MAKE WOMEN EQUAL TO MEN

Ontario Organization Take Up Important Matters With Attorney-General.

TORONTO, Feb. 20.—The Ontario provincial committee of women protest against the economic position of the wife and consider that she should be legally entitled to a certain proportion of her husband's income. At the present time she is wholly dependent economically on the character and varying moods of her husband and is too often as wife and mother and housekeeper the only valuable worker unpaid.

"Whereas the wife is the business partner of her husband in conserving, if not producing the wealth that supports the family; "Therefore be it resolved that the wife be recognized as an equal partner in the marriage relationship and entitled to income."

Submitted to Mr. Raney.

The above was one of the important resolutions submitted to Attorney-General Raney by a deputation representing the local Councils of Women in this province.

Another resolution urged that as children were the great asset of the nation the state should provide medical attendance free in all maternity cases. It was asked that the juvenile court act apply to all boys and girls up to 18 years of age; that domestic relations courts be established in the larger cities; that any person old enough to vote be allowed to do so by producing a tax receipt whether his or her name was on the voters' list or not. Women jurors were also urged and one resolution asked for a fixed election date.

Children's Coughs Quickly Relieved.

It is hard for a mother to keep her children from taking cold; they will run out of doors not properly wrapped, or have too much clothing on and get overheated and cool off too suddenly, they get their feet wet, kick off the clothes at night; the mother cannot watch them all the time, so what is she going to do?

Mothers should never neglect the children's coughs or colds, but on the first sign should procure a bottle of

NORWAY PINE SYRUP. It is pleasant and nice to take, and relieves the cough of cold in a very short time and thus prevents bronchitis, pneumonia, or perhaps consumption getting a foothold on their systems.

Mrs. E. Smith, 288 Victoria Avenue, North, Hamilton, Ont., writes:—"I have three children who have had very bad colds, due to change of climate. I have tried different remedies, but I seem to get the best results from Dr. Wood's Norway Pine Syrup. I have no difficulty in giving it to them as they like it. I always have at least one bottle in the house."

Price, 35c and 60c a bottle at all dealers. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

In the Letter Box

OPENING OF SEVENTH ST.

Editor Daily News:

I have read the City Engineer's letter in your issue of Saturday answering mine of a few days ago.

He furnishes figures of street grades most of which differ very little from those I gave, while the others are evidently not the grades of the places I specified, notably his figure of 2.75 for the east end of Third Avenue. This would appear to be the grade on Third Avenue West of McBride Street, the dividing line between east and west, while the grade east thereof is about six and one-half per cent. However, these details of grades are not the really important aspect of the case and I would not have referred to them at all but for the engineer's statement that there was something wrong if any man thought of heavy traffic being carried over a five per cent grade. The simple fact is that heavy traffic is being carried over that and much higher grades in this and many other cities.

Favor's Seventh.

The Engineer does not refute any of the facts I stated in support of the Seventh Street route, and in condemnation of Eleventh Street—which latter he is reported as favoring. These facts still stand, challenging successful refutation, both as regards the absolute insuitability of the Eleventh Street and the overwhelming merits and claims of the Seventh Street route.

In addition to the numerous stores of the western section of the city all the hotels except one, several large apartment and rooming houses, the leading places of amusement, most of the restaurants, and the main taxi stands are in the immediate vicinity of Seventh Street, in fact they cluster around it, and for all these the Seventh Street route to trains and steamers would be incomparably the most convenient and economical for both passengers and freight, and it should not be forgotten that for passenger traffic the first essential is saving time. The Eleventh Street route would send the vast majority of passengers four blocks farther west than is necessary and of course they would have to return over the same distance to reach their destination.

A five or six per cent grade being quite feasible for the very short roadway from Seventh Street to the station, and that street having been made extra wide so as to be specially suitable for a main thoroughfare to the waterfront, it is hard to understand how or why any other route should be adopted.

Matter of Faction.

