

WINTER ECZEMA 'CHAPS' & COLD-SORES

KEEN wintry weather brings a host of skin troubles. Cold-sores, chapped hands, unsightly face-sores and blotches, become a source of discomfort and annoyance. To end the trouble and make your skin clear, healthy and flexible, give the face, arms and hands, a nightly dressing with pure ZAM-BUK.

Zam-Buk instantly soothes the smarting irritation, kills disease germs, and quickly heals all soreness, roughness and chapping which, neglected, often develops into eczema or other chronic skin disease. Use also Zam-Buk Medicinal Soap and enjoy real skin health.

This was an obstinate case.

Mrs. Henry Amey, 42, Lyall Avenue, Toronto, says: "My daughter's face and neck were a mass of eczema. Her doctor prescribed treatment for over two months, but to little avail. I was about to call in a skin specialist when I heard of Zam-Buk treatment rescuing other sufferers from this dread disease. So I got a box of Zam-Buk and a tablet of Zam-Buk Medicinal Soap. In a few days this wrought a decided improvement. Day by day the sores gradually healed, and within a month my daughter's skin was thoroughly cleared of the terrible disease."

THIS SAMPLE BOXES of this great skin remedy! Send 1c stamp for return postage, give name and date of paper, and address Zam-Buk Co., 2001 St. Lawrence, 15c. Box, all dealers.

Cooperation of the City of Prince Rupert.

SMITH ISLAND QUARRY.

The Corporation of the City of Prince Rupert is desirous of receiving tenders for the removal of certain debris, and the removal of approximately 3000 cubic feet of rock, on certain property owned by the said city, on Smith Island. Form of tender may be obtained, and plans, specifications and conditions of contract may be applied to the City Engineer, who is in Prince Rupert, on and after the 21st instant. Sealed tenders to be in the hands of the City Clerk on or before the hour of five o'clock on the 23rd instant. The city does not bind themselves to accept the lowest or any tender.

F. J. WHITFIELD, A.M.E.I.C.E.,
City Engineer.

OPENING UP OF SEVENTH STREET

Council Took Matter Up Last Night; Tabled for a Week.

A resolution, moved by Ald. Kerr and seconded by Ald. Montgomery that the city's delegate to Ottawa with the Board of Trade party take up with the railway authorities the matter of having Seventh Street opened up to give access to the waterfront, was tabled for a week by the city council last night after a lengthy discussion had been given to it.

Ald. Kerr stated that an overhead had been provided for in the original city plans. There was some discussion as to whether these plans really did provide for such an opening and it was finally ascertained that they did not provide for an overhead but for a skirting approach which linked up with Second Street.

In view of the fact that the ocean dock was being built, Ald. Kerr urged that the matter of opening up Seventh Street be pressed anyway.

Ald. Silversides was not in favor of asking that any particular street be opened up when it was not specifically provided for in the original plans. It was not the duty of the council to serve any street but the district as a whole.

Ald. Montgomery felt that it would be in the interests of economy to have this street opened up. The present Second Avenue approach was very indirect.

Thinks Not Feasible.

Mayor Rochester was of the opinion that the Seventh Street approach would not be feasible anyway on account of the steep grade. City Engineer Whitaker concurred in this opinion.

Finally, on suggestion of Ald. Perry and Ald. Dybbavn, it was decided to leave the matter over until after tonight's meeting in the Central Hotel and Hon. A. M. Manson, the city's delegate to Ottawa, will be advised by wire as to the decision.

"RINSIN"

"Lan' sakes, nothin' to that. I jes' jounces 'em up and down a couple of times, that's my method"—a colored washer-woman told us recently. Power laundry procedure is somewhat different to the above method.

We propose to set down from time to time, the fourteen different formulas recommended by the Mellon Institute, and the material used. Just think of it! Your washing classified into fourteen different lots, each lot receiving different treatment. The materials recommended: Neutral soap and soda in proper proportions, Javelle water, and other harmless sour, bluing, and last but not least—oceans of pure soft water.

