Will Back Manson
On Liquor Question.

The people of the province will back Attorney-General Manson in his efforts to reduce the amount of bootlegging to a minimum. The minister is taking a personal interest in this matter and is getting at the very root of the trouble. Had the prohibition act been similarly enforced there would have been little agitation against it. What the people object to is a law that is not enforced.

Boys Gave Great
Display Last Night.

There was great interest taken in the display put on by the boys of the Naval Brigade and the Scouts last night under the general superintendent of the Rotary Club. It was an event that impressed those present and showed what could be done by organization and determined effort. The drills and other work were excellent.

While the drills reminded one somewhat of military drills, there was nothing smacking of militarism about the work done by the boys. Drills are an education in themselves. United collective effort and team work are taught in most of the games and the making of a scout was an interesting and impressive little ceremony.

We are informed that other boys in the city would join similar organizations if there were instructors. The chief difficulty in this sort of things is to get competent instructors. The boys are always ready.

Municipalities Again
After Money.

The representatives of the municipalities in session at Victoria express themselves as anxious to get a share of the provincial income tax. Instead of keeping down expenditures the municipalities want more money to spend.

As we see it, some of the municipalities already have too much money to spend, judging by the manner in which they spend it. Money is the last thing considered in some of the work carried on. Instead of keeping expenditures within the income, as private concerns have to do, and giving as much value as possible for the expenditures, wasteful and unwise expenditures are common and, when the money is gone, the representatives of the municipalities ask for more. If the income tax is transferred to the municipalities, then the provincial governments will be increasing the taxes along some other lines to make up for the shortage. What is needed is not the raising of more taxes but the cutting down of expenditures wherever possible so that the people may in every case get value for the money expended.

City governments are like people, they can spend unlimited sums if they only have it available, and they always prefer to increase the income rather than reduce the expenditures.

Ketchikan Exporting
Lumber To Australia.

A report received from Ketchikan is that an order has been received for two million feet of lumber to be delivered in Australia.

We are always glad to hear of Ketchikan's success. We hope they will sell ten million feet to the same people, but we mention this order just to draw attention to the fallacy of some of the statements that have been made in regard to the difficulties of doing business in the north. If Ketchikan is able to compete in the lumber business, why cannot Prince Rupert do the same. The Australian market is open to us just as it is to them. We have just as good timber as they have on the other side of the line. Or is it that the Canadian people are less capable of doing business than the Americans? Here is a British market open and it is being supplied from a country which is not British.

Are We Still
On Branch Line?

The attention of the Daily News has been drawn to a blotter advertising the Continental Limited, the train running between Montreal and Vancouver. Prince Rupert is shown on the map but the train is shown turned in the direction of Vancouver. The implication is that the Prince Rupert section is still treated as a branch line. This should not be.

REGIMENT TO
BE RECRUITEDMajor Nicholls and Major Mc-
Gregor, V.C., are Getting Up
CompaniesSHOOTING ON RANGE
IS MAIN ACTIVITY

Col. J. H. McMullen, officer commanding of the newly established Northern B. C. Regiment, announces that two companies are now being recruited in the city by Major J. W. Nicholls and Major John McGregor, V.C. The initial activities of the regiment for this season will be mainly rifle range shooting and it is hoped in this way to create interest and gradually build up the membership. The platforms and target at the McNicholl Creek range have been renewed and are in good shape again and shoots will be held during the season. Full equipment for the regiment is now stored at Major George E. Gibson's office on Second Ave.

LARGE NUMBER OF

X-RAYS HELP
THE DENTISTModern Methods of Dental Service
Require Knowledge Afforded by X-Rays.

It is impossible to determine certain conditions of the teeth by the usual method of examination, that is by the eye only. Conditions often exist under the gums and implicate the bones which cannot be recognized without the aid of our most modern instruments, such as the X-Ray. Dentists who attempt certain classes of work without their aid are not giving you modern service, and are simply working as it were, in the dark.

Hundreds of dollars are spent by some patients on dentistry who find after a very short time that it is all condemned and is removed.

Before having any work attempted have your teeth X-Ray so that your dentist may proceed in an intelligent and scientific manner. Your dentist will appreciate this.

Remember blind dentistry is not modern dentistry.

Samples of a native deposit of paraffin wax which was recently discovered at Ofard Bay, Graham Island, are being exhibited in the city today. A small flow of oil was also recently opened on the same property.

Rev. F. W. Kerr left on the Prince Rupert this morning to spend six week's holiday in Chicago, Toronto and other Eastern points. It is said that he will not return alone.

A FLIGHTY girl who goes out with all sorts of men is very foolish but nothing like as foolish as a man who goes out with a flighty girl.

MY idea of a really lazy man is one who longs for his hair to come out so he can wash his head instead of combing it every day.

THE value of the advice you give depends very largely on the success you have made of your own work. If you are a failure, keep quiet.
