DAILY EDITION Friday, April 7, 1922.

British Goods by Canadian Ports.
 A motion was introduced into the Canadian House of Commons to make it compulsory to ship British goods into Canada through Canadian ports in order to secure the preferential tariff rate. That is similar to the proposal to ship fish caught in American boats from an American port. The motion was defeated and it is to be expected American legislation against the use of Canadian ports will be defeated. With so much in common between the two countries it seems hardly reasonable to start putting trade impediments in each other's way.

Victoria Drydock And Naval Policy.
 The drydock at Esquimalt was apparently part of the naval policy of the late government. The naval policy has been revised and the work on the drydock has been stopped. Naturally the people of Victoria are disappointed. The spending of so large a sum of money there would have kept the Victoria people eating for a long time. It was somewhat in the nature of a meal ticket. Also it would have tended to increase business at that port after the dock was completed. We, who have had so many disappointments ourselves, can sympathize with them in their setback.
 Possibly the dock may yet be continued, but until the naval policy is clearly determined it is hardly likely the work will go on. Such an immense dock would be useless unless immense ships are to ply to the port or be in the neighborhood.

Vancouver Dock Also One Too Many.
 The proposed dock at Vancouver would also be a white elephant throughout the time of its bond guarantee. The Canadian Government would have to pay for it just as they paid for the guaranteed railways. At present there is a good drydock at Esquimalt which will take all the ordinary tramp steamships. The Oriental liners all dock on the other side where labor is cheap. Any vessels too large for Esquimalt can come to Prince Rupert.
 Naturally the people of Vancouver want the dock. They do not consider the welfare of the whole country but the welfare of Vancouver. They want to build up that port and increase business there. The fact that there are already sufficient docks in the province has no bearing on the matter with them. They forced the hands of the previous government and they will try to do the same with this one. Happily the government seems to see the necessity of retrenchment.

Immense District Forestry Department.
 This forestry district is an immense one. People often wonder why an office here is necessary and what the foresters do. If they read the report which was published in this paper yesterday they will see the need of such a department. It covers an immense area and a large amount of timber comes under its supervision. While there is little need of fire protection on the coast owing to the summer rains, there is supervision of the cut and collection of stumpage dues to be looked after. No matter where the lumber is cut, the province collects revenue from it, and this is part of the work of the district forester and his staff.
 Last year was rather a poor one, especially in the immediate vicinity of Prince Rupert. This year should show an improvement. Mills are opening and others will probably follow. If there is a market, the capital is likely to be found with which to operate. We look for a great improvement by summer.

COMMUNISTS NOT ANY REAL DANGER
 Phillip Scheidemann Says Militarism is Dead For Ever in Germany.
 COPENHAGEN, April 7.—Phillip Scheidemann, leader of the German Democratic party, while here, told the Associated Press that German militarism was dead forever. The spirit of democracy had levelled Germany to that extent that the German republic could easily withstand any reactionary assaults.
 Foreign countries, he said, exaggerated the political importance of the power of the German reactionaries. The Communists were no real danger either. They were only gradually groping their way into the German trade unions "in order to learn their political manners."
 Discussing the relations of Germany with Russia, Herr Scheidemann said the German government had negotiated with Karl Radek, Russian Soviet agent in Berlin. He expressed the opinion that the murder of Count Mirbach, for which no apology had been received, presented no real barrier against the two nations arriving at an understanding.

Saving \$1,000
 Through trifling economies, you can accumulate one thousand dollars in a few years.
 By persistently and regularly depositing \$2.00 a week with us—with interest at 3% compounded semi-annually—you will have \$1,211.43 to your credit in ten years.

SO MANY PEOPLE ARE NERVOUS

"Fruit-a-lives" the Greatest of all Nerve Remedies

This Fruit Medicine Restores Health
 The increase in the number of persons suffering from Nervousness is world-wide; due, in a measure, to the reaction following the war. Sleeplessness, Headaches, Mental Depression, Rheumatism, Nervous Dyspepsia, Bad Heart Action, are the results of a disturbed condition of the Nervous System.

The nerves and the blood are so intimately, so vitally, connected that the condition of one is bound to affect the condition of the other. If the blood is laden with impurities, it is impossible to have strong, steady nerves.

