Defeat Of Irish Rebels Is Complete LARGE SPECIAL PARTY PRAIRIE TOURISTS VISITS CITY TODAY

Last Stronghold of Republicanism Falls in Ireland

DUBLIN, July 6.—The last stronghold of the republican insurgents fell on Wednesday when Charles Burgess, one of the principal leaders, was captured as he walked from the burning house with a revolver in his hand. Refusing to surrender he was fired on by Free State troops and wounded in the leg. Rumor has it that De Valera has been wounded and captured too, but this is unconfirmed. Most of O'Connell Street, formerly Sackville Street, has been burned down and destruction as well as loss of life has been very great in the last few days fighting. It is rumored the hierarchy has agreed to act as mediators between the two southern parties, with a view to bringing about a permanent settlement.

Big Casualty List
DUBLIN, July 6.—The casualty list from yesterday's fighting shows one killed and sixteen wounded. In a forecast for the day's fighting in Dublin casualties are given as 61 dead and 259 wounded, not including four snipers shot dead in Marlborough street and the wounded taken prisoners from the republicans' stronghold on Sackville Street. The material loss to citizens is heavy, the value of buildings destroyed being estimated at between £2,000,000 and £3,000,000.

BAD ACCIDENT NEW YORK SUB

One Hundred and Fifty People Overcome in Street Railway Explosion
NEW YORK, July 6.—About 150 persons were overcome with smoke today when a Jerome Ave. express on the east side subway caught fire. Dozens of ambulances were summoned from nearby every hospital in the city and Mayor Hylan arrived to direct rescue work. The accident happened 75 feet underground when fire started in the motor-man's box. There was a flash of flame and the smoke swept through the crowded train. Fire ladders were dropped through gratings and unconscious women were lifted to the street. The injured were stretched out on the sidewalks for several blocks and police reserves had to be rushed to the scene to control the crowds of spectators.

GRAIN CROP IS LOOKING WELL

Reports From All Parts of Alberta Indicate That Rains Beneficial.

EDMONTON, July 6.—Rains which have fallen fairly generally over the province during the past few days have materially improved the situation with respect to crop conditions, and have saved the grain from actual drought in several districts. The feeling in the province at this date is one of optimism and the indications are for the harvesting of a very fair crop states the fifth report of the department of agriculture.

In some districts prior to these rains the grain had begun to burn, and in one or two sections farmers were actually plowing up crops. The rains of June 29 and 29, however, brought needed moisture.

Precipitation during these rains totalled from one-third to an inch and one-third. The rains have been accompanied by cool weather.

Wheat is appearing in the shot blade in some districts and generally speaking this grain will be short in straw. Other grains are in fairly good shape. From 30 to 50 per cent of the rye is being cut for feed, owing to the probability of a shortage in hay crops, and the likelihood of a short price for this grain in the fall. Alfalfa is being cut in the south and is showing fairly heavy yields.

The grasshopper menace is practically under control in all districts, and the loss will be very light from this cause, although farmers are urged to continue their efforts for the next few weeks.

MONTREAL'S BOARD OF TRADE TO SEE THE WEST

MONTREAL'S BOARD OF TRADE BUILDING AND W. BIRKS, PRESIDENT OF THE BOARD

It is not long since the Western members of the Federal Parliament paid a visit to Quebec Province, going to Montreal and Quebec City, where they had a chance of seeing for themselves something of Eastern Canada's great industries, and the big seaports through which so much of the foreign trade of this country flows. They were tremendously interested in what they saw, and at the luncheon given them at the Chateau Frontenac, Quebec, several of their spokesmen voiced the hope that some of Eastern Canada's leaders in business and in public affairs would return the visit by journeying across the country to get a first-hand acquaintance with the West and its problems.

This return visit has in some measure already been arranged. On September 1 a large number of the members of Montreal's Board of Trade, accompanied by their wives, will set out on an extended tour that will include the Pacific Coast. Other similar tours may be arranged later on, and all of them, like that of the Montreal Board of Trade will make for the binding together of East and West, and the creation in each section of the country of a better understanding of the problems with which other localities are faced.

