UNEMPLOYED ASK BIG WAGE

Seven to Eight Dollars a Day is Lowest for Which Men Will Work for Farmers.

WINNIPEG, Oct. 11.—Refusal of unemployed to accept farm work unless at exorbitant wages threatens gravely the harvest situation throughout northwest-ern Manitoba, Hon. Neil Cameron minister of agriculture declared. "The situation, to say the least, is very acute," Mr. Cameron declared. He did not think any crops actually had been spoiled as yet, but grain was standing out in the field and un-stocked, and horses were idle for want of men to do the ploughing.

Mr. Cameron said farmers were perturbed to see so many men passing on trains and refusing to go into the harvest fields at less than \$7 to \$8 a day. Eastern labor was not satisfactory and the only remedy he could see was for those farmers who could afford to do so to build additional houses on their land to accommodate laborers and their families and to find work for the men through the winter.

Price Ridiculous
He declared the price being asked by some of the men was ridiculous. Around Minnedosa and Basswood, where crops were later than nearer the city, they

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and reduced to 15 an acre, second-class to \$2.50 an acre.
Pre-emption now confined to surveyed lands only.
Records will be granted covering only land suitable for agricultural purposes and which is non-timber land 5 acres.
Partnership pre-emptions abolished, but parties of not more than four may arrange for an adjacent lot to be added with joint residence, but each making necessary improvements on respective claims.
Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 1/2 acre before receiving Crown Grant.
Where pre-emptor in occupation in less than 5 years, he may be granted intermediate certificate of improvement and transfer his claim.
Records without permanent residence may be issued, but applicant must make improvements to extent of \$50 per annum and records same each year. Failure to make improvements will result in forfeiture of claim. Title cannot be obtained in less than 5 years, and improvement of at least 1/2 acre, including cleared and cultivated, and residence of at least 2 years are required.
Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.
Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads. Title to be obtained after fulfilling residential and improvement conditions.
For grazing and industrial purposes areas exceeding 500 acres may be leased by one person or company.
Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased on conditions including payment of stampage.
Natural hay meadows, inaccessible by existing roads, may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.
PRE-EMPTORS' FREE GRANTS ACT.
The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for his pre-emption is extended from one year from the death of such person, as formerly, until one year after the termination of the great war. This privilege is also made retroactive.
No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.
Provision for return of moneys accrued, due and been paid since August 1, 1914, on account of payments, "cess" taxes on soldiers' pre-emptions.
Interest on agreements to purchase town or city lots held by members of Allied Forces, deposited or acquired direct or indirect, remitted from enrollment to March 31, 1920.
SUB-PURCHASERS OF CROWN LANDS
Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING
Grazing Act 1918, for systematic development of livestock industry provide for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to 10 head.

AMERICANS DO NOT COME TO CANADA FOR CHANCE OF A DRINK
Says the Financial Post: In calling attention to the large number of American tourists entering Canada by motor car—over 617,000 cars crossed the border in the last calendar year, compared with only 93,000 in the previous year—the Wall Street Journal refers to "invigorating refreshments" as the magnet drawing visitors to this country. The Wall Street Journal, which leaves the impression that American tourists coming to Canada are all "boozers" might be surprised to know that of the 617,000 motors crossing the border over 537,000 registered in Ontario which has prohibition as compared with about 43,000 in the Province of Quebec and about 26,000 in British Colum-

were cut but not stocked, and there seemed to be no place where men could be obtained. Another distressing feature of this labor problem was so many horses were idle owing to the scarcity of men. Ploughing should be proceeding now, but in many places teams were idle and machinery was standing because it could not be moved. Farmers also were being faced with the difficulty of completing gangs where one or two had dropped out, as harvest hands sometimes would not go to the fields except in groups to thresh.

MOTORLESS FLYING GREAT CAPABILITIES

LONDON, Oct. 11.—London is much interested in sail planing today following various recent experimental flights in Europe. M. R. Quinton, vice-president of the French Ligue Aeronautique, is bold enough to describe certain practical uses of the art which he expects to see before long. He thinks that motorless flying should become rapidly practicable in tropical countries and in mountainous regions. His argument is based frankly on the observed "sailplaning" methods of vultures in such countries as Egypt and Morocco and of eagles in Switzerland.

The higher question of practicability, according to M. Quinton, depends on the prevalence of ascending air currents, and these are common in hot climates and among mountains. In flat lands of the tropics hot air rises in columns from the earth, and it has been shown that vultures use these ascending currents upwards in one column as long as it is serviceable, and then pass on to another. In mountains the upward air movement is due to an other cause. There the current tends to follow the configuration of the land. The problem is how to make use of these natural currents.

What birds can do in the way of "sail planing" man can do. M. Quinton says that in Egypt he has himself seen the eagle rise 1,968 feet in forty-five seconds. Vultures and eagles in such countries float for a whole day, travelling three hundred to five hundred miles at twenty-five to thirty miles an hour. They cross Egypt without a single beat of wing. There is no secret about their general mechanism. It is genuine "sailplaning."

Giders are being used a great deal in France and Germany and many experiments are being tried. Fokker, the famous airman, made a wonderful flight in Germany with a passenger. The glider ascended from the Wasserkuppe to a considerable height with great ease, although the wind was not strong, and it was evident that the pilot was complete master of his craft. He made a number of sharp curves, and spectators declare that the behaviour of the glider differed by absolutely nothing from that of an aeroplane driven by a motor.

bia, the wet provinces. American tourists come to Canada because of this country's attractive natural resorts, which are being made more readily accessible as the result of the building of better roads. Good roads are proving a good investment for all the provinces. The figures fail to give any indication that it is a beckoning Baebus enticing tourists over the border or that our visitors come up with the sole idea of indulging in the cup that cheers.

GROCCER FIRES CANS AT HEADS OF ROBBERS AND DRIVES THEM OFF

CALGARY, Oct. 11.—A volley of tinned tomatoes and soup cubes, fired by Fred Langston, a well-known local grocer, routed two masked and armed hold-up men who attempted to rob him in his store, 535 Third Avenue west. As Langston heaved the tins, one of the robbers opened fire with a revolver. The bullets whistled dangerously near Langston's head, but he gamely reached for another tin, and as it struck the wall it burst the ripe fruit descending in a shower over the robbers.

A bottle of soup cubes almost knocked one of the gunmen off his feet, and then the grocer reached for a cheese. This was too much for the gunmen, who lowered their guns and fled.

Their flight was hastened by screams of Mrs. Olive Lennox, a customer, who dropped to the floor, screaming that she had been shot—when a soup cube struck her in the leg.

TIMBER SALE X 4362.
Sealed Tenders will be received by the Minister of Lands at Victoria, not later than noon on the 13th day of October, 1922, for the purchase of Licence X 4362, to cut 1,213,000 feet of Fir and spruce, and 63,400 Fir, Pine and Spruce Ties, situate on an area between Mile Posts 9 and 10, south shore of Francois Lake, Range 5, Coast Land District.