The first essential in treating nervous troubles is to purify and enrich the blood. This "FRUIT-A-LIVES" will do.

"FRUIT-A-LIVES" stimulates the bowels, kidneys and skin and purifies the blood. "Fruit-a-lives" improves appetite and digestion and insures food being properly digested, thus enabling the blood to carry wholesome nourishment to build up the body, particularly the nerves.

Men and women who take "Fruit-a-lives" for some form of nervousness—because they cannot eat or sleep or work or enjoy life—say that this fruit medicine is simply marvellous in its action.

50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

Ten Years Ago in Prince Rupert

April 7, 1912.
 Bishop Du Vernet in a letter to the Daily News asks the city council if it closes the grocery stores at 7 p.m. why not the bar-rooms at 10 p.m.?

Toronto and Vancouver firms will this season operate placer outfits in the Omineca district on an extensive scale. Work will commence as soon as the machinery can be taken in. Manson and Gernanson Creeks will be the points of activity.

A bridge over Behring Strait which would eventually bring Prince Rupert in direct rail communication with Paris and St. Petersburg is now being talked of.

BURNS LAKE LADIES GIVE ENTERTAINMENT

High Class Revue at O. B. U. Hall by Mrs. and Miss Collier.

The revue and dance put on at the O. B. U. Hall by Mrs. Collier and daughter Gladys, of Burns Lake, was an enjoyable event. The revue program consisted of several numbers and included, duet "Dreamy Slumber Time," followed by "My Rosary," and "The Old Irish Mother." Miss Gladys Collier sang a solo entitled "By Georgia Moonlight," and as an encore gave an exhibition of the terpsichorean art. Mrs. Collier gave a pleasant rendering of Elsa's "Dream" from Wagner's opera Lohengrin in full operatic costume befitting the part.
 Mendelssohn's Spring Song was also rendered to good effect. Miss Collier's singing of "I'm Going to Marry Harry" had a humorous vein and as an encore a recitation was given. Perhaps the most successful item of the program was "A Wyoming Lullaby" sung by Miss Collier receding, with an improvised moon effect surrounded with flowers. After the program dancing was indulged in until 1:15 a.m.
 Professor O. A. Pryce presided at the piano.

Thomas Oxley, of Anyox, sailed last night for Vancouver. He will spend a brief holiday visiting in the south.

DR. GRANT AT CONVENTION IN VANCOUVER

"Greatest Event of His Life" Declares Prince Rupert Sky Pilot.

Dr. H. R. Grant, who has been in Vancouver attending the Rotary convention, writes to a fellow Rotarian:

This conference is the greatest event that ever happened in my life. Last night in the Capitol Theatre we had a splendid address by Dr. Pidgeon. The singing was good. The Hallelujah Chorus was worth coming all the way to hear and the special anthem and solos were superb. This morning (Monday) we heard the Rev. Geo. Falls in an address of welcome that made the whole audience at its finish rise up and cheer. The answer by Rotarian Rev. Gunter of Seattle was equally good. The theme was "good will," and both men handled their subject superbly.

But I forgot to speak of the pageant—every Rotary country was represented by a woman and a man in costume. Each country was called and the representatives walked up the aisle to the stage. The crowd cheered as they came up. Last of all Britain and the United States with Britannia and Columbia came up on opposite sides. They met in the middle of the stage and we all raised the roof. Then we sang "God Save the King" and "America." I tell you it got under more than a few skins—down to the heart.

Spoke at Banquet.
 I spoke at the banquet at noon.

We had a moving picture of the convention taken in front of the Court House—and then back to the Capitol for more address. I heard the finest address I ever heard on the problem of unemployment, by the Dean of Washington University. Let me say again that this is the finest event I ever attended. There is not one spare moment. I am having the time of my life.

KETCHIKAN PEOPLE ORGANIZE FOX FARM

A fox farm company has been incorporated at Ketchikan with W. H. Roessel, Arthur Propp, Dr. J. H. Hustard, M. J. Heneghan and C. J. Collins as incorporators and directors. The corporation will take over the lease of Hotspur Island which Roessel and Propp now hold and it is the intention of the new company to place 50 pairs of foxes on the island as soon as the necessary buildings and other equipment are ready to carry on the work. The capitalization of the corporation is \$75,000.
 Hotspur Island is located between Annette and Duke Islands, about 30 miles south of Ketchikan, and contains 1,800 acres. It is well timbered and has two lakes and two good harbors.

