Independence

Independence is not an indefinite something which just comes. It is a success quality which very very few—in fact only four men out of every hundred at 65, have attained.

A Manufacturers Life policy is not only a stepping stone to independence; it is the very foundation upon which it can be built. Systematically setting aside a part of your income year by year will bring you well-earned independence in later life. Should you not live to old age your life insurance will create a fund that will help to maintain your dependents.

Build NOW for independence. Send for information regarding our Double Maturity Endowment Policy.
