dr. W. T. Kergin, chairman of the School Board, and Trustees L. W. Palmore, Thomas McMeekin and Mrs. E. V. Ling were present at the meeting.

Following the sending out of telegrams asking professional examiners to state their terms to come to the city for the purpose of examining the school, replies were received from Robert W. Hund Co., F. A. Barnes and A. A. Cox, all of Vancouver. The first two mentions asked \$50 per day and expenses and the last \$25.

Cox is Favored

Co-incidentally with the fact that Mr. Cox's terms were the lowest, he was specially mentioned by Mayor Rochester and Trustee Palmore who spoke very highly of his abilities and recommended that he be engaged, accordingly, after some discussion, it was decided to secure his services. He will arrive in the city on Wednesday, April 12, according to the telegram which he sent consenting to come. Mr. Cox was formerly provincial government architect and it was he who made the original designs for the provincial government court house here, a more elaborate structure than the one finally decided upon and the one which is now under construction.

Ald. Kelly suggested that there be a public enquiry before engaging an expert and that witnesses be subpoenaed from the superintendent of the work down. The idea of a public inquiry was received favorably by both members of the school board and council, but it was the general opinion that such might follow the visit of the expert. City Engineer Whittaker stated that it was a matter of urgency that the expert be secured first. It was only assumed now that something was wrong. After the visit of the expert this would be known definitely. Dr. Kergin and Mr. Palmore pointed out that the important matter was to know if the school could be occupied or if temporary quarters would have to be found. This would be ascertained after the visit of the expert, but if there was a public enquiry first it would necessarily be delayed.

People Responsible
Ald. Montgomery, after being told that the present drying out process at the school was not likely to remedy the trouble, stated that he agreed with the idea of engaging an expert. There should also be a public enquiry and the people responsible for the waste of public money should not get off scot free. If the school had not been built up to the expectations of the school board there must have been negligence, almost criminal negligence. There should be a public enquiry so that such tricks would be prevented in the future.

Ald. McLeod asked what the School Board was going to do about continuing classes. Nine classes had now been out for two weeks. Dr. Kergin said that the Board was giving the matter close consideration with a view to securing temporary quarters if necessary. The children would be taught during the Easter holidays so at least one week would not be lost.

Blanche Hart and fifteen others have presented a petition to the city council asking that a plank roadway be built under the local improvement plan on Comox Avenue. As the petition does not bear a sufficient number of names and the signatures do not represent the proportion of the value of property required it has been sent back to the parties responsible for the proper signatures. It is understood that the people on Comox Avenue are willing to build the roadway themselves under supervision of the city.

PLANK ROADWAY IS WANTED BY PEOPLE OF COMOX AVENUE

Reporting on the petition, City Clerk Woods said that 47 signatures were necessary and there were only 42 on it to be accepted. The signatures should represent fifty per cent of the property to be assessed or \$50,250, but those presented only covered \$11,250.

HANDSOME BOOK IS SENT BY C. G. RAILWAY SYSTEM

"Summer Provinces by the Sea," a handsome, descriptive book on the vacation resources of Eastern Quebec and the Maritime Provinces, published by the Canadian Government Railways, has just reached the Daily News office. The book has 310 pages, is printed on a splendid paper stock and is profusely illustrated with pictures, both modern and pioneer.

JAPANESE WOMAN DIES OCEAN FALLS

OCEAN FALLS, B. C., March 30.—After giving birth to a baby boy this morning, Mrs. K. Tabata, a local Japanese woman, died about 5 p.m. this evening. Death is said to have resulted from shock. Deceased will be buried here.

See, Mama, There is Your Medicine

"YES, dear, that is the medicine which made mama well and I am sure neither of us shall ever forget it."

"Are you going to buy some?"

"No, darling, I do not need any more. You know how well I sleep now, those terrible headaches do not bother me any more and we are able to take our nice long walks every day."

"You never used to walk, did you?"

Dr. Chase's Nerve Food, that day has gone by and I know what it is to be well and happy."

"Why don't all the sick people use your medicine?"

"Far more of them would if they only knew of the good it would do them. I have told lots of my friends and they nearly all have been benefited just as I was."

Clear brain, splendid circulation, ruddy complexion, sound, restful sleep, good digestion, greater strength of mind and body and better health are the results of using Dr. Chase's Nerve Food. 50c a box, all dealers, or Ed-manson, Bates & Co., Ltd., Toronto.