The Man in the Moon SAYS—

THE only person who cannot play the fool is one who is a fool naturally.

A GOOD looker is a man who keeps his eye on the girls.

BREATHES there the man With mind so dense Who never had A grain of sense And never tried to think.

If such there be Go knock him down He is a disgrace To any town And puts it on the blink.

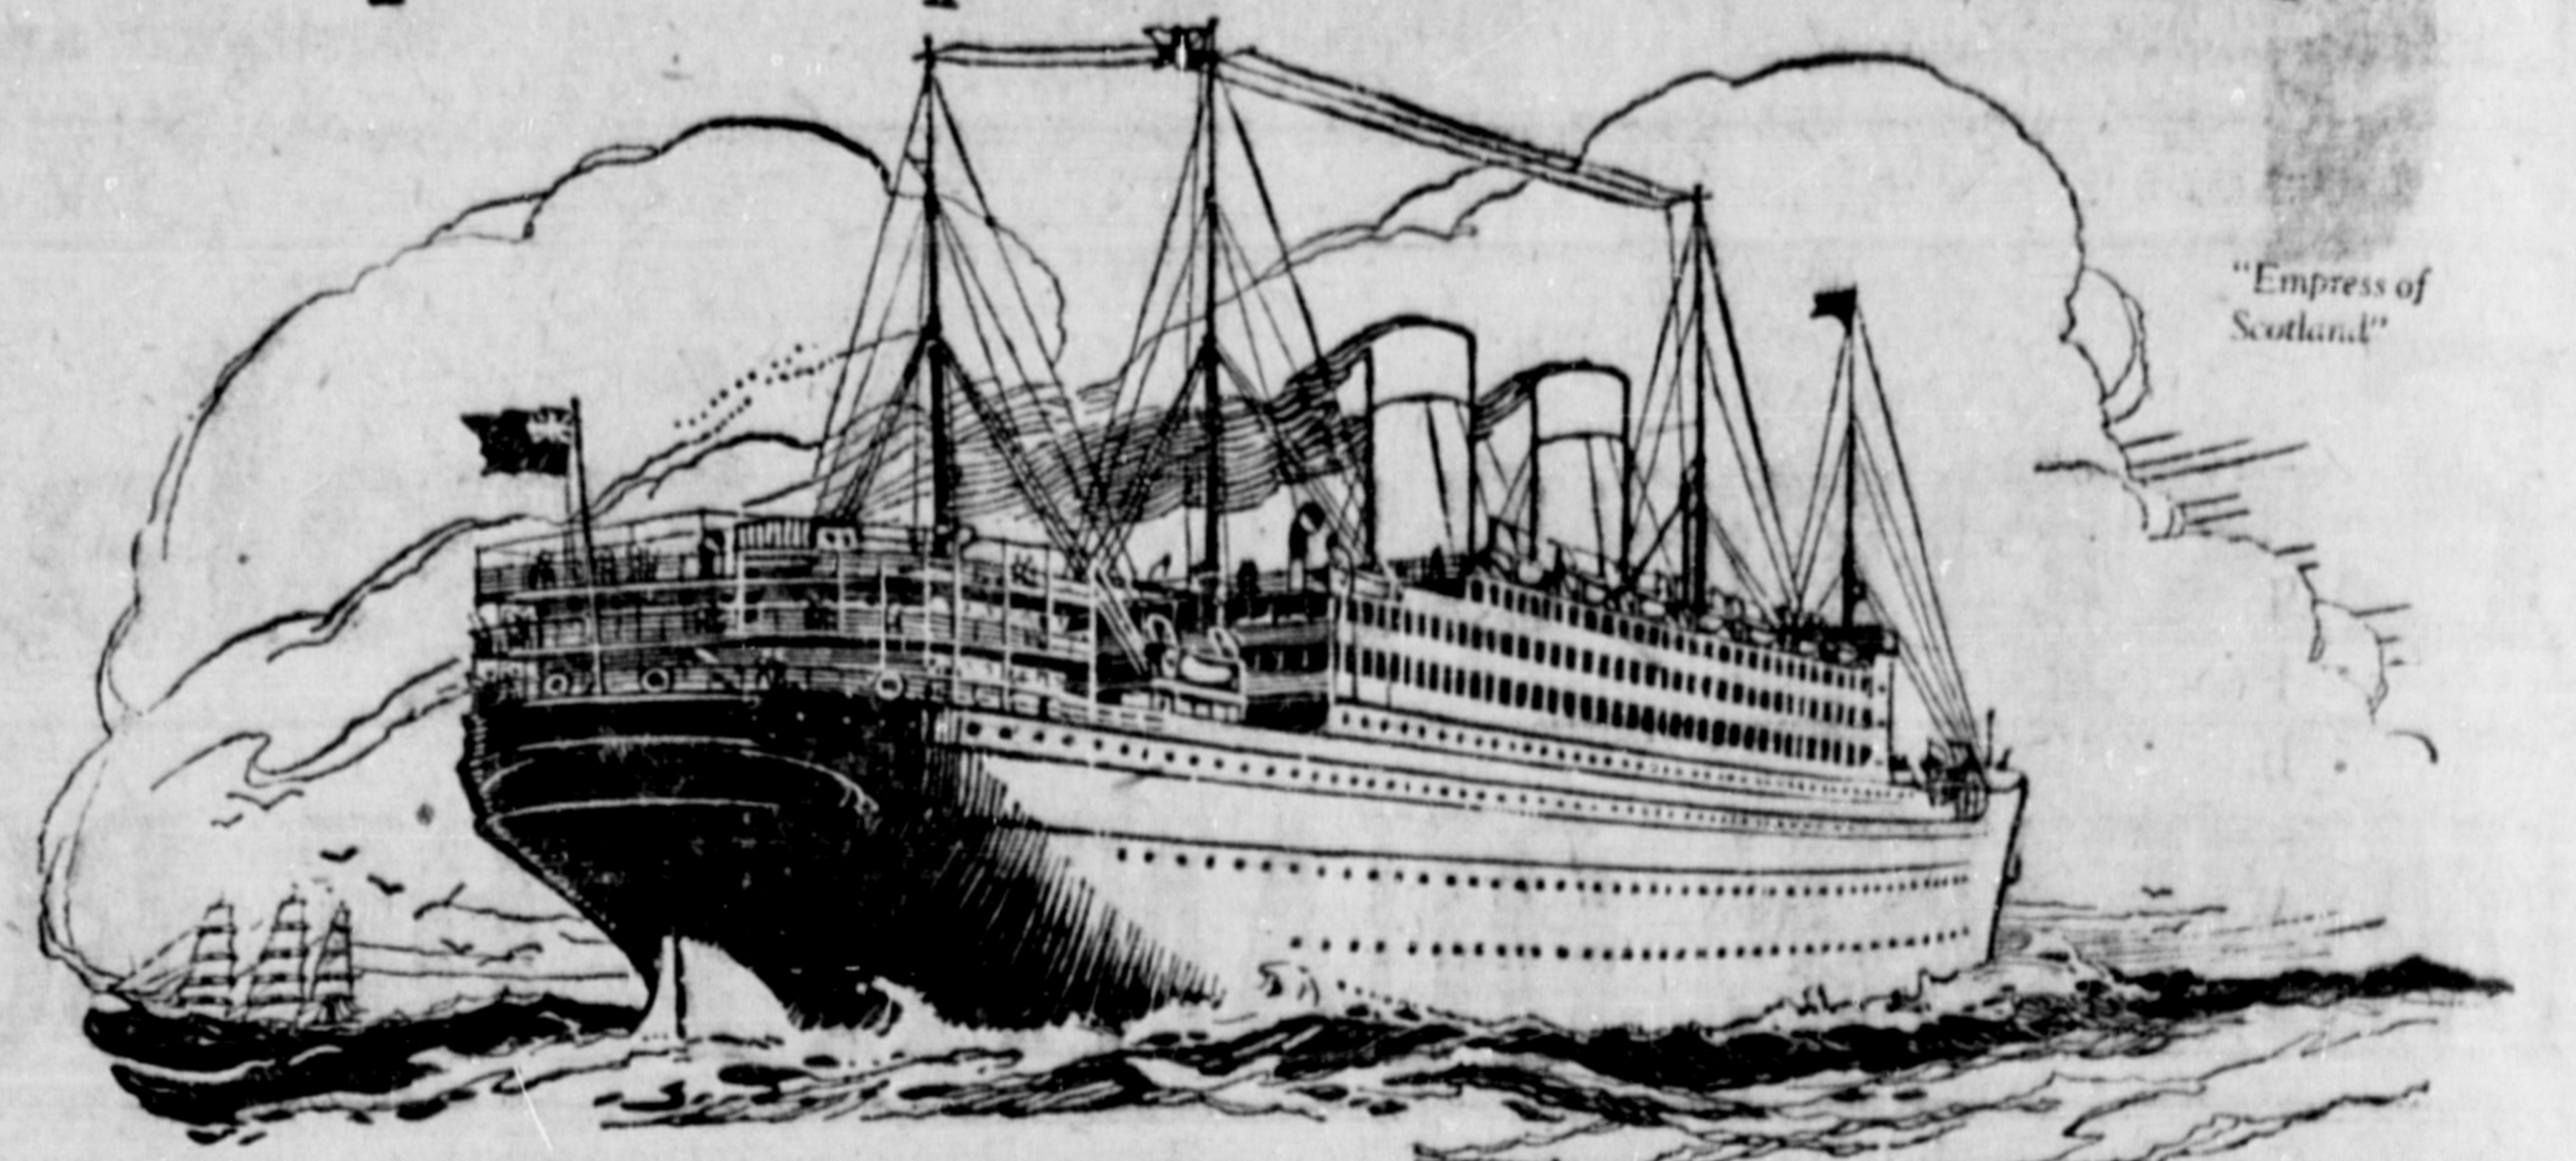

WE are always glad to see some visitors and always glad to say good by to others.

THE chief difference between the Prince of Wales and ourselves is that the Prince wants to be chubby with the Japanese while we do not want them here at any price.

THE reason so many people are hard up at this time of year is because the Easter hats have to be purchased.

CANADIAN PACIFIC "Empress" Express Route to Europe

Via Quebec and the St. Lawrence Only Four Days on Atlantic to

CHERBOURG - SOUTHAMPTON - HAMBURG

Largest Steamships sailing from any Canadian Port
Empress of Scotland 25,000 tons
Empress of France - 18,500 tons

Shortest and most comfortable route, with express rail connections to the chief cities of Great Britain and the Continent.

