Delegation to Ottawa.

Whatever may happen it is evident that the delegation from this city and district to Ottawa has been doing good missionary work. According to Olof Hansen they have haunted the offices of the ministers and deputy ministers and have tried their best to impress them with the desirability of carrying out the improvements asked. Every member of the delegation is a live wire and what one does not think of the other will. They commenced at the top by interviewing Hon. W. L. Mackenzie King and met each of the ministers personally. The only thing they have been turned down on, according to Mr. Hansen, is the commencing of construction this year on any new branch lines. This the Government is not prepared to consider. The new minister of railways has not yet had an opportunity to get in touch with the situation in each district in Canada and until he does he will not be in a position to recommend action to his colleagues.

Government Is Matter of Compromise.

As we have mentioned before, all democratic government is a matter of compromise. It is an attempt to harmonize conflicting interests. It is probable that every constituency along the line of the Canadian National Railways wants a branch line. We want several. The Government has to investigate all these proposals, sift the good from the bad, find out which are commercially sound and then, if it decides that one or two shall be built, the minister of finance has to decide if the money can be raised for the purpose.

What is true of branch lines of railway is true of every other branch of government service. Each community has its demands and requests. Each community has good claims for some improvements. The Government would probably like to give something to each community, but there is the financial situation always facing them. After the budget is made up it is found that there is only available one-fourth of the money required. Then the expenditures have to be trimmed to make them correspond to the amount of cash available.

Four-power Treaty Before U. S. Senate.

The four-power treaty is before the senate and every effort is being made by opponents of the same to secure its defeat. The old method of appealing to national prejudices is being adopted, but these appeals are having less effect today than in the past. Even senators are becoming enlightened. The probability is that they have all made up their minds long ago and will vote the way they intended.

Newspapers Win Against Paper Company.

During the time of rising prices toward the close of the war the paper companies of Canada were refusing to supply many of the newspapers of this country at the prices set by the board of commerce because they could get higher prices in the United States. The Government of that day made little attempt to back up the newspapers, but since then the newspapers have been taking the matter of overcharges to the courts, and a despatch published in The Daily News yesterday tells of the winning of a case by the Manitoba Free Press of Winnipeg and thirteen other prairie newspapers. The amount claimed was not stated, but the Fort Frances Paper Company, the worst offender at that time, has to repay the overcharges.

At the time when there was paper shortage the Fort Frances company refused to supply Canadian papers and some of them had to close down or pay the increased price demanded, contrary to the ruling of the board of commerce, which at that time controlled prices.

UNABLE TO WALK FOR A YEAR

Paralysis Entirely Relieved by "Fruit-a-lives"

The Wonderful Fruit Medicine

Paralysis is a break-down of the Nervous System and affects the victim in various ways. Sometimes, nervousness makes itself known by hysteria, insomnia, constant headaches, or it may be so bad that one is partially or completely helpless in some part of the body, just as Mrs. Hancock was.

SACILEE MARRIE, OXT.

"When I was twenty-eight years of age, my doctor advised me to have an operation, which I did and it proved very serious, leaving me weak and unable to walk for a year. Seeing your 'Fruit-a-lives' advertised in the paper, I decided to try them. I continued to use them regularly and today I am able to go about my home duties and care for my family."

MRS. J. W. HANCOCK.
Any form of Nervousness is often caused by, and is always aggravated by, constipation, which poisons the blood, irritates the kidneys and inflames the nerves. "Fruit-a-lives" stimulates the action of liver and bowels, kidneys and skin—tones and sweetens the stomach—keeps the blood pure, and builds up the entire nervous system.

In a word, "Fruit-a-lives" has proved that it is the most scientific and effective remedy in the world for Nervousness or a disordered condition of the nervous system.

Box a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

WHERE SPECIAL FISH TRAIN GOES ON WAY TO EASTERN MARKET

Canadian National Publication Tells How Prince Rupert Hall but Reaches New York for Christmas.

The monthly bulletin for March of the Passenger Traffic Department of the Canadian National Railways publishes a photograph of a fifteen car fish train which left from Prince Rupert with fish for Eastern delivery. The course of the train and the disposition of the cars is also explained.

The article says: "The original train on leaving Prince Rupert, comprised fifteen carloads, the cars being mainly steel passenger equipped refrigerators. It left Prince Rupert midnight, December 16, and arrived at Winnipeg on the evening of December 20. At that point, five cars were diverted for Chicago, via St. Paul.

The remaining ten cars left Winnipeg at 9 p.m. on the same day. One car was dropped at Fort Francis, to go to Chicago via Duluth, while the nine others were handled eastward. One of these was for Toronto, two for Boston, and six for New York. They arrived in Toronto 10:10 p.m. on December 22 and those designed for American points were handled out of that city at 11:10 the same morning, December 21.

"The train was handled through from Prince Rupert to destination in seven days, four hours and fifteen minutes. The quantity of fish carried was approximately 300,000 pounds. The photograph was taken when the train was at the 'National' Station, Port Arthur.

The Man in the Moon SAYS:-

EVEN moonshine must pay a tax to the Government according to the latest ruling.

THE story that appealed to many local people yesterday was that about the booze palace to be anchored in the open sea off New York with the ferry operating continuously back and forth.

IT would be difficult to get three miles outside territorial waters here because everything this side of Queen Charlottes is in Canada and northward is in Alaska.

THE police commissioners at Victoria are closing up the candy shops and at Vancouver they are stopping the sale of Sunday newspapers. It is a great advantage to live in Prince Rupert.

A FOND parent on being asked if he would like to have his baby put on the cradle roll of the church replied in the negative, stating that he was at present on a condensed milk formula and was getting along well.

YOU have heard of the doctor who explained to a patient that the soreness on the back of the neck was nothing but a little boil but he would be wise to keep his eye on it.

NOTICE.
An examination for Launch Engineers will be held at Vancouver, B. C., on March 14th and at Prince Rupert on March 25th. Successful applicants will be placed on the waiting list and offered vacancies as they occur, in order of merit.
Salary is \$20.00 per month, plus an allowance for meals when away from headquarters, rising to \$100.00 per month after one year's satisfactory service.
