

WILL BALAGNO IN KETCHIKAN

Former Local Violinist Is Leader of Dream Theatre Orchestra—an Appreciation.

William Balagno, the popular Prince Rupert violinist and until recently a member of the Westholme Theatre Orchestra, is now director of the Dream Theatre Orchestra at Ketchikan.

"When my boat docked I noticed a fellow fiddler landing with me. Both of us made for the hotel, and as luck would have it we were assigned rooms side by side."

"He played for himself, never surmising that I was his solo but appreciate audience. The chances are that he could never play as splendidly facing a large audience as he did that day for the four walls, and for me."

"A Great Asset." "Small cities should be anxious in making the best use of good new talent just as much as they are anxious to attract new capital."

CHIEF'S REPORT FOR JULY SHOWS DECREASE IN CRIME IN CITY

The report of the chief of police for the month of July submitted to the police commission last night showed that fines for the month had totalled \$3,908 including \$102 for the Royal Canadian Mounted Police, leaving a net total for the city of \$2,416.

Ten Years Ago in Prince Rupert

The Juvenile Bostonians troupe of actresses, who have been playing for the past week in Prince Rupert, sailed this morning for the south and were given a hearty send-off as the steamer pulled out.

It is reported today the Naas River Lumber Co., is going to establish a huge sawmill and plant on the Naas in view of the completion of the Panama Canal.

Rev. F. W. Kerr in his sermon today on "Is There a Hell?" repudiated the idea of eternal punishment.

IMMENSE FIELD OF IRON IN FAR NORTH

Discovery Made by Bill Carter and Bill Innes in Peace River District

HUDSON'S HOPE, Aug. 11.—Western Canada can have the cheapest supply of iron and steel products on the American continent, according to W. A. Rae, of Grande Prairie, who is forwarding full details of an iron strike made north of here by three prospectors recently.

According to their story upon their arrival at Hope where they immediately recorded many claims, the showing lies from 30 miles northwest of town and covers about sixty miles of territory.

Staked Many Claims. "Small cities should be anxious in making the best use of good new talent just as much as they are anxious to attract new capital."

The Man in the Moon SAYS

SOME men are known by the company they keep, but others are known by the amount of parking space inside the skull where the brain ought to be.

A BACHELOR is content because he does not know any better. A widower is never contented, unless he has been annexed a second time.

THE latest idea of popular prices is the price that is nearest the skyline.

NEWFOUNDLAND ships her iron ore to Germany and Germany ships the finished goods to Canada, and Canada buys worthless paper marks from Germany. It is a vicious circle.

THE Dominion Government will give us an ordinary bond in place of the victory bond and will pay us the same rate of interest on the new certificate that they paid on the old one.

I SAY this for the benefit of readers of this curious column. As for myself my victory bond was hypothecated long ago to pay the man I borrowed the money from to buy the blighted thing.

IT'S nice to talk about stocks and bonds. It makes you feel rich.

THE very latest business stunt is for a business man to paper his den with the stock certificates, which have proved of no value and which he cannot sell or give away. It is the only way to get even with the people who sold them and who never expected they would have even that much value.

TOLMIE decides that Billy Bowser has a strange hold on the Conservative leadership so he has backed down.

NOW, Mr. H. H. Stevens, we are waiting to hear from you.

WITH a coal shortage staring us in the eyes, it is good to be living in a mild climate and close to a wood pile.

LURED TO ISLAND OF SOUTH PACIFIC

Group of British Engineering Students Go to Make Home in Ecuador

LONDON, Aug. 11.—Discouraged at the outlook in this country, dissatisfied with the after-war Britain, but actuated mainly by love of adventure, about a dozen engineering students of Loughborough college are setting out on September 1 for an uninhabited island belonging to Ecuador.

Most of them are ex-officers. Among them is an author, D. L. David, who wrote "Ya Brof." He expects to find the new settlement work for his pen as well as his hands.

The chief means of existence they hope to find by utilizing the resources of the island itself; the development of fruit-growing and the breeding of cattle.
