## SCHOOL REPORT FOR OCTOBER

Attendance Less Than Last Year—Satisfactory Examination Results

Although attendance at the public schools has been gradually increasing since the opening of the fall term, the number of students in attendance during October 1922 is 32 less than in October 1921 according to a report submitted to the school board last night by H. L. Campbell, superintendent. The total attendance in October this year was 692 as against 734 last year. The attendance in the various schools is divided as follows:

	1922	1921
Booth School	372	384
Borden	247	260
Seal Cove	61	75
Westview	12	43

During the month 155 pupils had been given medical examination by Dr. H. E. Tremayne, medical inspector, and reports had been sent to the parents.

All pupils had been thoroughly tested by examinations set by the principal at the end of October and the results had been very satisfactory showing an improvement over last year. Quite a few students had secured relatively higher standings than formerly, the careful grading of last June having been in a measure responsible for the improved results.

There had been 12 corporal punishments during the month, 8 by the principal and 4 by teachers.

An arrangement whereby Mr. Teddes, Booth School janitor, and Mr. Garton, King Edward School, will take care of the premises three and five nights a week respectively for \$20 and \$30 a month on account of the holding of night school classes, was adopted by the board on Mr. Campbell's recommendation.

Mr. Campbell asked that the janitor of Booth School be allowed to use old lumber in boarding up the north side of the play shed which was being made useless on account of rain coming in and also that lights be installed. The board acceded to the request, the matter of the cost of the lights be carefully investigated first, however.

### MARATHON CLUB CASE IS HEARD

Evidence Taken and Argument of Counsel Postponed to Later Date

The case against the Marathon Club Ltd., charged with selling beer through its servant, Isaac Swallowell, was heard before Magistrate McLymont in the police court Thursday afternoon but argument was postponed till a later date. T. B. Hooper prosecuted and M. Gonzales appeared for the defence. Constables Dixon and Harrison of the provincial police were the chief witnesses.

## GILLETT'S LYE

Comparatively few people realize to what extent Gillett's Lye can be used to advantage in every home. For instance, with one can of Gillett's Lye and five and a half pounds of lard or grease, ten pounds of good hard soap can be made. Use one tablespoon Gillett's Lye in gallon of water for cleaning and disinfecting refrigerators, sinks, garbage cans, tiled floors, baths and toilets.

Useful for over 500 purposes.

## LUX

For All Fine Fabrics

If you have something especially nice and dainty that you do not feel like sending with the regular washing, you can easily and quickly cleanse it with Lux. The thin, white, satiny flakes of Lux are made by our own exclusive process, and readily dissolve into a rich, bubbling lather, as harmless to fine fabrics as pure water itself.

Lux is supreme for washing fine garments. It is sold only in sealed packets—dust-proof!

LEVER BROTHERS LIMITED Toronto

## REPORT ON NORTHERN POLYTECHNIC SCHOOL

Submitted by Director to School Board—Total Attendance Recorded is 149

The report of John Pinder Moss, director of the Northern Polytechnic Institute, submitted to the School Board last night, showed that 149 students had been enrolled in the Prince Rupert branch so far since the inception of the night classes, this figure being considered satisfactory by the director and as large as could be expected. Returns from the various classes were, however, not complete and the actual attendance was likely larger. At Anyox, which was also reported on, there were 52 students. Receipts from students' fees here had totalled \$591 which amount was on deposit in the bank.

Feeling that some of the classes had not the requisite attendance of ten to obtain the government grant, members of the board wanted a more detailed report and decided to lay the present report on the table in the meantime. Mr. Pinder Moss is also to be called upon to attend the regular monthly meetings of the board.

Mr. Pinder Moss asked the co-operation of the school board in efforts which he had already started towards obtaining the provincial government buildings, which are about to be vacated, for the permanent quarters of the Institute. The director expressed the opinion in his report that the attendance at the King Edward and Booth Schools, which were rather far from the centre of the city, was not as large as it might be if more central quarters were obtained. Pending the receipt of more detailed information on the progress and attendance conditions of the various classes, the board decided to take official action at this time.

