Lloyd George Scores Another Victory CONSERVATIVE LEADERS ATTACK FIELDING BUDGET IN COMMONS

British Premier's Conference Policy Gets Support of House by Splendid Margin 235 to 26

LONDON, May 27.—Following Premier Lloyd George's exposition of his Russian policy and analysis of the Genoa conference as a basis for further conference at The Hague, the House of Commons last night voted down the motion of no-confidence in the government's policy by a vote of 253 to 26 thus constituting a vote of confidence in the government.

Rupert Gwynne, Unionist, mover of the vote of no-confidence, Hon. H. H. Asquith, former Premier, Lord Robert Cecil and John Robert Clynes, Labor member, all criticized Lloyd George's policy and the result of the Genoa conference. The premier answered them point by point and thundered back his answers while the House buzzed with excitement occasionally breaking into cheers.

ULTIMATUM TO GERMANY

To Get Billion Dollar Loan Must
Accede to Reparation Demands.

REPORTED GERMANY GETS BRITISH LOAN

PARIS, May 27.—Before adjourning until May 31 to await the decision of Germany, the International Committee of Bankers, considering reparations, served a note on Germany today intimating that further consideration of a billion dollar loan to Germany was conditioned upon the German acceptance in full of the conditions of the ultimatum of the reparations commission by May 31 and also adequate guarantees that Germany's currency will not be further inflated.

Gets British Loan.

COPENHAGEN, May 27.—Newspapers state that negotiations between German and English bankers have resulted in Germany obtaining means for the paying of the reparation installment due on May 31. The negotiations are said to have been conducted through a Danish intermediary.

LONDON, May 27.—The German government has accepted the Allies' reparations proposition. It is feared in official circles however, that the proposition has only been accepted as a basis for discussion while the determination of the commission was that they constituted the last word.

PROTESTANTS AS BADLY OFF AS THE CATHOLICS

BELFAST, May 27.—The Ulster Association has sent a message to Hon. Winston Churchill remarking that the Catholic protection committee in its telegram to Great Britain last week telling of Catholics murdered did not refer to the fact that ten Protestants had been murdered in four days and that several others had been threatened with death while the premises of 18 Protestants had been set afire.

BELFAST, May 27.—A British soldier was murdered and another was seriously wounded at the post office on College Green this afternoon says a dispatch from Dublin. The shooting was done by a civilian.

LE BUDGET, FRANCE, May 27.—Major W. T. Lake, the British aviator, and his companions resumed their flight around the world this morning, taking off from here for Turin, Italy. The airmen are now three days behind schedule.

Referring to the British criticism of France in certain quarters, the Premier declared that Britain could not settle the reparations question unless France was carried along and that could not be done by flouting France and ignoring the Versailles Treaty.

Opinion of Russia.

The premier said that the Russian government knew quite well that the policy of repudiating debts would not go and forecasted that the Moderates in the Soviet would eventually fall in line with a commonsense business policy. He said that the talk of communism in Russia was all humbug. The country was more individualistic than England itself, in fact, it was a paradox of individualism talking communism. The premier said he believed the Soviet could control property sufficiently to provide adequate security for business dealings with other nations. Referring to Russia's memorandum of May 11, he said that it was so foolish that it must have been written by a very clever man.

IRON AND STEEL THIS DISTRICT

A. C. Garde Prepares Data for
Submission to Ottawa
Authorities.

The geographical survey department of the Dominion Government has decided to send Dr. G. A. Young, one of their best qualified iron experts, on a trip of reconnaissance throughout the province of British Columbia to investigate the resources of iron and other mineral deposits, with the idea of establishing a steel and iron smelter in the province.

Dr. Young is especially anxious that no iron, or other mineral deposits, of prospective value be overlooked, and he will be glad if the owners of any such deposits will send him all the particulars at their command. Such information as to location, elevation, means of access, type of ore, probable tonnage, and reference to former reports will be most valuable. Dr. Young has stated that an iron industry would be of incalculable benefit not only to the province of British Columbia but to the whole of Canada.

Local Data.

All the data pertaining to the iron, coal and fluxes, adjacent to Prince Rupert, has been compiled by A. C. Garde, M.E., in a lengthy report containing all the features of interest and giving a clear illustration of the iron and coal situation in northern British Columbia. Mr. Garde, in his report, has particularly pointed out the great advantages that the district in the vicinity of Prince Rupert has over any other section of the entire province.

In addition to this geographical survey by the Dominion government it is interesting to note that the Yorkshire Guarantee & Trust Co., of Vancouver, are commencing diamond drilling operations early in June on the extensive coal holdings in the Copper River country, situated approximately 140 miles from Prince Rupert, on the proposed cut off over the Copper River between Copper City and Telkwa.

Budget Debate Starts in House of Commons But is Adjourned Until Monday

OTTAWA, May 27.—The first broadside in the budget debate was delivered by Sir Henry Drayton, former minister of finance, who is the chief opposition critic. He moved, and Hon. Arthur Meighen, former premier, seconded, that the House record its conviction that the government had broken its election pledges and failed in its promises regarding the tariff. Hon. J. A. Robb and O. Turgeon replied on behalf of the government and R. J. Woods and D. W. Warner, Progressives, criticized, while J. A. McKelvie, Conservative member for Yale, made a long speech denouncing the removal of the dumping clause which he said had been effective in the building up of the fruit industry. Mr. McKelvie also criticized the removal of the German exchange restrictions which he said would put Canada's workmen in competition with the Germans. Hon. Charles Stewart adjourned the debate and will reply on behalf of the government on Monday.
