BRINGING UP FATHER

SCHOOL TANK
FOR SWIMMING

Sum Is Placed in Estimates
Which May Be Applied to
Purpose if Thought
Advisable.

At the meeting of the school board last night the trustees decided to include in the estimates for playground, apparatus and swimming tank an amount sufficient to pay half the cost of the tank in the basement of the new school provided the Rotary Club was still prepared to go ahead and carry out their share of the project. It was clearly laid down by the member that no action would be taken except after a complete investigation by men competent to form an opinion and estimates of cost had been secured confirmatory of those already supplied by the Rotary Club.

Some members of the board expressed the opinion that the City Council had not given the proposal mature consideration. The main object of the tank was to teach the children to swim but possibly it might be used in the evenings by adults and the cost of upkeep could be met by making a charge.

Not Give Up Scheme.

Dr. Kergin said he did not think they should give up this scheme. If they did not take the offer of the Rotary Club now, the club would turn its efforts in some other direction and anything done would have to be carried out in future without their help.

L. W. Patmore was doubtful of the wisdom of trying to carry it through when the city council was opposed to it. Finally it was decided to include in the estimates a sum sufficient to cover it, which might be spent for playgrounds or apparatus in the playground provided it was decided that the plan was not feasible.

BILLIARD LEAGUE.

The Elks won the fifth game from the Sons of England in the Trail Club shield tournament last evening when B. Morgan defeated J. Farquhar by a score of 200 to 167. The total so far in the tournament stands: Elks, 4,000; Sons of England, 799. The sixth game between C. Balagno (Elks) and George Hill (Sons of England) has not yet been played.

SINGING IN SCHOOLS

One of the resolutions passed by the local school board provides for the compulsory teaching of singing in the local schools after September 1933. That gives the school teachers a year and a half to fit themselves for teaching it.

Until such time as the local staff have had an opportunity to take up a singing course in readiness for the teaching of singing to the pupils, the board will probably make other arrangements.

Sport Chat

The Anyox Community League is putting on a big smoker in the Recreation Hall at the smelter town tonight. There are ten big bouts set down and the chief one will be a six round contest between George Corkle, formerly of this city and now of the Anyox mine, and John Morgan of Ladysmith. Corkle's prowess is well known here and it is understood that he is to be pitted against a man who will compel him to extend himself. It is expected that news of the bout will be received here tomorrow morning.

An invitation has been extended by Anyox to the local Elks' basketball team. Senior League champions, to go North on Sunday night with the Elks' installing officers to play two contests with a select team from that town. The local boys are anxious to go to try out their skill with the smelter down and it is now being endeavored to make suitable arrangements for the trip. The only difficulty is that of transportation for by steamship service it would be impossible for the locals to return before next Thursday night. If a special boat can be secured the trip will likely be made.

PROPOSES TO PUT
PRINCE RUPERT ON
A BETTER "FOOTING"

Shoe Man Says Foot Comfort
Service Will Do It.

Prominent physicians claim that nine of every ten people have some form of foot trouble. Large employers ascribe to this fact that most workers "show up" perceptibly toward the middle of the afternoon. The Family Shoe Store management agrees that this is very true, and proposes to demonstrate that it also is needless, or, as he puts it, "worse than needless."

His authority for this is Dr. Wm. M. Scholl, the well-known foot specialist, whose methods and appliances for relieving foot troubles and correcting the cause are in use throughout the world. Wood pavements and other present day conditions cause callosities, corns, stiffness, burning sensations and other discomforts. Dr. Scholl has proved that when the bones in the feet are properly supported by appliances of moderately springy metal they gradually resume their normal position and function.

Special Demonstration.
For the first three days of next week there will be a special demonstration of Dr. Scholl's foot comfort appliances at the Family Shoe Store on Third Avenue. This will be conducted by a graduate Practitioner (foot comfort expert), whose training was received under Dr. Scholl. He offers without charge to thoroughly examine the feet of men, women and children of all ages through the hose, locate the seat of the trouble, describe the nature of the discomfort and demonstrate the means of correcting the cause.
