DAILY EDITION Tuesday, April 25, 1922.

Permanent Industries Are Needed Here.
 The announcement made by G. G. Bushby of Victoria that the fish by-products plant at Tucks Inlet is to be put in operation again in the very near future is a gratifying bit of news, for it will add another industry of a permanent nature to the city. The time has come when Prince Rupert must look to such industries as these for its prosperity, and no matter how small they may be they will add to the quota which helps support a city. Business of a permanent nature is what we must have now.

Bengough Entertainer Of High Order.
 It is not often that Prince Rupert audiences are afforded the opportunity of enjoying such a delightful combination of skilful and relaxing talent as that provided at the entertainments given by the famous caricaturist, J. W. Bengough. Mr. Bengough really delighted a full audience at the Empress Theatre last night and will probably be greeted with another tonight. He has been giving such entertainments as these for two-score years now, but his style is still as pleasing and refreshing as it ever could have been.

Tourist Trade and What It Means.
 Now that the tourist season is to open in a very short time and indications are that Prince Rupert will enjoy more of this business this year than ever before, it may be appropriate to consider just how we benefit through it. The benefits are threefold: First, from the ready cash the tourists leave with us; second, the advertising value they give us after they return home; third, a very large per cent. of them are prospective residents or investors. To a very large extent it depends upon ourselves as to just how much of this value is coming to us. It depends on the way we receive our visitors and treat them while they are among us. The Pacific Northwest Tourist Association is considering the question of adopting a universal policy throughout the Pacific Northwest of taking care of these people and giving them such information as will enable them to thoroughly enjoy their trips and become familiar with scenic attractions and natural resources. It is also the policy of the association that for all time there shall be no more jealousy, if there is any, and no selfishness displayed on the part of any community, but all shall be as a general unit in welcoming visitors. All progressive communities in the Northwest may cooperate with the Pacific Northwest Tourist Association in the work. Already several cities in the south, such as Victoria, Vancouver, New Westminster, Nelson, Kelowna and Kamloops, are identified with the organization.

ACTIVE PROPAGANDA OF BOLSHEVISTS IN ORIENTAL COUNTRIES

ANGORA, Turkey, April 25.—Active propaganda is being carried on here at the seat of the Kemal Pasha Nationalist Government by a Bolshevik trade delegation under Professor Goldan of Moscow University. The Soviet aims were explained at a dinner to Kemal press representatives, when the Russian spokesman said: "We mean to work hard to bring about the recovery of Oriental peoples. They must free themselves from the grip of western influence. Turkey has given a brilliant example, and this will be followed by other Asiatic nations. We intend to open libraries, economic institutes, theatres and railways throughout the country." It was further announced that a Russian commission would

shortly arrive in Anatolia to study the resources of the country. A Russian orchestra is giving a series of propaganda concerts in aid of the Russian famine.

FISH ARRIVALS

Five carloads of fish were sold at the Fish Exchange today. The arrivals were:
 Bartoloma, 5000 pounds; Joe Hanna, 11,000 pounds, and Laura 7000 pounds, sold to Booth Fish-erie, Canadian Co. at 10.9c and 4c.
 Vivian, 3000 pounds; Carolan, 15,000 pounds and Agusta 6000 pounds, sold to Atlin Fisheries 11.1c and 4c.
 Chancellor, 5000 pounds, White Lilly, 6000 pounds and Thelma, 11,500 pounds, sold to Canadian Fish and Cold Storage Co., at 11.7c and 4 1/2c.
 Atlas, 25,000 pounds, sold to Pacific Fisheries at 9.6c and 3c.
 Vesta, 2800 pounds and Groth, 5000 pounds sold to Canadian Fish and Cold Storage at 9.5c and 4c.

THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-tives" the Fruit Medicine
 Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.
 Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Palpitation of the Heart, Sleeplessness and excessive Nervousness. "Fruit-a-tives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct Constipation, which usually accompanies Indigestion.
 50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa

Ten Years Ago in Prince Rupert
 April 25, 1912.
 T. C. Baker, who is a well known Yukoner, has been staying a day or two in Rupert, on his way to Stewart. Mr. Baker has just returned from the Old Country, where he has been interesting capital in B. C. enterprises. He is particularly well acquainted with the Naas country and the Ground Hog district, both of which are surpassingly good he is convinced.

At St. Andrew's cathedral, Victoria, on April 18th, Miss Anna Maie Calkins became the wife of William Harold Scott. The young couple will be at home after June 1, at 219 Linden Avenue, Victoria. Miss Calkins and Mr. Scott, both well known in Prince Rupert, where they formerly resided. Mr. Scott was connected with H. S. Wallace & Co.

FORMER CATCHER OF ST. LOUIS IS NOW POLICE CHIEF
 WICHITA FALLS, Tex., Apr. 25.—L. W. McCormick, catcher with the St. Louis Nationals in 1913, was elected chief of police here on Monday night. As a Texas Ranger he has been on duty in and about Wichita Falls for three years.

