who have once had Zam-Buk applied never forget how it soothes and heals their hurts. A touch of the bal Zam-Buk—a balm made of almost any clean rag—no more tears or worry. Zam-Buk is so pure and so refined that it provides the ideal healer for every sort of wound, abrasion or soreness.

Ask For

Mrs. J. E. Bierwirth, of Carnduff, Sask., writes:—"My little boy cut off the end of his finger and it seemed a case for a doctor. However, I applied Zam-Buk to stop the pain and bleeding and it gave the child such relief that I continued the treatment. Using nothing but Zam-Buk, I dressed the finger each day, and the wound healed perfectly."

SPECULATION CAUSES TERRIBLE CONDITION IN THE FATHERLAND

BERLIN, Jan. 23.—Thousands of Germans have been bankrupted by the recent craze for speculation in the stock market. The losers were not limited to wage earners and professional men with inadequate incomes but included many comparatively wealthy men.

The workmen and professional men claim that speculation is not a vice but a necessity for men whose incomes are 3,000 marks a month or less. They say they "plunged" in the market in the hope of being able to win enough to pay their bills and to buy clothing for themselves or a dress for their wives.

Some of those who lost their earnings in this way have disappeared from their positions. Others are making the round of their acquaintances in an effort to borrow and the remainder are stoically facing debts which they cannot hope to pay. Grocers and butchers generally have closed all credit accounts.

One of the speculators who lost his monthly salary of 2,000 marks in stock market speculation said:

"We have to gamble. We cannot buy anything but the bare necessities on what we earn and when prices go up and money for even the necessities is lacking, we take a chance rather hopelessly thinking that our condition cannot be much worse and that we might have luck."

SONS OF CANADA ARE COMING ON

Again Beat Elks in Senior League Basketball Game Last Night—Score 34 to 29.

The Sons of Canada are gradually redeeming their arrears of the early part of the basketball season and in last night's Senior League game were again successful over the Elks, this time by a score of 34 to 29. With the standing now showing five victories for the Elks and three for the Sons; the prospects of a run away championship for the former team is gradually disappearing as the reserves of the latter appear to rally. The Sons fully deserved their victory last evening although they had to fight hard for it all the way.

The success of these Senior league games is in no small degree due to the strict handling by Eddie Mann whose work as referee is worthy of much commendation. Even though last night's game was a fairly clean one, he called forty fouls in as many minutes, 23 against the Sons and 17 for the Elks. The fact that the referee knows his work is having the effect of making the players perform more carefully and in accordance with the rules.

The lineups and scoring in the Senior game were as follows:

Sons of Canada—L. V. Lane, 8; H. B. Scott, 2; H. Menzies, 2; W. G. Anderson, 12; and C. M. Blythe, 19—34.

Elks—C. C. Clementson, 27; W. R. Martin, C. Dickenson, E. J. Smith, 2; and A. A. Eason—29.

Intermediate Game.
In the Intermediate League game the Colts put a struggle hold on the "Grotto" Cup by beating the second string of Sons of Canada by the decisive score of 41 to 19. It now looks as if this team would finish the season with an unbeaten record and right well would they deserve the honor for they have been playing consistently good basketball all the way through the season. It would be difficult to single out any special player or players for special mention as each and every one has contributed to the success that has followed their combined efforts.

Lee Dell was the referee and the scoring was as follows:
Colts—R. Smith, 2; G. Mitchell, 2; H. Frizzell, 8; E. Mackintosh, 1; W. Mitchell, 25—41.

Sons of Canada—D. F. Robinson, R. Macdonald, 8; E. Smith,

HEARTBURN

A SEVERE CASE

Many people are troubled with heartburn who really do not realize just what it is.

In cases of this trouble there is a gnawing and burning pain in the stomach attended by disturbed appetite. It is generally caused by great acidity of the stomach, and whenever too much food is taken, is liable to ferment, and becomes extremely sour, causing heartburn. In such cases vomiting often occurs, and what is thrown up is sour and sometimes bitter.

The one way to get rid of heartburn is to keep your liver active by using

MILBURN'S LAXA-LIVER PILLS
and you will have no heartburn or other liver troubles such as constipation, jaundice, water brash, floating spots before the eyes, coated tongue, foul breath, etc.

Miss Edith Cutting, Shallow Lake, Ont., writes:—"I have had heartburn for a long time. There were gnawing and burning pains in my stomach, and then when I vomited there was a sour and bitter taste. I used two vials of Milburn's Laxa-Liver Pills, and they have cleared me of my heartburn. I don't think they can be beaten by any other medicine."

Price, 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

1; F. Morrison, 5; T. Halverson, 2—19.

Junior League.

In the Junior League the lowly King Edwards gave the Tiny Tims a great run and at half time the score was 12 all. In the second half the Tims gradually worked ahead, however, and the game ended 24 to 15 in their favor.

The scoring:
Tiny Tims—W. Kergin, 4; F. Kergin, 2; M. Budenich, 6; J. Kelly, 12; P. Black—24.
King Edwards—W. Cavatier, 2; T. McKinnon, D. Frizzell, 8; E. Maclean, 1; J. McNulty, 1—15.
E. Dickenson was referee.

Standing of Clubs.
The standing of the clubs to date is as follows:

Sport Chat

The rules of wrestling, along with those of other lines of sport have been of late undergoing a process of so-called debrutalization. Certain punishing holds have been banned and there is no doubt that a humane improvement has been made over what was allowed before. There is however room for even more reforms along these lines. On Monday night George Hill of Wisconsin, and Stanislaus Zbyzsko wrestled for over an hour and there was no decision until the former was forced to retire with a broken collar bone. While no technical suggestions for the decision of contests are attempted here, it seems rather deplorable that so-called legal sport still allows such occurrences as this. There should be some way of so altering the rules to come at decisions more humanely and less painfully and still retain the skill of the wrestling game. What applies to wrestling also applies to boxing. The rather low category in the sport catalogue which boxing is placed by many people is due just as much to the aversion to brutal exhibitions as it is to the commercializing of the sport and, perhaps, more so. For example, organized baseball is the most highly commercialized sport in the world but it enjoys for all that, an immense measure of popularity in American sporting circles. It is not any less a business than boxing but the difference is that baseball is humane, whereas the same can hardly be said of the boxing and wrestling games as they are conducted at the present time.

The Australian Lawn Tennis Association has decided to challenge again this year for the Davis Cup now held by the United States Association says a Reuter despatch from Melbourne received in London. With full strength available from which to make a selection of players, the Australians believe they have an even chance of regaining the trophy which they held six times in the last twenty years. WHAT'S IN A NAME?

In this case, it means that we are unusually qualified to take care of the linen entrusted to us for laundering.

Being a member of the Laundry Owners' National Association, and having at our disposal the expert advice of the Mellon Institute of Industrial Research, Pittsburgh, Pa., we make this claim with the full knowledge that we are up to date in every particular of our business. This institute has one of the largest and best equipped laboratories in the world for the purpose of scientific research, and the National Association has seen fit to establish therein their department of Chemical Engineering. From this source bulletins are issued to us regularly, giving the results of numerous scientific experiments with supplies and methods, and advising us the very best known methods for laundering without injury to the fabric.

Experiments and tests are continually carried on, always with the conservation of the material uppermost in the minds of the scientists, and no formula or cleansing agent is tolerated for use unless it conforms strictly to their standard.

Don't you think a name may mean something after all?

Also, don't you think we are better qualified to take care of your laundering than those who do not have the benefit of this expert advice? We ask you to consider this when you are about to send out your next bundle of laundry.

A phone call will place this service at your disposal.
