Local agents of the India revolutionists say that Senators Norris and Walsh and a group of American publicists and jurists sent a message to the All-India Congress pledging the support of the United States for India's struggle for liberty.

Cost of Living Has Risen Stiffly in Last Few Weeks.

BERLIN, Jan. 3.—According to figures published by a statistician, Dr. Kuczynski, the minimum living wage in Berlin for a family of four was 509 marks a week during the month of November—that is, 222 for food, 10 for housing, 31 for heating and lighting, 128 for clothes, and 118 for sundries. In October the weekly minimum was 386, September 349, August 339, and in July 324, showing how steeply the cost of living has risen during the last few weeks. The July minimum in 1913 was 28.8.

Dr. Kuczynski estimates that the internal purchasing power of the paper mark, calculated on the minimum wage basis, is now equal to .06 gold marks. Index figures published by the "Frankfurter Zeitung" tell a similar tale. If the figures of 100 is taken as representing the market price of food (including luxuries) at the beginning of last year, the figures for this first week of December is 378. Compared with pre-war rates, present prices have increased more than thirty-three-fold.

Textile prices have risen out of all proportion. The index figures show that last month the market price of textiles was 46 times the peace rate, but this month it is 65 times the peace rate. The last week in November also saw a record inflation, for the banknotes in circulation increased from 3,479.9 million marks to 100,943.6 million marks.

Chorus Approval In Favor Anglo-Irish Treaty; Still South Parliament Divided

DUBLIN, Jan. 3.—The members of the Dail Eireann, the Southern Irish parliament, reassembled this morning after an adjournment of twelve days. The discussion of the Anglo-Irish treaty has been resumed, and it is believed that a vote will be reached by Thursday.

Since the announcement that the treaty had been signed, 101 public bodies have passed resolutions favoring it and yesterday five more county councils added their voices to the chorus of approval for ratification. The unanimity of the farmers in their demand for the acceptance of the treaty is a notable feature.

The groups in Dail Eireann today, however, seem to be as wide apart as they were when adjournment was declared for the Christmas holidays. It is declared here that the situation is largely dominated by partisan spirit.
