

DAUGHTERS OF EMPIRE GIFT FOR LADY BYNG

Roses Grown in Prince Rupert
Will Be Presented in Basket
Woven by Native Women.

The Daughters of the Empire of Prince Rupert will present to Lady Byng this afternoon a bouquet of Prince Rupert grown roses in a basket woven by the native women of Metlakatla.

The following text has been printed by H. O. Crewe in Old English on the accompanying address:

"The Imperial Order, Daughters of the Empire, of Prince Rupert, presents greetings and loyalty to Her Excellency, the Lady Byng of Vimy, our Honorary President.

"These roses which we ask you to accept were grown in our own gardens. The basket which contains them was woven by the Metlakatla Indians of this district.

RAINS KILL BIRDS

BOSTON, Aug. 17.—(By Canadian Press).—The long and heavy rains in New England this year have resulted in great loss of bird life, according to State Ornithologist Edward H. Forbush. He says that in places in Maine at least two wheelbarrow loads of dead chimney swallows have been taken from single long chimneys.

This is due to rains which drove to the ground the insects on which these birds feed, causing the birds to starve to death. These birds catch their prey on the wing and cannot subsist otherwise.

Most of the loss of life was among the birds which nest on the ground or make their nests in low bushes or on the banks of streams. Either the nests have been washed away by the torrents and floods or the young birds have been drowned in their nests.

In Eastern Maine, Massachusetts, Rhode Island and Connecticut there has been great destruction of red winged blackbirds, wrens, swamp sparrow and song sparrows. Some birds which never raise more than one brood a year are already flocking for their return trip to the South, though this is usually early.

AIR RACE FOR CUP PRESENTED BY KING

Will Be Arranged For Early
Part of September and to
Occupy Two Days.

LONDON, Aug. 19.—There is to be a great air race for a cup presented by the King some time during the first fortnight in September.

The race will occupy two days, one for the outward half of the course, and one for the return. It will start and finish at Croyden and Glasgow will be its northernmost limit. Birmingham, Newcastle-on-Tyne, Manchester, and Bristol are among the cities that will be points on the route, and it is hoped that the civic authorities will do all that is possible to facilitate the arrangements for the race, which will be in the hands of the Royal Aero Club.

The plans for the race so far are not advanced but it is already settled that it shall be flown under a handicap, and that, in addition to the King's Cup, a trophy which many airmen have already declared it their ambition to win, there shall be certain subsidiary prizes. In the provision of these the promoters of the race have some expectation that the great industrial and commercial centres over which the racing aircraft will pass in the contest, will take some part. The need for the encouragement of aviation is acute, and the race will provide an opportunity for the public who are coming more and more to realize their dependence at a time of national emergency on their airmen, to express their appreciation of them.

It is intended that only British airmen and machines shall compete. Any type of aeroplane will be eligible.

Witnesses of recent football games say that the brand of soccer being played now does not come up to the standard of that displayed earlier in the season. There has been a tendency for the game to slow up and the players have not been as enthusiastic as it seems. Even ardent supporters of winning teams have seemed to get little satisfaction out of winning. Perhaps the players have become cooled down on account of the many casualties which characterized the earlier stages of the season. In spite of all this, however, there seems to be a feeling that there are going to be some keen battles when the Gilbey Cup series comes on next week.

Most week-ends you can see American sides competing in an "International Baseball League" on the Chelsea football grounds, says the Manchester Guardian. After watching them the other day, writes a cricketer, I came away with on fears for my own summer game. There was some excellent throwing, and a certain number of reasonably good long-field catches, but what did impress me was the enormous amount of continuous chatter which was kept up by all the players. The man at first base never stopped his stream of vituperation and invective, addressed to the batsman and his colleagues waiting to bat. At length, as a counter-blast, the stoutest player on the rival side took his stand as near as possible and proceeded to reflect nasally, ancestry, and looks of the opposing pitcher. This was the duel, while the chorus, by no occasional, proceeded from most of the other fielders. The slow, continuous motion of gum-chewing jaws was another feature. Still everyone seemed happy, and most ejaculated "Atta boy!" at intervals.