Our "rinsin," unlike mammy's, requires over three hundred gallons for each washing.

This service is at your disposal.

HEADS That Ache and Pain

It is hard to drag along with a head that aches and pains all the time. In nine cases out of ten, persistent headaches are due to poisoned blood, the blood being rendered impure through some derangement of the stomach, liver or bowels, but no matter which organ is to blame the cause must be removed before permanent relief can be obtained.

BURDOCK BLOOD BITTERS which has been on the market for the past forty-five years, removes the cause of the headache by starting the organs of elimination acting freely, and when the impurities are carried off from the system, purified blood circulates in the brain cells, and the aches and pains vanish.

Miss Clara Murphy, Centre Dummer, Ont., writes:—"My system was greatly run down and my blood out of order. I suffered a great deal from severe pains in my head which made me feel very miserable. After having tried other remedies I purchased a bottle of Burdock Blood Bitters, and was very glad to notice a decided improvement in my health. I took another bottle and it has done me an enormous amount of good. I have recommended it to some of my friends who were in a similar condition and they all say it is a wonderful remedy."

PROGRESSIVES IN ONTARIO TO BE UNDER FIRE

Session of Ontario Legislature Likely to Give New Party Plenty of Trouble.

HORSE RACING AND LIQUOR.

TORONTO, Feb. 7.—(Canadian Press).—The third session of the 15th legislature of the province of Ontario opens on February 14 and the political prophets are generally predicting a fighting time. It is argued, particularly by those who do not see eye to eye with the present government that the opposition in the past two sessions held back from any very vigorous criticism of Premier Drury and his cabinet in order to give the farmer-labor regime a fair opportunity to make good, but that now it has had its chance and this session the administration will be attacked by both the Liberals and Conservatives with all the forces they are able to command. The government supporters claim not to be worried over this show of fighting qualities by their opponents and are prone to assert that the opposition of those ancient enemies, Liberals and Conservatives, will not be able to even shake the government's hold on the affairs of the province.

Queer Combination.

However, students of provincial politics do not look for any amalgamation between the forces in opposition that would be sufficient to overthrow the government, for it must be remembered that if the M. L. A. not formally in the Farmer-Labor ranks, were to join against any government measure, the Drury administration would be outvoted. One of the arguments advanced against such a situation arising is that of political expediency, namely that the Liberals in Toronto would be loath to join with the Conservatives to overthrow the Farmers' except in the most extreme circumstances, in view of the fact that the Liberal Government in Ottawa is relying on the Progressive Party's support in federal politics. Then there is the claim that the Liberal members of the legislature as a rule view the course of the Drury government with no little favor when all its efforts are considered.

While the government is expected to weather any attacks which will be levelled against it, political writers anticipate heated debates and a fairly lengthy session.

The most important debate will no doubt centre around the hydro-rail and hydro-power matters, particularly the former. Premier Drury will probably definitely state the policy of his government early in the session as regards not only the hydro-rail but the Hydro-Electric Commission as well. While the details are not yet known, announcements of the premier that the government is for conservatism in committing the province in radial building until it is shown that the Chippawa Canal undertaking has been a financial success, has brought out the strongest condemnation by supporters of active hydro-radial development. The opposition, especially the Conservatives, claim they will launch the big drive of the session on this issue standing for a vigorous policy in building electric railways.

Timber and Roads.

There will be the question of disposal of timber lands. The government claims to have saved the province well over a million dollars by making the leaseholders on limits pay up money that the former Conservative government had made no effort to collect. The Conservative opposition will claim that while the present government has made holders of leases obtained under the Hearst regime pay to the last penny, it has itself sold leases on terms unfavorable to the province.

There seems destined to be a long debate over the good roads records of the government and several members have promised to give Hon. F. C. Biggs a busy time defending the administration of his department, although the minister seems quite confident of doing so to the satisfaction of the public.

Of course no session of the legislature would be complete without a debate on the temperance question and there is no