The engineer closes his letter by saying that he is "not inter-

ested in any faction," which, of course, is just as it should be. Perhaps I might in closing mention that the only faction I belong to is that considerable portion of the community living and doing business west of Fifth Street, who badly need this long unromised connection with the waterfront and whose petition for it has been unanimously approved and endorsed by the city council.

LORD'S DAY ALLIANCE

Editor Daily News:

According to a wire from your city to the Sun of Vancouver, the local Police Commissioners resent my recent communication to your mayor upon the matter of the Lord's Day Act. The local Commissioners feel, the wire reads, "that the citizens are quite capable of regulating their morals. While strongly opposing Sabbath desecration, yet they are out of sympathy with rigid enforcement of blue laws."

I am of the opinion that this statement of the matter is largely due to reportorial imagination for it indicates a very different attitude to the question from that of Mayor Rochester when I met him on February 3rd of last year. At that time he asked me not to press the question of the Lord's Day Act just then as they were active in dealing with the liquor and other evils. He assured me, however, that the matter would be taken up later on.

I took it for granted that this would be done and it was not till I received early in last month a complaint from one of our citizens with regard to the non-enforcement of the Act in Prince Rupert that I wrote again to Mayor Rochester. In my letter I stated that I hoped to be in the city some time this Spring, not with the idea of dictating to the people in matters of their morals—I find I have quite a big enough job looking after my own—but with the thought that I might be of assistance to the Board.

Not Religion or Morals.

May I now add that the conception of the Act as having to do with religion or morals is a mistaken one. Its one and only function is to give to every one, so far as possible, a free day every week, free from the usual occupations of the other days and free to use as his conscience directs. It makes no reference to the religious observance of Sunday, except to permit churches to carry on their usual and ordinary work in connection with divine worship, just as it permits a doctor to minister to the sick for the same reason of necessity and mercy. It does not forbid amusement on Sunday, only requiring that you shall not pay some one else to amuse you, as that some one else has an equal right to the day off as yourself. The commercializing of Sunday is the bulls-eye it aims at. The Lord's Day Act is as far as possible from being a "blue law," indeed Sunday would be blue enough for hundreds and thousands of people were it not for its provisions.

TO ASCERTAIN IF MEN WANTED HERE FIGHT EXTRADITION

Chief A. C. Minty, of the provincial police, has received instructions from W. G. McMillan, superintendent of provincial police at Victoria, to ascertain if E. Michelson, who is being held at Ketchikan on a charge of kidnapping, and A. Novantney, who has been located at Yakutat and wanted on a charge of robbery with violence on the high seas, will resist extradition. The information will be obtained through the United States marshal at Ketchikan before further action is taken.

RE SPECIAL TIMBER LICENSES

The attention of Timber License holders who are taking advantage of the provisions of the 1921 Amendment to the FOREST ACT, whereby arrears of license fees accrued prior to 31st December, 1920, have been funded and made payable in annual instalments, is specially directed to the fact that any renewal fee which became due in 1921 is not included in the instalments above mentioned, and such 1921 and all subsequent renewal fees must be paid within one year after the date of expiry of the license in order to maintain the right of the holder to obtain a renewal of the license.

ONE THING WE DO NOT DO

"Ah! clares to goodness, ah just rubs the daylight out ob dem tings, an' still do 're not clean," says the colored laundress. We've discovered a better way of cleansing—a gentle certain way that produces aseptic cleanliness without wearing or weakening the fabric.

How is this formula for the washing of your colored clothing?

First bath, warm water, run 5 minutes.
Second bath, warm water 120f. Soap, run 15 minutes.
Third bath, Repeat second bath, run 15 minutes.
Fourth bath, warm water, 4 oz. soda, run 10 minutes.
Fifth bath, warm water rinse, run 5 minutes.
Sixth bath, warm water rinse, run 5 minutes.
Seventh bath, warm water 4 oz. acetic acid, run 5 minutes.
Eighth bath, cold water rinse and blue, run 5 minutes.
Total time, 65 minutes.
