Celebration of Labor Day.
 In choosing a number of days as general holidays for the people of Canada it was very fitting that one should be dedicated to labor. On that day the labor organizations unite in carrying out such sports and amusements as appeal to them and the whole community joins them.
 Prince Rupert is essentially a labor community. Very few people live here who do not work. The idlers go south. Because of that it is fitting that Labor Day should be celebrated with a great deal of enthusiasm in this city.

Wheat Crop Is Large This Year.
 The Manitoba Free Press report estimates the wheat crop this year at about 372,000,000 bushels from the three prairie provinces. If this is marketed at anything like a dollar a bushel it will bring an immense sum.
 The Bank of Montreal estimate is rather less optimistic but it is not quite so recent. Their estimate is 350,000,000 bushels. In any case it will be anywhere from seventy to one hundred million bushels greater than last year's crop.
 While we are glad to know that the farmers on the prairie are doing well this year, there is an element of selfishness in our interest in the wheat crop. When there is a good crop there is a greater demand for lumber and fish on the prairies and during the winter and following summer more of the farmers come to the coast. All this means business for the railroads and improved conditions here. The success of one part of the country has a good effect on all others.

Need Of Post Box At The Station.
 It is customary in most places to have a letterbox at the station, this box being cleared by the mail staff just before the departure of the train. There is not such a box at Prince Rupert and we have been asked to call attention to the fact with a view to having it remedied. There is a post office box on the wharf but the letters mailed there have to be taken to the post office to be sorted. This is rather misleading to many people not acquainted with our methods, and letters intended for the boats are often dropped in that box.
 As the aim of the post office department is to give the best possible service to the community and the defects mentioned could easily be remedied with very little extra cost, doubtless they will be attended to before very long.

School Opening Important Event.
 The most important thing in Prince Rupert is the success of the Prince Rupert children. Most parents live for their children. The greatest thing they do is to bring up a family. Today the schools reopened and parents will be particularly interested in the success of the work of the term.
 In order to get the best possible results there has to be co-operation between the parent and teacher. The teacher should be the best possible person for the work and the parent should be the one who will at all times stand by the teacher and help her to achieve success.

Care Not To Crush Individuality.
 Class teaching has many advantages in addition to economy. It gives inspiration but it also tends to crush individuality. To prevent this each pupil has to be treated as a separate entity. The recognition of individuality is one of the most difficult problems in the teaching profession. The pupil with an unusual amount of individuality becomes a nuisance to the teacher and to the rest of the class and interferes with all rote work. To carry on successfully without checking the attempts at self-expression is work that requires great cleverness and tact. The teacher that is able to accomplish it is worthy of a place among the best of the world's workers.

MANAGEMENT OF UNIVERSE

Chautauqua Lecturer Delivers Interesting Address on "The Nearness of God"

Just as the creation and operation of a great railway system essentially has a backing of intelligent management so does the infinite Universe have its management and control in the entity known as God. That is an argument put forward by Dr. Arthur D. Carpenter, the Chautauqua astronomer lecturer, in his address, "The Nearness of God," which was delivered on Saturday afternoon. The lecture was a highly interesting one and the reasoning advanced for the existence of the Omnipotent Power as accepted by Christian belief was largely based on scientific fact and thought.

Three Entities
 Dr. Carpenter declared that there were three entities in the Universe—space, time and the divine power of God. Each were infinite with no beginning and no ending. The conception of God as a great King seated on a throne as popularly interpreted was not to be literally accepted. He was instead an Omnipresent power whose being permeated the Universe.

The lecturer maintained that a sixth phisic sense was required in the understanding and conception of God. Space and time could be conceived by the individual with the five ordinary senses but to perceive God the sixth must be developed. The ideal person was the one in whom the material and phisic senses were combined. Spiritual development as well as material was desirable but one should not be wholly material or spiritual.

Evolution
 In the course of his lecture, Dr. Carpenter gave some theories as to the evolution of man. He did not believe in the Darwinian theory that man was descended from the monkey but he did believe in the evolution of man through the ages and that as time went on, the human race developed and became more perfected. Just as the man of today was a more cultured and civilized being than the man of centuries ago so would the future man progress further along similar lines until he stood out in Creation.

ROYAL YEAST CAKES
 RICH IN VITAMINES
 MADE IN CANADA
 The importance of Vitamines in food is being recognized at the present time to a greater extent than ever before. It has been conclusively demonstrated that yeast is rich in this all important element. Many people have received great benefit physically simply by taking one, two or three Royal Yeast Cakes a day. APPRECIATION OF OSLAND

Editor Daily News:—
 May I ask your kindness in allowing me a little space in the columns of your paper.

I was deeply grieved on reading in the Vancouver Sun an article about the people of Osland. This was supposed to have been written from statements which I had made, but it was almost impossible to believe that my conversation with the reporter could have developed into this veritable fairy tale.

My thought was to give the people in the south some idea of the great work done by these pioneers of our country. The Islanders are people of grit and courage and their magnificent hopefulness and cheerful endurance are an inspiration. The Empire may well be proud of such citizens. I am the more distressed about this report because it has wounded my friends.

For a whole year I lived among the Islanders and I always found them kind and straightforward, ready to do anything, no matter how hard. I cannot speak too highly of them, they live in contentment and harmony, they are indefatigable in their work and undaunted in their endeavors, and I firmly believe there is a great future in store for this little settlement.

MAY MORRIS.

HAZELTON

Miss Levee Ford of Summerland, has entered the Hazelton Hospital for a training course.

Robert Langlands and his two daughters, Mrs. Lee and Mrs. Newick, are leaving this week to visit points in the south.

Mrs. Fakeley arrived last week from the Old Country and is a guest of Mrs. Newick's. She intends to make her future home here.

Mrs. W. W. Anderson and her daughter, Miss Ruby Anderson, left last week for Nanaimo where the latter will attend High School.

Betty Bergman left this week for Prince Rupert where she will attend High School.

Ten Years Ago in Prince Rupert

James Cullins, a pioneer newspaper man of the province and until lately on the staff of Vancouver Sun, is in the city today enroute to Massett where he is to start a new paper, the Massett Leader. He has the machinery and equipment with him.

J. R. Cogger, travelling editor of "Canada Illustrated" is paying a special visit to Prince Rupert for the purpose of recording fresh impressions in the light of far spread comment. He says that this is the most talked of city in the Dominion of Canada and is known and spoken of by leading business in every centre of importance in the world.

Albert Dollenmayer, head of the Dollenmayer Advertising Syndicate of Minneapolis, is in the city enroute to Massett where he has extensive holdings. He is accompanied by his son, Stanley Dollenmayer.

SMITHERS

The Bulkley Valley Ministerial Association has been formed with Rev. M. W. Lees president and Rev. R. E. W. Biddell, secretary-treasurer.

Arrangements are rapidly being perfected for the Smithers Fall Fair which will be held on September 20, 21 and 22. There is great interest and enthusiasm in the district.

J. D. Galloway, provincial government mining engineer, arrived last week from Hazelton to examine properties on Hudson Bay Mountain. Mrs. Galloway is visiting at Telkwa during her husband's stay.

Stephen Sunde, a Colleymount rancher, died last week in the Smithers Hospital from cancer. He was 47 years of age, was un-

To Holders of Five Year 5½ per cent Canada's Victory Bonds
 Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
 (b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmaturing coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
 Minister of Finance.

Dated at Ottawa, 8th August, 1922.
