IMMIGRATION IS DISCUSSED

Vote of \$50,000 is Made for Purpose at Victoria—Pattullo and Oliver Speak

VICTORIA, Dec. 13.—Replies to a question regarding the vote of \$50,000 for immigration, Hon. T. D. Pattullo, minister of lands, said in the legislature that it could not be exactly stated how this money would be spent for plans were not yet far enough advanced. Personally, he did not believe in spending money on transportation for settlers when the cost of roads, schools and hospitals had to be looked after. Premier Oliver said there were hundreds of thousands of acres of land and if people who were here could not occupy them he did not see why others should be debarred from coming. All the government was asked to do was to take care of these people on arrival and place them on the land. Some money would be required in doing this. If the House decided that it did not want people to come that would end it.

Resolution Put Forward by Clearihue That Referendum on Beer Inopportune Passed

VICTORIA, Dec. 13.—The hopes of the beer by glass advocates were dashed yesterday afternoon when a resolution put forward by J. B. Clearihue, member for Victoria, declaring the time inopportune for a referendum on the sale of beer by the glass in establishments approved under government control, was passed in committee of the whole. The house divided—seventeen voting for beer and twenty-five against. Those voting for beer by option were R. H. Neelands, South Vancouver; Sam Guthrie, Newcastle; Thomas Uphill, Fernie; J. H. Schofield,

Trail; Major J. H. Burde; Alberni; William Hunter, Sloane; H. G. Perry, Prince George; K. C. MacDonald, North Okanagan; E. W. Anderson, Kimberley; J. W. deH. Parr, Vancouver; Hon. John Hart, Victoria; Hon. A. M. Manson, Omineca; Hon. William Sloan, Naunino; Kenneth Campbell, Nelson; H. F. Kerzin, Atlin; Capt. Ian MacKenzie, Vancouver; Hon. T. D. Pattullo, Prince Rupert.

In the course of the debate, a number of points of order were taken and Chairman M. B. Jackson's ruling was once defied by Major Burde. The Speaker was called in and he decided with the chairman, Sam Guthrie, the Labor member for Newcastle, as also denied the right of speaking, because he would not keep to the subject. For a few minutes the House seemed out of hands.

Mr. Clearihue's negative motion was brought in to give opportunity for discussion because the positive motion of Capt. Ian MacKenzie calling for a referendum was out of order. Mr. Clearihue claimed that the present Act had not been given a fair trial yet since the plebiscite had been taken only eighteen months ago.

Hon. William Sloan, minister of mines, spoke in favor of beer as did also Major Burde, F. W. Anderson and Sam Guthrie.

PROGRESS ON SLOAN BILL

Measure Providing For Iron And Steel Investigation Passes Second Reading

VICTORIA, Dec. 13.—Hon. William Sloan's bill providing for a survey of the iron ore properties of the province and setting aside the sum of \$50,000 for developing them also giving the government the right to enter on the properties and charge the work against the owners passed its second reading in the legislature this morning by a vote of 28 to 10.

Hon. W. J. Bowser criticized the bill caustically and suggested that it was all being done for friends of the Liberal government and the Coast Range Steel Co.

Hon. T. D. Pattullo said that prospectors favored the bill. The only ones opposed to it were the rich holders of properties who were asking big prices. This legislation was similar in principle to that dealing with agricultural areas which had been a great success.

G. H. Barnes, member for North Vancouver, thought the big corporations should pay their share. It was time the government took powers like this which was a step in the right direction.

Independent and Labor members voted with the government.
