

... SUCCESSFUL ... SOCIAL FUNCTIONS.

The successful society matron recognizes that in order to maintain her position as a society leader she must follow certain well defined lines; she must not forget the "frills"—those little aids that may mean the difference between the success or failure of her affair.

Probably you intend holding a whist drive and dance, a bridge or five-hundred party, an "at home" or a birthday party in honor of a daughter or friend. If so, you will require dance programs, tally cards, place cards, bridge score or five-hundred pads, as the case may be. In any case, whatever your requirements, consult us before buying elsewhere. We carry an excellent stock of artistic designs, unexcelled material, and at a reasonable price.

Fire Chief D. H. McDonald has been notified officially of his appointment as local assistant fire marshal for the provincial government. The office has been created in connection with insurance matters and the fire chiefs of each city in the province are made assistant marshals. The head marshal is J. A. Marshall, of Vancouver. 11

The following telegram was received yesterday from Vancouver, addressed to the K. of C. concert party for St. Patrick's Day concert committee: "Have signed third and special matinee Saturday, 18th, in Ernest Butler, late of London, England. Headline as follows: Ernie Butler, comedy conjurer, introducing interesting and amusing novelties and up-to-date clever illusions, namely sleight of hand tricks with lots of comedy; an excellent talker and entertainer; tricks with cards, eggs, cigarettes, slates, packages, etc., a specialty. In addition to program you now have on hand, my daughter Norah and I will provide any extras required in case of emergency for either performance. Butler has splendid record from all reports. (Signed) Barry Shannon." 11

LABOR AND CAPITAL HAVE EQUAL RIGHTS

That Is View of Secretary of
Winnipeg Trades and Labor
Council.

WINNIPEG, March 6.—"The principle is coming to be recognized that the investment of labor in industry must have equal rights with the investment of capital in industry," declared Ernest Robinson, secretary of the Winnipeg Trades and Labor Council, when addressing the Rotary club at its luncheon at the Fort Garry.

Mr. Robinson's subject was "Unemployment Insurance," and in the course of his address he said industry must take care of the investment of labor as well as the investment of capital. While unemployment insurance might not be a remedy for unemployment it was the first step towards removing from the lives of workers the extreme anxiety regarding unemployment, which militated against men giving their best to industry. Once they had recognition of the principle that labor should be the first charge on industry they would have made the first great step towards relieving workers of that particular anxiety of unemployment.

ARRANGE TEMPORARY REGULATIONS GOVERN AMATEUR RADIO STNS

OTTAWA, Mar. 6.—As a temporary measure pending the issue of new regulations governing amateur radio stations, the department of naval service has authorized the use of the wave length of 200 metres for continuous wave and radio telephone transmission by all licensed amateur stations throughout Canada, except where they immediately adjoin commercial stations. Spark transmission will continue to be limited to the wave lengths prescribed in the license. This order is effective today.

This new order is the first official recognition of the superior tuning qualities of the continuous wave type of transmission insofar as amateurs are concerned. Heretofore amateurs have been limited to 50 and 150 metres according to their distance from the nearest commercial station, and the additional privilege now allowed to the holders of continuous wave transmitters will no doubt result in the abandonment of the spark sets by progressive amateurs, says the statement issued last night.
