Red Mountain

The prompt recovery of Red Mountain shares from the low level of 45c to Monday's close of 59c has partially fulfilled the prediction we made in these columns.

We are advised by the Boundary Red Mountain management of a second bullion production record amounting to \$3985 in seven days. This was at the rate of \$565 per day and showed a material improvement over the preceding nine days when the daily gross output was \$493.

If you will contrast this output of gold with the present quoted value of Boundary Red Mountain shares you will understand our advice to enter your order at today's market.

Full particulars concerning the property furnished on request.

MEDICAL QUESTION AND LAW

Editor, Daily News:

The Medical Association is blamed for the position in which Chiropractors are placed by reason of an amendment to the Medical Act, in March 1921. The chiropractors applied for a bill to enable them to be examined before a board, composed of their own members. The medical men opposed this and a conflict ensued, which resulted in the amendment referred to requiring chiropractors and others to pass an examination satisfactory to the Medical Council before being permitted to practise in the province. This amendment virtually places the Medical Council in the position of a judge, to decide a dispute to which it is a party. The council's claim that it is a question of qualification is understood, as it happens to be a judge of these. Now, if this is a good law, the people, many of whom prate about their free institutions, should show their appreciation of it by congratulating not only the government but their representatives, so called for its passage.

At the same session an amendment to the Act was proposed requiring doctors, after diagnosing a case, to file a record of their findings, a feature of standardization exists in fact and not in name only. The first amendment aimed to give to the Medical Council (a body whose members are neither elected by the people nor appointed by the government, and in actual fact represent and are responsible to less than one per cent of the population) a virtual right to decide who should and should not treat the sick—it carried.

The proposed amendment was an attempt and would have had the effect of protecting the sick against the danger of wrong medical treatment being administered.

System Run Down Blood Out of Order

Many people become run down, but don't know just exactly what their trouble is, when, as a rule, it is improper circulation of the blood.

All they need is a good tonic to build up the system and put the blood into proper shape.

For this purpose there is nothing on the market today to equal

BURDOCK BLOOD BITTERS

It regulates the stomach, liver and bowels, purifies the blood and tones up the entire system.

Mrs. H. Poole, Port Dover, Ont., writes:—
 "My system was run down and my blood out of order, and I suffered a great deal from pains in my head which made me feel very miserable. A friend told me to try Burdock Blood Bitters, so I got a bottle and before it was used I found it was doing me good. I kept on until I had taken three, and now I feel like a different woman."

My husband also took it and it has built him up."

For the past 44 years B. B. B. has been manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

ed, which sometimes occurs, with serious results. It failed to carry, because the protectors of the privileged interests were then in force to prevent its passage.

"Beware of Greeks."

There is an old adage that reads: "Beware of the Greeks when they come bearing gifts," and apply applies to medical societies who like all seekers after special privileges, base their claims for legislation on the unwarranted assumption that their efforts are prompted solely by zeal for the public welfare. Unfortunately such canting hypocrisy is too often swallowed by the unsophisticated.

The Medical Association enjoys what is virtually a monopoly of the healing art, at the same time assumes the right to refuse medical aid when so inclined. This is a special brand of privilege, the nature of which requires the most vivid emphasis that can be given it. The Medical Act provides no protection for the public against the incompetent healer; as sufficient proof cannot be adduced to secure a conviction (although evidence for the defence is generally superfluous) and unfortunately can be hurried into eternity through his lack of judgment and caution, and there is absolutely no redress. Further, it would be interesting to have one single instance pointed out where during the past 25 years, a doctor in this province had suffered on account of tragedies enacted by reason of his incompetence. Such inequalities in the administration of justice (due to defective laws) constitute a scandal in public life and seriously reflect on the intelligence and ability of a people, to maintain the essentials for self-preservation.

Not Protection

The claim that because the medical man is certified is sufficient assurance of protection is fetism. While education has its advantages it is not the only requisite in connection with the successful treatment of the sick; nor is wisdom an attribute of the educated only, but is often lacking in educated persons. The misfit (always a menace to society) is ever ready to parade his educational attainments, as proofs of his intelligence and superiority; but when subjected to a properly applied test, is usually revealed as a false alarm. It is admitted that there are many members of the medical profession who are capable and cautious and are entitled to every consideration for the part they perform in relieving human misery. There are also many who claim and are not lacking in the experience that, in the treatment of diseases, chiropractors get results and with the sick it is results that count.

An oligarchy might be defined as an institution wherein the special interests secure representation and control, by their emissaries masquerading as members of political parties, and where vocational interests take precedence over all other considerations.

Benefit of Few

Legislation is largely a question of influence, the tendency of which is to penalize the whole people in order that the few, usually influential classes, may be benefited. There is, however, a remedy in sight. There is a movement in this country virtually extending from the Rocky Mountains to the Quebec boundary, the effects of which were felt in B.C. at the last provincial election.

DOMINION OF CANADA VICTORY LOAN BONDS

MATURING 1st DECEMBER, 1922.

THE BANK OF MONTREAL, under authority of the Minister of Finance, is prepared to redeem the above bonds in full at maturity, without charge, at any of its Branches in Canada.

For the convenience of owners of the bonds, the Bank of Montreal will accept the bonds at any time prior to December 1st, and will make payment in each case on December 1st, as the owner may desire, either by issuing a cheque or by placing the amount to the owner's credit in the books of the Bank.

tions, which had its inception as, and represents a direct pre-est against the ownership and control of governments and the dictation of laws by organized minorities.

Owing to prevailing conditions it behooves the plain citizen to clearly understand the necessity of the intelligent use of the ballot, and in this respect he can be pretty safely guided, by what his economic and social self-interests dictate.

D. J. SULLIVAN,
 Anyox.

TIMBER SALE X 4351.

Sealed Tenders will be received by the Minister of Lands at Victoria, not later than noon on the 22nd day of December, 1922, for the purchase of Licence X 4351, to cut 1,250,000 feet of Cedar, Spruce, Hemlock, and Balsam, on an area situated on North shore of Naysash Inlet, Range 2, Coast Land District.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C. or District Forester, Prince Rupert, B.C.
