Fielding Announces Budget Changes

IMPRISONMENT ONLY PUNISHMENT FOR ILLEGAL LIQUOR SELLING

Several Important Changes Are Made in Budget and it Is Expected Government Safe

OTTAWA, June 13.—Hon. W. S. Fielding, minister of finance, announced in the House of Commons last night that several changes had been made in the budget provisions.

The confectionary tax will not apply to goods ready for sale in cartons priced at less than ten cents.

The soft drink tax is broadened to take in fountain sales but the tax is reduced from ten cents to five cents.

The tax on ale, beer, porter, stout is now set at 12½ cents a gallon.

The cigarette tax is reduced to 87.50 a thousand.

The stamp tax is amended to make it two cents on all amounts up to \$50 and two cents on every fifty dollars until two dollars is reached, which is the maximum tax. All receipts over ten dollars are taxable two cents and the giving of receipts is made compulsory.

The tax on cheap cigars is reduced and on expensive cigars increased, while medium priced cigars remains as before.

Automobiles are taxed five per cent up to \$1,200 sales and ten per cent on autos priced higher than that amount. Sales made up to May 23 and delivered before July 1 are exempt from the new taxation.

Vote Likely Tonight

The stage is set for the vote tonight on the modified budget. Further debate on it will probably occur and may occupy the greater part of today's sitting. Hon. A. K. McLean being scheduled to open the speech making.

The changes made in the budget and their effect on tonight's vote have been the subject of wide comment. There are features in the changes which are welcomed by the Progressives such as the modification in the tax on autos and the addition of freezers to the free list as far as sales tax is concerned. Others such as the change in regulations in regard to countries with depreciated currency and the limitation placed on the stamps on checks and money orders will probably be received by Conservatives with approval but it is doubtful if the changes are sufficient to induce the Progressives and Conservatives to vote as a body with the government on the main budget motion. The impression prevails that the government will get sufficient support to secure a safe majority.

HAZELTON MEN ARE FINED FOR SETTING FIRE TO FORESTS

The local forestry office has received word that a prosecution at Hazelton for setting a fire without a permit against Messrs. Watson, Karki and S. Sanders before Magistrate Mulvaney resulted in the imposition of a fine of ten dollars against each of the offenders.

The department complains that there is great carelessness in regard to setting fires. Most of the recent trouble has been the result of carelessness and prosecutions have been necessary. This is the first in the north but others are likely to follow.

ENGLISH ENGINEERS RETURNING TO WORK; FOURTEEN WEEKS OUT

Accept Terms Offered by Employers for Settlement of Lockout.

LONDON, June 13.—By a vote of 76,478 against 33,423, the Amalgamated Engineering Union voted for the acceptance of the employers' proposals for the settlement of the lockout in the engineering industries, which has been in effect for fourteen weeks.

COST OF FINISHING STREET SURFACING

Ald. Dybhavn Calls For an Estimate from the City Engineer—Is Exceeding Original Estimate.

The city engineer has been instructed by the city council to prepare and submit to the finance committee as soon as possible an estimate on the cost of completing the Section 1 resurfacing program.

Ald. Dybhavn, chairman of the finance committee, in moving a resolution to this effect at last night's council meeting, said that it was quite evident the money at first contemplated would not complete the work and more funds would be necessary to finish it. The finance committee and the council should know, Ald. Montgomery seconded the motion which was carried without discussion.

FROST ON PRAIRIES DURING LAST WEEK

Mail advices to hand show that there was frost at various points on the prairies at the end of last week. Ten degrees of frost was reported from Vegreville and Lloydminster and four degrees at Red Deer. There was two degrees at The Pas and five at Russell. Many other points showed the thermometer hovering around the freezing mark and dropping slightly before it. Saskatchewan was almost free of frost but not quite. Alberta suffered most. The chief damage was to garden crops.

Len Bell, of Railway Employees' Investment and Industrial Association, is in City.

BIG PLANE IS NOT COMING TO PRINCE RUPERT

Len Bell, president of the Rail-

way Employees' Investment and Industrial Association, which is bringing the big steel JL-6 plane to go into the transportation business from Hazelton to points north, arrived in the city on last night's train and will return east tonight to Hazelton and Terrace where he has business.

Mr. Bell reports that the plane is laid up in Edmonton on account of an undercarriage wheel having been broken. It had been planned to be in Hazelton yesterday but it is necessary to send to New York for the damaged part and it will be probably a couple of weeks before the machine can reach Hazelton. Mr. Bell says that the machine is not coming to Prince Rupert nor is it going to the Yukon. There is plenty of work north of Hazelton taking prospectors and others into the Omineca, Inguna and Manson Creek countries and already four parties are waiting to be taken into the latter point. On account of winds and rain it would be taking a pretty big chance to bring a machine of the description of this one to Prince Rupert.

The machine is of the JL-6 model, has a speed of 130 to 165 miles per hour and can carry seven passengers and 2200 pounds of freight. It cost \$26,000 and has a 207 h.p. motor.

GOOD ROADS

VICTORIA, June 13.—The first day's session was occupied by technical experts on problems peculiar to the prairies.

REPORT IS MADE ON FIRE RISKS

Fire Chief and Building Inspector Submit Results of Inspection to Council.

Reports from D. H. McDonald, fire chief, and H. L. Landry, assistant engineer, regarding fire risks in the city were received by the city council last night. The former was referred to the utilities committee and the latter to the Board of Works.

The fire chief reported that all public buildings in Section 4 had been inspected. In cases where the fire regulations were not being complied with, the matter had been taken up with the owners. Twenty-seven notices calling for alterations and repairs to chimneys, fire escapes and other points had been sent in the month of May.

Construction Not Right.

The building inspector's report indicated that the construction of several buildings inspected had not come up to the requirements in that there should be no board partitions without plaster or basements without metal baths. The most expeditious way by which to handle the situation might be through government. Such premises as the Western Hotel, Inlander Rooms, Houston Hotel, King George Hotel, Bayview Hotel, Pacific Rooms, Dominion Hotel, Grandview Hotel, West End Rooms, Java Cafe, Steele Block, and St. Louis Rooms were mentioned in the report.

Not Drastic.

Ald. Kelly said that the officials were now freed of responsibility since they had made their report and brought the matter to the attention of the council, whose duty it was to now formulate a policy. Ald. Collart, who originally called for the report, thought they should not be too drastic if conditions were sufficiently good to prevent fire.