London or Paris from Quebec in a Week

Berlin in Nine Days via the Sheltered St. Lawrence

The EMPRESS OF SCOTLAND is the new queen of the Canadian Service—a magnificent oil-burning vessel with every appointment for the comfort of the traveller. Twelve public rooms, including regally decorated ball-room, music room, smoking rooms and palm garden.

All the Empress trans-Atlantic liners have large well-ventilated state-rooms and service and cuisine to satisfy the most experienced travellers.

The Canadian Pacific also offers a splendid one-class service between Montreal and Quebec and Liverpool, Glasgow, Southampton, and Antwerp.

Canadian Pacific Railway connections from all parts of Canada to Montreal and Quebec.

Everything Canadian Pacific standard—none better.
 Tickets and Reservations at all Canadian Pacific Offices throughout the World

and one of the women was ready before her husband. It was all a dream.

NO one minds the running expenses. It's the idling expenses that cost.

ITS too bad that income tax and Easter should come about the same time of year.

THE clothes girls wear today are sensible but that is not why the young ladies wear them.

ACTIVE DEVELOPMENT ON SMITHERS CLAIMS

Compressor and Crew of 25 Men to Work on Mamie Group This Summer.

SMITHERS, April 7.—Captain Turner, who is in charge of operations on the Mamie group of claims on Hudson Bay Mountain near Smithers, returned last week from a trip south and announced that a compressor plant is to be put on the property and a crew of 25 men will be kept working on development work there this summer. The hand system, so far in use, will be abolished and the compressor will be capable of driving the two new Turbo drills to a depth of 350 feet. Camp building operations have already commenced.

A complete assay plant has been secured and D. R. Willemar, of Hazelton, arrived at Smithers at the end of the week.

An effort is being made to have the compressor put on Victory property by the Skeena Mining and Milling Co. brought to the Mamie but if this fails a new plant altogether will be brought in.