TWO PLATOON IS UP AGAIN

Council Meeting Discussed It Last Night But No Results Obtained.
 At last night's council meeting a report from the Utilities Committee regarding the two platoon system in the local fire department was discussed at length.
 Ald. Perry said that he did not think it was necessary to read all the correspondence on the subject which had been brought before the council before. The last letter from the Board of Fire Underwriters had stated that it would be necessary to put three extra men on in the fire department if the two platoon system were adopted. It had then been decided to ascertain from the fire underwriters whether the double platoon system could possibly be put in force with the addition of only two men without increasing the rate of insurance. The reply was that while that might be satisfactory the standard of efficiency as applied to different cities would practically be the same as the present system. The cost of maintaining two extra men in the department had been gone into and it was shown that the extra salaries for one year would amount to \$3432.00, plus extra uniforms, boots, beds, etc. It was a question, in his mind, as to whether the city could stand this extra outlay in view of the expenses that had to be met at the present time. He was certainly in favor of the double platoon system in principle but the cost was a matter for the council to discuss.

No Money For It.
 Ald. Dybbhavn said this matter had been before the council several times before and it was a fact that the money was not available to provide for the extra men and equipment. The adoption of the two platoon system would amount to more than an extra half mill on the taxes.

Ald. McLeod thought that a financial point should be stretched, and that it was a system that was badly needed. He said that the men working in the fire hall at the present time were little more than slaves. They had no time to themselves and he could not see why they should not be able to get what was coming to them.

He thought the city was in duty bound to give their employees a show.
 Mayor Rochester read the hours of duty existing in the fire department which worked out at two nights per week at home.

Ald. McLeod suggested taking two policemen off the present police force and adding two firemen to the fire department.
 Ald. Silversides stated that in other cities they had gained financially by the adoption of the two platoon system, and the reason that information was obtained was to find out if in adopting the two platoon system here the city would gain in reduced insurance rates.

Nothing to Be Gained.
 Mayor Rochester said that if two extra men were put in the firehall it would mean no reduction in the fire insurance rate from the fire underwriters. If by putting on two extra men they could obtain a reduction in the fire insurance rate there would be something to justify the procedure in the eyes of the rate-payers. The matter had simply resolved itself down to the expenditure of some \$3500 and still getting the same results.

Ald. Kerr said he understood the fire underwriters were contemplating giving the City of Prince Rupert a new fire insurance rating.

Ald. Montgomery tried to show that the chairman of the Finance Committee could finance the two platoon system from the revenue of the Utilities department without increasing the mill rate, and thought that if the council wished to do it they could find ways and means of doing it.

Ald. Perry in answering Ald. Montgomery explained that while asking for a reduction of light rates he was suggesting expenditure in another direction, and that one could not have the bun and the halpenny at the same time. He said that the finance and the public utilities committees were about to meet together to go into the question of finances of the public utilities

department, and that if after going into the question with the joint committees it was shown a sufficient surplus was forthcoming to take care of additional expenses in the fire department, at the same time leaving a reasonable surplus for improvement and extensions, he would be in favor of adopting the two platoon system. He then moved that the correspondence on this matter be laid upon the table pending the meeting of the finance and utilities committees; and that leave be granted for the committee as then constituted to sit again. This motion was seconded by Ald. Montgomery, and upon being put to the vote was passed.

ETERNAL PROBLEM!
 "Can you tell me how to manage a wife?" asked the prospective bridegroom of the old man who had just celebrated his golden wedding anniversary.
 "Young man," replied the old man, "when you can tell me how to manage a neighborhood or to harness a cyclone I will be glad to give you the information you ask."

ECZEMA ON FACE AND HANDS for Five Years

Advertisement in the Daily News.
 Eczema or salt rheum, as it is so often called, manifests itself in little round pimples which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed and the intense burning, itching and smarting, especially at night or when the part is exposed to a strong heat, is almost unbearable and relief is gladly welcomed.
 There is only one way to get relief and no remedy like
BURDOCK BLOOD BITTERS
 Take it internally and it gets at the seat of the disease in the blood and drives it out of the system.
 Apply it externally and it takes out the itching, stinging and burning, and promotes healthy healing.
 Mr. J. Sage, 215 Princess Ave., Vancouver, B. C., writes:—"Having suffered with eczema on the face and head for the last five years, I consulted several doctors, and tried various kinds of salves and lotions, but I derived no benefit from any of them. I did not know what to do until a friend advised me to try Burdock Blood Bitters, and after I had used two bottles I began to get better and now after taking eight bottles I have not even a blotch on me. I feel that I cannot praise B. B. B. too highly. I hope you will make full use of this recommendation for the benefit of those who are suffering from this terrible complaint, eczema."