The itinerary of this important tour is, in general, as follows:—The party will leave Montreal by special C.P.R. train at 11 p.m., September 1, for Port McNicoll, via Toronto. Here the party will board a C.P.R. steamer for Sault Ste. Marie and

Trip Never to be Forgotten Say Visitors to City of the Tour Through Northern B. C.

The Canadian National special tour train bearing 200 Eastern tourists reached the city at 11 o'clock last evening, here being a large crowd of citizens on hand to welcome the visitors. Immediately on arrival, many of the visitors and townspeople left for the Exhibition Hall to attend the big dance. Today the visitors are being shown about the town, waterfront and harbor, cars, launches and special train being used for the purpose.

The train arrived at Smithers yesterday morning on time. Sufficient time was allowed there for the party to look over the town and, on leaving there, Superintendent J. P. Kirkpatrick, accompanied by H. McEwen, passenger representative of the company from Prince Rupert, boarded the train and gave invaluable assistance in pointing out to the members of the party the most interesting features of the route. A stop was made at Buckley Gate where a great many pictures of this natural wonder were taken. Passing Hazelton the confluence of the Bulkley and Skeena Rivers was pointed out and the old town of old Hazelton between the forks of the two rivers.

On arrival at Kitwanga, the entire party got off the train and led by officials, were conducted to the village and cemetery. The numerous totem poles and Indian curiosities were observed with interest.

Presented with Purse.
On arrival at Pacific a novel stunt was pulled off when the two dining car stewards, C. Glover and Pete Lamont, were called to the platform and, as a mark of appreciation of the excellent service rendered under their supervision on the dining cars, were presented with a purse of forty dollars.

Another interesting novelty, which was thoroughly enjoyed by all, was a dance given in the dining car last evening.

Other points visited on the way to Prince Rupert were Terrace and Sunnyside Cannery. At the latter point the operation of the cannery was demonstrated and explained to the party a great majority of whom had little or no understanding of the workings of the iron chink. The visitors were met at Sunnyside by several local teachers headed by Miss B. Macdonald.

Left for Anyox.
About 20 of the party, on arrival at Prince Rupert, left for Anyox but the majority are spending the day in the city.

The consensus of opinion of the visitors is that their trip has been one of a lifetime and one never to be forgotten. The service given by the Canadian National Railways, they say, was 100 per cent perfect.

T. McDonough, special passenger representative from Winnipeg, is personally conducting the tour. The party goes south on the Prince George tonight and will disband at Vancouver many going to visit Victoria, Seattle and Portland before returning East.

BUILD ROAD TO ALBERTA

Premier Says Province Will Do Her Part Soon as Alberta Acts.

FINDS BEST ROUTE.

VICTORIA, July 6.—Hon. W. H. Sutherland, minister of public works, told the pathfinders from Edmonton who blazed the trail for motorists from Alberta to Victoria by way of the Jasper trail, that British Columbia will build a road through to Alberta as soon as Alberta will have the road completed to meet it.

A scheme, whereby the Dominion Government and the provinces shall join forces in a 60-40 arrangement to build the road was advanced.

Premier Oliver suggested they patch up and make the best of existing trails meantime rather than wait for the expensive project. It would be best to find out which was the best route before a permanent road is built.

DEATH PENALTY IS TO BE ELIMINATED FROM RUSSIAN LAW

MOSCOW, July 6.—The death penalty as a permanent institution has been eliminated from the code of laws approved by the All Russian Central Executive Committee. But as a temporary measure, in case of a counter revolution, the revolutionary tribunals are authorized to inflict it until such time as the committee decides it is no longer necessary. Under the new code terms of imprisonment may be from six months to ten years; the previous limit was five years. Nevertheless the death penalty is being frequently imposed throughout Russia today by military and civil revolutionary tribunals. In one day ten persons were shot at Yaroslavl for robbery of Red Army supplies while three peasants were condemned to be shot at Simbirsk for stealing seed grain intended for planting.