Dean Quinton has returned from his lecture tour to Anyox, Prince Rupert and Ocean Falls; he speaks of being delighted with his reception at all points he visited. *Victoria Times.*

## You won't cough After Taking Dr. Wood's Norway Pine Syrup

on the first appearance of a cough or cold do not neglect it; get rid of it at once before it has a chance to grow worse and gets settled on the lungs, causing bronchitis, pneumonia, or other serious lung troubles.

In Dr. Wood's Norway Pine Syrup you will find a remedy that will relieve the cough or cold on its first inception by soothing the irritation, and healing the diseased lining of the lungs and bronchial tubes.

Mrs. Percy McRae, Little Shemogue, N. B., writes:—Three years ago I had the "flu" which left me with a very bad cough. I tried different medicines which did me no good, so I took Dr. Wood's Norway Pine Syrup. It relieved me of that awful cough in a short time. "Dr. Wood's" is 25c and 50c a bottle at all dealers; put up in a yellow wrapper; three pine trees the trade mark; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## WHAT ARE PEPS? READ HOW THEY ACT

The best protection for the throat, chest and lungs is contained in a handy box of Peps.

As Peps tablets are dissolved in the mouth, powerful medicinal fumes are carried with the breath straight through the air passages into the lungs, where liquid medicine cannot reach.

The throat and lungs are always more sensitive in cold weather. Peps will strengthen them. Therefore, keep Peps handy wherever you are, and occasionally dissolve a tablet in your mouth. You never know what infection of colds, "la grippe" and even lung trouble may be carried about by people with whom you come in contact.

Because of their direct action, Peps give almost immediate relief to the chronic bronchitis sufferer, and provide young and old with a safe defence against Coughs, Colds, Sore Throat, Laryngitis and Pneumonia.

FREE TRIAL: Send this advertisement and 1c stamp (for return postage) to Peps Co., Toronto, and free trial package will be sent you.

### FAREWELL TO BOBBED HAIR AND FLAPPER

Some New Styles Which Are Now Being Adopted in London, England.

LONDON, Nov. 10.—The "flapper" type of young girl is rapidly disappearing in London. The first signs of waning popularity is the discarding of bobbed hair.

According to West End hair-dressers shortened locks are no longer approved, and the coming winter season will see new styles in the art of hair dressing. The most popular substitute for bobbed hair is a short pompadour, and the use of a small ribbon or wreath. This is the favorite style of Princess Mary.

The reversion in hair dressing has even gone to the extent that small amounts of false hair will be used this winter.

The new color for fall hats is "green almond," and veils will be worn exclusively. The small hat with a veil fastened across the front, which was popular during the war, is to be worn again. The hats will be smaller, ably fall, but huge shapes, rivaling the "Merry widows" of years ago, will be the rage in the spring.

The new evening dresses in the Regent Street windows are entirely minus a back, and a cord of white silk has taken the place of a wider shoulder strap. The materials in vogue are dark shades and purple, and heavy silks and satins will be almost the only materials used. Long trains will again grace the ball-rooms, and three distinct trains are not too much for one gown.

Rich oriental brocades and bejewelled ornaments are to be seen on all the gowns.

### EDMONTON CITY WILL DEAL WITH SWEARING

EDMONTON, Alta., Nov. 10.—Swearing at the Ford car when it refuses to start or giving vent to one's feeling to the chickens in the back yard is likely to become an offence punishable by civic law. While this is not the law at present, a proposed by-law which was up before the by-laws committee of the council if passed will make swearing on one's own property an offence. When the committee discussed the matter recently there was a considerable division of opinion and by some of the members the advisability of taking away one of the ordinary man's privileges was questioned. No definite action either way was taken by the committee. The by-law was originally submitted as there is nothing covering the matter of swearing in the statute, and as magistrates frequently have to deal with such questions some definite ruling has been asked for.

### MUCH GRAIN WAS SAVED GRASSHOPPER CAMPAIGN

SASKATOON, Sask., Nov. 10.—It is estimated that 1,096,000 acres of grain in the province were saved this year by the grass-hopper campaign, states the tenth annual report of the department of agriculture. The cost of the ingredients used was less than that in previous years, and a considerable saving having been effected by modifications made in the poison bait recipe. Damage to the crop by grasshoppers is estimated at 67,220 acres, from reports of municipalities which replied to the questionnaire sent out. This is over 72 per cent of the crop in affected areas and gives a calculated loss of 93,000 acres for the whole of the province.
