BRINGING UP FATHER

DELEGATION TO OTTAWA

Recommendations From Outside Points of District Incorporated in the Memorial.

At the meeting of the council of the Board of Trade yesterday afternoon it was decided to ask for a daily mail service from eastern points as well as the daily train.

Letters of endorsement of the requests of the local board which are to be carried to Ottawa by the local member and also by a delegation of the board, were received from Terrace, U.S., Port Clements, Stewart and Smithers, and several recommendations made by them were incorporated in the memorial to the government.

The finance committee will meet the committee of the city council in connection with the delegation on Saturday morning and will also meet the council on Monday evening.

The opinion was freely expressed that the delegation should leave almost immediately in order to get to the capital before the estimates for the year were made up.

A WINNIPEG paper says a stuttfereer always feels at home in a motor boat. What we would like to know is how in the h-h-hel-ter-skelter life of the prairie capital they ever got time to come to the coast to ride in a motor boat.

THE COST of living went 35% upward last month, according to one authority. The same authority mentions that his salary was increased from \$200 to \$250 at the same time.

THE COUGH with that Ticklish Sensation

A little tickling in the throat; now and then a dry, hacking cough; you think it is not bad enough to bother about, but every back makes a breach in the system, strains the lungs and prepares the way for more serious trouble.

How many people have lost a good night's rest by that nasty, tickling, irritating sensation in the throat? The dry, harsh cough keeps you awake, and when you get up in the morning you feel as if you had had no rest at all.

DR. WOOD'S NORWAY PINE SYRUP
is just the remedy you require to stop that irritating, tickling cough on account of its soothing, healing and expectorant properties.

Mrs. P. Johnson, Port Alberni, B. C., writes: "I have suffered for years, on and on, with a tickling cough. I could not sleep nights and had to sit up in bed to get relief. In fact, I coughed so I used to vomit. I tried different doctors' prescriptions until I heard of Dr. Wood's Norway Pine Syrup. I tried it and found great relief after I had taken the first bottle and have not been troubled since. I shall always keep it in the house."

Be sure and get "Dr. Wood's" when you ask for it. Price, 25c and 60c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

OFFER DEMPSEY \$300,000 FOR A RETURN BOUT

London Sportsmen Want Dempsey-Carpentier Bout in London Next Summer.

NEW YORK, Jan. 27.—Jack Kearns says a syndicate of London sportsmen have offered Dempsey a purse equal to that of Jersey City for the return match with Carpentier. The sum suggested is \$300,000, the fight to take place in London in July next.

No decision as to the offer has yet been reached.

LOS ANGELES, Jan. 27.—"Anything Kearns says goes," said Dempsey regarding the press reports of a proposed meeting with Carpentier in London. He said he would be only too glad to meet the Frenchman for a second match.

Sport Chat
William Brown, president of the St. Andrew's Society, George Johnstone, president of the Sons of Canada, and Frank Salter, president of the Sons of England, touched on sport matters in their speeches at the Burns banquet on Wednesday. All three concurred in the opinion that it was sport, and especially football, that had in the past kept up the binding ties that exist between the three national societies. They were quite correct when they said that the friendly competition in the games of late years had fostered a sense of fraternity among the societies. It is to be hoped that the good feelings between them will continue to grow and that the keen competitions which will likely take place in the future, like in the past, will only tend to cement the amicable relations which should exist between the organizations representing the different nations of the British Empire.

Mr. Johnstone observed that the Sons of Canada had last year relegated to the cellar position the Gallies who, in the early days, had practically taught the Sons the soccer game. All will join in giving the Scots credit for having established the national games in this city with such success but a word might also be put in for the Sons of England who were not much behind them and afforded them their first competitions in Prince Rupert. Mr. Brown said it was true that the Scots had been beaten but it was also true that they had been beaten before and had come back. The soccer season may be quite a long way off yet but everyone hopes, just the same, that when the season of 1922 starts the Gallies will have a formidable aggregation which shall make the champion Sons look to their laurels. The same may also be hoped for all the other clubs which participate in the sport so that a record season of interest and close play may result.

BILLIARD LEAGUE.
In the fifth game of the tournament between the Sons of England and the Great War Veterans in the Trail Club shield competition, J. May (Veterans) was successful over S. King, (Sons)—by a score of 200 to 186. The match so far stands—Great War Veterans, 938; Sons of England, 843.

BIG IDEA IS TO GET BOUT

So Says Jack Kearns, Manager Dempsey—Jack Is Anxious to Defend Title.

NEW YORK, Jan. 27.—Jack Dempsey, world's heavyweight boxing champion, is anxious to defend his title against any recognized rival and is not particular as to where the scene of battle may be, according to Jack Kearns, his manager. "The big idea," says Kearns, "is to get a bout. Harry Wills, Bill Brennan, Bob Roper and Tommy Gibbons or any that seek it can have a go at Jack."

A match with Wills is most talked of but promoters do not seem to be interested in it.

WHAT'S IN A NAME?

In this case, it means that we are unusually qualified to take care of the linen entrusted to us for laundering.

Being a member of the Launderers' National Association, and having at our disposal the expert advice of the Mellon Institute of Industrial Research, Pittsburgh, Pa., we make the claim with the full knowledge that we are up to date in every particular of our business. This institute has one of the largest and best equipped laboratories in the world for the purpose of scientific research, and the National Association has seen fit to establish therein their department of Chemical Engineering. From this source bulletins are issued to us regularly, giving the results of numerous scientific experiments with supplies and methods, and advising us the very best known methods for laundering without injury to the fabric.

Experiments and tests are continually carried on, along with the conservation of the material uppermost in the mind of the scientists, and no formula or cleansing agent is tolerated for use unless it conforms strictly to their standard.

Don't you think a name may mean something after all?

Also, don't you think we are better qualified to take care of your laundering than those who do not have the benefit of this expert advice? We ask you to consider this when you are about to send out your next bundle of laundry.

A phone call will place the service at your disposal.
