INCREASE IN HERD OF SEALS

United States Business in Furs
Is a Profitable One—Report
For Year.

COMMISSION SUGGESTED

JUNEAU, Jan. 27.—Gross proceeds amounting to \$796,103 were received by the Federal government from the fur industry on Pribilof Islands during the fiscal year ending June 30, 1921, according to the annual report of Dr. Hugh M. Smith, Commissioner of Fisheries. Net proceeds from the islands were \$423,400.29.

Of the latter amount there was accruing from seal skins \$342,701.29 and from fox pelts, \$80,699. However, there was deposited in the U. S. Treasury as net proceeds of sales of seal skins during 1921, the sum of \$99,983.54 in addition to which Great Britain and Japan received \$31,825.35 as their shares under the sealing convention of 1911.

Herd Still Growing.

The Commissioner's report on the Pribilofs says: "The exceedingly valuable herd of fur seals resorting to the Pribilof Islands has continued to increase in response to the protection afforded by the discontinuance of pelagic sealing, and the utilization of the surplus male seals killed under government supervision is a profitable business. New methods of taking and curing seal skins have been undertaken on an extensive scale, and improvement in the quality of the fur has resulted."

"Sealskins secured in 1920 numbered 26,648, practically all from animals three or four years old. The number taken in 1921 through regular killing season that ended on August 5 was 22,546, chiefly from seals three years old. The census of the seal herd in 1920 indicated 552,718 seals of all ages as of August 19, of which 167,527 were breeding females and the same number of newborn young. In 1921 census showed the existence of 587,820 seals of all ages, of which 176,655 were breeding females with a like number of young. The aggregate strength of the herd according to these figures did not include the seals killed in each of the years named."

Contract for Sale.

"In February 1921, the depart-

Was Troubled With Her Liver for over 4 months

When the liver becomes slow, sluggish and torpid it is not working properly and does not supply sufficient bile to thoroughly act on the bowels and carry off the waste products of the system, hence the bowels become clogged up, the bile gets into the blood, constipation sets in and liver troubles follow, among which are sick or bilious headaches, heartburn, water brash, jaundice, floating specks before the eyes, pain under the right shoulder, coated tongue, bad breath, yellow eyes, etc.

MILBURN'S
LAXA-LIVER PILLS
quickly remove the secretions, clear away the effete and waste matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood.

Mrs. Alice McMillan, Nanaimo, Ont., writes: "I was very badly run down for over four months. I tried several remedies, but got no relief. One day my husband brought me home a vial of Milburn's Laxa-Liver Pills, and before I had used half of it I was much better. I only used two vials and I am a different person today."

"I can safely recommend Laxa-Liver Pills to anyone troubled with liver trouble."

Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

HEALING SOOTHING ANTISEPTIC Lam-Buk

ment entered into a contract with the Fouke Fur Co., of St. Louis, for handling the Alaska seal skins. This is the only company in the United States fully equipped for dressing and dyeing large numbers of seal skins in a manner equal to the best practices of the fur trade, and the department is glad to be able to lend support to this newly established American business. During the fiscal year 1921 two public auction sales of finished seal skins were conducted at St. Louis; 20,180 dressed, dyed and machine skins were disposed of; gross proceeds of the sales were \$715,404, and the net proceeds \$342,701.29. The department has deposited in the United States Treasury the sum of \$99,983.54, representing the net proceeds of the sale of seal skins during 1921, and in addition thereto has paid to the governments of Great Britain and Japan the sum of \$31,825.35 each, representing their shares under the sealing convention of July 7, 1911.

Suggests Commission.

"In view of mutual international pecuniary interests in the various seal-herds of the North Pacific Ocean and Bering Sea, under the terms of the convention signed at Washington on July 7, 1911, an inspection of the Alaskan, Japanese and Russian seal rookeries by a properly constituted international commission would be desirable to ascertain the present conditions and to place the respective governments in possession of information on which to base future action for the preservation of the fur seals."

423,000 POUNDS HALIBUT HERE

Biggest Day of Year So Far at
Fish Exchange—Prices Low.

With 423,000 pounds of halibut offering for sale at the Fish Exchange this morning, the waterfront is a busy place today. It is so far the biggest list for a single day this year, and the large number of arrivals at one time is accounted for by the weather conditions which caused all boats to be fishing on the banks at one time. With the settling of the weather and more steady fishing conditions, the arrivals will spread out better than they are doing at the present time. The price paid was low, no boats getting over 8c for first-class fish. Sixty-two thousand pounds has already left for Seattle and more may go on account of the local market conditions.

Following were today's arrivals:

Texas, 19,000 pounds, and Fisher, 4000 pounds, sold to the Pacific Fisheries at 8c and 4c.

Arcade, 6000 pounds; Johanna, 10,000 pounds; Laura and Margaret, 8000 pounds, sold to the Pacific Fisheries at 7.2c and 4c.

Corona, 20,000 pounds, and Sampson, 4000 pounds, sold to the Atlin Fisheries at 7.2c and 4c.

Thelma H., 22,000 pounds, sold to the Atlin Fisheries at 8c and 4c. Onah, 16,000 pounds; Imperial, 8000 pounds; Fairway, 6000 pounds, and Pelican, 11,000 pounds, sold to the Royal Fish Co. at 8c and 4c.

Crescent, 10,000 pounds; Aurora, 12,000; Bryant, 8000; Norland, 15,000; National, 12,000; Emblem, 6000; Lincoln, 6000; Kallala, 10,000; Wave, 6000; Chancellor, 7000, and Discovery, 5000, sold to the Canadian Fish and Cold Storage Co. at 7c and 4c.

W. T., 7,000; Tramp, 9,000 and Imperieuse 8000 pounds sold to the Canadian Fish and Cold Storage Company at 7.7c and 4c.

Omney, 47,000 and Panama, 58,000 pounds, offered 6c and 4c by Canadian Fish and Cold Storage Co., but not yet accepted. Wilson, 17,000; Harding, 11,000; Agnes, 14,000; Wireless, 10,000, and Chimera, 10,000 lbs. cleared for Seattle.

REVIVED INTEREST IN DISAPPEARANCE OF ANDREW SMALL

TORONTO, Jan. 27.—Revived interest is being taken in the mysterious disappearance of Andrew Small, millionaire theatrical manager, who has not been seen for two years. The interest is caused by an application to the police by the Misses Small, sisters of the missing man, who are asking for a new investigation and increased activity in the pursuit.

WINTER SESSION OF ASSIZE COURT AT WINNIPEG NECESSARY

WINNIPEG, Jan. 27.—Owing to the prevalence of crime here during the past few months a special winter session of the Assize Court has been made necessary and is now in session here. Twenty-six persons are being charged with 10 crimes, one of which is murder. Most of the charges are for theft or robbery or burglary.
