DAILY EDITION

Thursday, August 31, 1922.

Canadian Dollar Touches Par Value.

Once more a Canadian dollar is as good as an American. Brothers, we are equals once more and can do business as man to man without any handicap on either side. Possibly there may be variations from this until conditions become more settled but the despots say that yesterday for the first time since 1915 a Canadian dollar is worth an American dollar in New York. We have regained our financial self respect and can hold our heads as high as the other fellow.

Difference Between Rut And Grave.

The difference between a rut and a grave is simply a matter of depth. That was an apt epigram used by Samuel Grathwell at the Chautauqua lecture last night. It means a whole lot. Keep on making your rut deeper and eventually it becomes a grave. That was the inference. The person in a grave is a dead one and quite useless.

We all tend to get into our own little ruts and especially as we get older is there a danger of making the rut so deep that it becomes a financial, mental and spiritual grave. This is a pretty good time to climb out before it is too late.

Preparations For Biggest Exhibition.

Preparations are being made for the biggest exhibition on record commencing September 12. Judging by the present prospects it looks as if all previous efforts would be excelled. Outside places are taking a much greater interest in the event than has ever been the case heretofore, the railway is co-operating in granting special fare and a third rates and the number of side attractions is greater than ever. Added to that will be the opportunity of taking a flier in Len Bell's sea plane. Taken all in all the prospects are good. All that will be needed will be for the weather man to be kind in order to make the affair a complete success.

Immigration Is Problem Of Day.

The question of securing immigration to this country is one of the problems with which the Dominion Government is wrestling. There are some who would like to see all harriers lowered and thousands of people of all classes and conditions allowed to come here. On the other hand there is a danger of lowering the standard of living by too free admission of people from the slums of Europe. What we want in Canada is an industrious white population made up of people who can qualify as citizens and who can assimilate with the rest of the people.

Canada has immense tracts of uncultivated lands. The people in the crowded countries wish to go on those lands. It would be not only selfish but absolutely immoral to prevent them coming. To play the dog in the manger would not be good for Canada. Immigration under reasonable restrictions would be the proper thing without doubt.

Moulders Of Public Opinion.

Any person who sets himself up as a moulder of public opinion whether he be a leader writer or a letter writer has mistaken his calling. There is no such person on the staff of the Daily News. The people of this city like to read opinions almost as much as they like to read the news. That is why this column is written nearly every day. The comment is an incident in the day's work of one of the staff. No small newspaper can afford to give much time to the expression of editorial opinion. The news is the important thing in any newspaper and especially so in the small town. Of one thing readers may be assured, however, and that is that the opinion is an honest one based on the information to hand. That the leaders are appreciated and read with interest is made clear from the numerous discussions in regard to the subjects mentioned therein.

MAKE PREPARATIONS FOR RECEPTION TO MONTREAL VISITORS

Two Hundred Members of Board of Trade and British M.P.'s Expected

A preliminary meeting of the council of the Board of Trade was held yesterday afternoon in the Police Court for the purpose of considering what steps should be taken to entertain the members of the Montreal Board of Trade members when they arrive here on September 23. It is expected there will be about two hundred in the party. They are travelling to Vancouver in a special train and a special train will meet them here on their arrival. In the party will be about thirty members of parliament and of Old Country boards of trade who are joining the Montreals on the tour.

It was decided to leave the matter with the entertainment committee of the board to take up with the mayor and council and make tentative plans to be elaborated later, when further information in regard to the party is forthcoming.

Ten Years Ago in Prince Rupert

August 31, 1912

Mr. and Mrs. William Agnew, of Victoria, entertained many of the city's leading society people at a bridge party given in the home of their son, A. W. Agnew, McBride Street, last night. The prize winners were, at auction bridge, Mrs. A. J. Morris and Miss Balfour, Travis Lucas and H. P. Wilson. Mrs. F. J. Ritchie, Mrs. Hubert Ward, Mrs. Bullock Webster, J. G. McMaster, A. E. McMaster and R. L. McIntosh were also prize winners.

Mr. Poole and Mr. Overmere, of the U.S. Steel corporation, were arrivals on the Prince Rupert this morning. They are here in connection with steel contracts for the dry dock construction.

The waterfront was busy yesterday afternoon when four big steamers, Prince Albert, Prince John, Camosun and Princess Mary, were tied up at the Grand Trunk Pacific dock.

Ten Years Hence in Prince Rupert

August 31, 1932

A real race was seen for a few minutes this morning when two trans-Pacific airboats flashed over the waters of the harbor in a race for the landing at Tuck's Inlet. The Europa, the big phosphor-bronze craft from London and Paris was an hour late, and flying high above the cloudbank. Near Lucy Island, the Singapore and China local was noticed far below. Both boats put out a spurt to reach the landing first. The London vessel won, but her landing was dangerously fast. The Safety Commissioner has endorsed her pilot's ticket for the second time.

J. H. Pillsbury returned on the Montreal morning express with another bunch of orders. The most important is for fifty more 500 ton fliers to be built right away for the Patagonia Service, duplicating last week's order. Another shift will be put on at the Dry Dock plant, this making the sixth four hour shift. The machines at the local shops will work 24 hours a day from now on.

Tony Christian's tender was accepted at a special session of the board of works last evening for the enlarging of the present Arcade between McBride and Zanardi. The new bore will be 1,000 feet wide by fifty feet high, and when completed, space concessions will be balloted for. Already applications are in for more than double the space available. It is expected that seventy-five thousand people will find amusement in the new Arcade, which will relieve the extreme congestion on the holiday wet days in the present one. Sixty days is allowed for the completion of the work.

City Manager Montgomery stated this morning that he was able to secure a premium of 10 per cent on the last issue of city

PRESERVING FRUIT CARNIVAL

The next two weeks should see the greatest bargains in preserving fruits that ever were offered in Rupert. Conditions were never so favorable for cheap fruits for preserving as today. The railroad strike in the States has cut off almost completely the competition of Eastern markets with the result that Coast markets are glutted with fruit that must be sold regardless of profits. Here is your opportunity to save money by canning your own fruit.

Remember Monday, Sept. 4th, is Labor Day.

Shop early this week.

Bartlett Pears for preserving. We offer for arrival Labor Day, delivery Tuesday, 50 Boxes of Extra Fancy Wrapped Stock at \$2.65 Per Box.

Each box weighs at least 45 lbs, nett and we assure you that 6¢ per pound does not leave the grower enough to pay for the boxes. We will book orders only to the amount we have arriving.

Freestone Elberta Peaches now in stock, plenty of large sizes at \$1.45 Per Box.

We hope to have an even lower price but would advise you not to wait.

FIRE INSURANCE RATES REDUCED BY 10 TO 20 PER CENT

New Schedule Arrived in the City Yesterday and is in Force Aug. 1.

The new rates schedule for fire insurance has arrived in the city with instructions for them to go into effect from August 1. A complete re-rating of the business section has been carried out, showing reductions in present rates running from ten to twenty per cent and a few increases. Those paying at present eight per cent in the centre of the city will now pay an average of about \$6.50 some a little more and some slightly less.

There are no changes in the residential rates as those had already been reduced some months ago and are said to be reasonable.

The survey was made some time ago and the present changes are based on it.
