PORTUGUESE TROUBLE WAS FORECASTED

Correspondent of Associated
Press Sent Out Warning
Several Weeks Ago.

In connection with the revolutionary movement in Portugal the first definite word of which was received yesterday on the wire, it is interesting to read a mail article sent out by the Associated Press correspondent at Lisbon and dated July 18 as follows:

"A rate of exchange alarmingly low and prices of foodstuffs exorbitantly high have conspired to make the cost of living in Portugal a serious problem. And profiteering as an additional factor cannot be overlooked. Several highly placed state functionaries have been arrested and jailed, charged with conspiracy and the holding of secret meetings, which is an indication of an underlying political unrest. It is felt in some quarters that a military movement is in preparation, to act in case of a fresh outburst of the turbulent elements which brought about the political assassinations of last October.

End Speculation.
The press is clamoring against the economic condition of the country, and "Seculo" vehemently exhorts the government to put an end to the speculation to which it chiefly attributes the increasing fall in exchange. The Minister of Finance is trying to raise an internal loan and has had conferences with several of the most prominent Portuguese bankers to this end. His efforts have not so far been successful.

"One of the factors said to contribute to the situation is that, although exportation amounts to several million pounds, all this money is deposited in foreign banks instead of being paid out in the country. At the same time gambling in exchange is being carried on in a barefaced manner. In London banks alone there is said to be over 25,000,000 Portuguese pounds which would greatly improve the rate of exchange if left here. The constant arrest of officers and civilians and the fact of the troops having to keep within barracks to be ready at a moment's notice, adds to the general unrest.

Interest to England.
"Epoca" directs attention to the statement of the British Premier, Lloyd George calling upon the nations which owe England money to pay interest charges in October. This debt amounts to over 25,000,000, and the paper asks if the interest is to be paid when due."

Mrs. W. C. Hall and son and daughter are leaving tomorrow afternoon for the south enroute to Kansas City where they will visit.

RUSSIAN REFUGEE PROBLEM IS SOLVED

Some Will be Sent to Siberia and
Others to Bulgaria and Jugo-Slavia

CONSTANTINOPLE, Aug. 11.—The Russian refugee problem will be cleared up in the course of the next few months is the opinion of Major Clavin Davis, Director of the Constantinople Chapter of the American Red Cross. "Present plans are for the American Relief Administration to carry on with the feeding of refugees," he said recently, "while the League of Nations distributes them. Bulgaria and Jugo-Slavia have agreed to take several thousands; 1,000 will be repatriated to Siberia, and it is hoped Australia will take several thousands. The problem which has puzzled the world's statesmen will thus be definitely solved."
